

customer's portfolio of rights and obligations arising out of cleared swaps intermediated by the FCM. The purpose of this collection of information is to facilitate risk management by DCOs in the event of default by the FCM, to enable DCOs to perform their duty, pursuant to section 22.15, to treat the collateral attributed to each customer of the FCM on an individual basis.

Section 22.12 requires that each DCO and FCM, on a daily basis, calculate, based on information received pursuant to section 22.11 and on information generated and used in the ordinary course of business by the DCO or FCM, and record certain information about the amount of collateral required for each Cleared Swaps Customer and the sum of these amounts. As with section 22.11, the purpose of this collection of information is to facilitate risk management by DCOs and in the event of default by the FCM, to enable DCOs to perform their duty, pursuant to section 22.15, to treat the collateral attributed to each customer of the FCM on an individual basis.

Section 22.16 requires that each FCM who has Cleared Swaps Customers disclose to each of such customers the governing provisions, as established by DCO rules or customer agreements between collecting and depositing FCMs, relating to use of customer collateral, transfer, neutralization of the risks, or liquidation of cleared swaps in the event of a default by a Depositing FCM relating to a Cleared Swaps Customer Account. The purpose of this collection of information is to ensure that Cleared Swaps Customers are informed of the procedures to which accounts containing their swaps collateral may be subject in the event of a default by their FCM.

Section 22.17 requires that each FCM produce a written notice of the reasons and the details concerning withdrawals from a Cleared Swaps Customers Account not for the benefit of Cleared Swap Customers if such withdrawal will exceed 25% of the FCMs residual interest in such account.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On August 6, 2026, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 91 FR 50817 ("60-Day Notice"). The Commission received two relevant

comments on the 60-Day Notice.¹ One commenter argued that the current reporting framework is outdated and structurally deficient, and suggested the Commission modernize its information collection requirements.² While revisions to the reporting framework for Part 22 would ultimately revise the burden estimates in this notice, revising the current reporting framework is beyond the scope of this renewal. Another commenter supported renewing this collection because daily collateral calculations, customer-level records, and depository acknowledgments are essential to safeguarding customer assets and to performing orderly default management.³ The commenter urged the Commission to provide standardized, non-identifying public summaries of collateral sufficiency and compliance issues, strengthen disclosure and reporting practices, and ensure burden estimates are transparent and validated. The Commission acknowledges the commenter's recommendation for additional public disclosures. The Commission notes, however, that it publishes extensive information regarding firms' financial condition and the amount of customer funds held in segregation. In determining the scope of publicly available information, the Commission has balanced the benefits of disclosure with the potential risk that the publication may undermine market integrity and/or compromise customer confidentiality. Based on these considerations, the Commission has determined not to further expand the content of the publicly available information at this time.

Burden Statement: The Commission is revising its estimate of the burden for this collection for 95 respondents (71 FCMs and 24 DCOs). The respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents: 95.

Estimated Average Burden Hours per Respondent: 314.

Estimated Total Annual Burden Hours: 29,830.

Frequency of Collection: Section 22.2(g)—Daily. Section 22.5(a)—Once. Section 22.11—Daily. Section 22.12—Daily. Section 22.16—Once. Section 22.17—On occasion.

³ Comment Letter from Michelle Maher, CFTC-2026-1684-0004, available at: <https://www.regulations.gov/comment/CFTC-2026-1684-0004>.

There are no capital costs or operating and maintenance costs associated with this collection.
