The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on May 18, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: West Coast Region Groundfish Electronic Fish Ticket Program.

OMB Control Number: 0648–0738.

Form Number(s): None.

Type of Request: Regular submission (extension of a currently approved collection).

Number of Respondents: 189 respondents.

Average Hours per Response: Electronic fish ticket submission: 2 minutes; Electronic fish tickets/IFQ First Receiver submissions: 10 minutes; Electronic fish tickets/IFQ First Receiver Pacific whiting disposition recordkeeping: 1 minute.

Total Annual Burden Hours: 155 hours.

Needs and Uses: This is a request for an extension of an approved information collection. As part of its fishery management responsibilities, the National Oceanic and Atmospheric Administration (NOAA), National Marine Fisheries Service (NMFS) collects information to determine the amount and type of groundfish caught by fishing vessels. Electronic fish tickets are submissions of landings data from the first receiver to the Pacific States Marine Fisheries Commission (PSMFC) and NMFS. This collection supports requirements for participants of the Pacific Coast shorebased commercial groundfish fisheries (including the shorebased Individual Fishing Quota (IFQ) program, the limited entry fixed gear fishery, and the open access fixed gear fishery) to account for all landed catch and to send electronic catch data used to manage the catch allocations and limits. The respondents are principally shorebased first receivers.

Affected Public: Primary respondents are businesses or other for-profit organizations (e.g., groundfish fishermen, fishing companies, partnerships, and shorebased first receivers), individuals or households, and state fisheries agencies.

Frequency: Reporting occurs concurrently with fishing landings, which could range from occasionally to daily depending on the frequency of fishing throughout the season.

Respondent's Obligation: Required by regulatory compliance in order to participate in the fishery.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act 16 U.S.C. 1801 *et seq.* NMFS implemented a trawl rationalization program in January 2011 for the Pacific Coast Groundfish Limited Entry Trawl Fishery. The program was implemented through Amendments 20 and 21 to the Pacific Coast Groundfish FMP and the corresponding implementing regulations for recordkeeping and reporting at 50 CFR 660.113.

This information collection request may be viewed at www.reginfo.gov.

Follow the instructions to view the Department of Commerce collection currently under review by OMB.

SUPPLEMENTARY INFORMATION: If the Secretary selects an applicant for verification, the applicant’s Institutional Student Information Record (ISIR) includes flags that indicate (1) that the applicant has been selected by the Secretary for verification and (2) the verification tracking group in which the applicant has been placed. The verification tracking group indicates which FAFSA information needs to be verified for the applicant and, if appropriate, for the applicant’s parent(s) or spouse. The FAFSA Submission Summary indicates that the applicant’s FAFSA information has been selected for verification and directs the applicant to contact the institution for further

instructions for completing the verification process.

In accordance with the Fostering Undergraduate Talent by Unlocking Resources for Education (FUTURE) Act, much of the applicant’s tax return information, including information from their spouse and/or parents, will come directly from the IRS and will not be viewable by the student and other contributors. Such information that is transferred and not edited will essentially be verified and need no further verification. However, for instances where income and tax information cannot be obtained directly from the IRS, the applicant will have to manually enter the necessary information into the FAFSA form, and that manual entry may be subject to verification.

The following chart lists, for the 2027–2028 award year, the FAFSA information that an institution and an applicant and, if appropriate, the applicant’s parent(s) or spouse may be required to verify under 34 CFR 668.56. The chart also lists the acceptable documentation that must, under § 668.57, be provided to an institution for that information to be verified.
