

Producer or exporter	Weighted-average dumping margin (percent)
Global Special Steel Products S.A.U. (d.b.a. Trenzas y Cables de Acero PSC, S.L.)	13.57

Disclosure

Normally, Commerce will disclose to the parties in a proceeding the calculations performed in connection with the final results within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, because Commerce made no changes to the *Preliminary Results* calculations, there are no new calculations to disclose.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

We calculated importer-specific *ad valorem* antidumping duty assessment rates on the basis of the ratio of the total amount of dumping calculated for the examined sales to the total entered value of those sales, in accordance with 19 CFR 351.212(b)(1). Where an importer-specific assessment rate is zero or *de minimis* (i.e., less than 0.5 percent), we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. The final results of this administrative review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.⁷

Commerce's "automatic assessment" practice will apply to entries of subject merchandise during the POR produced by TYCSA for which it did not know that the merchandise it sold to an intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate established in the less-than-fair-value (LTFV) investigation (i.e., 14.75 percent),⁸ if there is no rate for the

intermediate company(ies) involved in the transaction.⁹

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (i.e., within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for TYCSA will be equal to the weighted-average dumping margin that is established in the final results of this review; (2) for previously investigated or reviewed companies not covered by this review, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, a prior review, or the LTFV investigation, but the producer is, the cash deposit rate will be the cash deposit rate established for the most recently completed segment for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 14.75 percent, the all-others rate established in the LTFV investigation.¹⁰ These deposit requirements, when imposed, shall remain in effect until further notice.

Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations

and the terms of an APO is a sanctionable violation.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1), 751(a)(3), and 777(i)(1) of the Act, and 19 CFR 351.221(b)(5).

Dated: October 20, 2026.

Scot Fullerton,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Diving Program

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public

¹⁰ See *Order*, 86 FR at 30000.

⁷ See section 751(a)(2)(C) of the Act.

⁸ See *Order*, 86 FR at 30000.

comments were previously requested via the **Federal Register** on August 12, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: NOAA Diving Program.

OMB Control Number: 0648–0822.

Form Number(s): NOAA Forms (NF) 57–03–07, 57–03–09, 57–03–11, 57–03–38, 57–03–39, 57–03–41, 57–03–52, and 57–03–54.

Type of Request: Regular submission [revision and extension of an existing collection].

Number of Respondents: 483.

Average Hours per Response: The time for response varies depending on the collection instrument. The response times range from one minute to two hours.

Total Annual Burden Hours: 232.

Needs and Uses: This is a request for revision and extension of an approved collection of information. Minor edits were made to remove demographic information, clarify instructions, and simplify terminology on some of the forms associated with this collection.

The NOAA Diving Program (NDP) is administered by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration (NOAA), and is headquartered at the NOAA Western Regional Center (WRC) in Seattle, Washington. The NDP provides the guidelines, policy, and training for all NOAA Divers, which includes all NOAA employees who dive, as well as contractors and volunteers, among others, who conduct diving operations.

With more than 300 divers, NOAA has the largest complement of divers of any civilian federal agency. NOAA Divers conduct operations in our nation's waters and beyond in support of NOAA's scientific research and operations. They are called upon to work in various conditions ranging from the warm, clear waters of a marine sanctuary to the cold, murky waters of a commercial harbor. The tasks NOAA Divers complete are as varied as the waters they dive in, with most divers supporting projects and research of the National Ocean Service (NOS), the National Marine Fisheries Service (NMFS), and the Office of Marine and Aviation Operations (OMAO).

NOAA Divers are required to maintain a high level of proficiency, both in practice (in the water) and in theoretical understanding (academic learning) in order to continue to dive at NOAA. In addition, NOAA Divers must maintain medical fitness to dive and are required to send their diving equipment

out for maintenance as scheduled. If requirements are not met, divers may become unauthorized to dive or suspended. In order to become NOAA Divers, candidates must first submit a diving physical to the NOAA Diving Medical Officers to determine if they are medically fit to dive. After that, divers must complete medical documentation annually to maintain authorization to dive. To maintain fitness to dive, it is imperative that divers recognize the need for a continual and aggressive exercise program that exceeds basic health maintenance standards.

Affected Public: Individuals.

Frequency: On occasion, as required.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: 29 CFR subpart T, *Commercial Diving Operations*.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0822.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–12–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XG115]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that two direct take permits 1454–3R and 1455–3R have been issued for operation, monitoring, and evaluation of a hatchery program rearing and releasing sockeye salmon in the Snake River basin of Idaho, and that the

decision documents are available upon request.

DATES: Permits 1454–3R and 1455–3R were issued on October 7, 2026, subject to certain conditions set forth therein. The permits expire on September 27, 2036.

ADDRESSES: Requests for copies of the decision documents or any of the associated documents should be directed to the West Coast Region NMFS Office, 1201 NE Lloyd Blvd., Portland, OR 97232.

The documents are also available on the internet at: <https://www.fisheries.noaa.gov/action/snake-river-sockeye-salmon-production-program>.

FOR FURTHER INFORMATION CONTACT: Andreas Raisch at (503) 230–5405 or andreas.raisch@noaa.gov.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

- Sockeye salmon (*Oncorhynchus nerka*): endangered, naturally and artificially propagated Snake River Sockeye Evolutionary Significant Unit (ESU);
- Chinook salmon (*O. tshawytscha*): threatened, naturally and artificially propagated Snake River Spring/Summer-run ESU; threatened, naturally and artificially propagated Lower Columbia River Chinook salmon ESU;
- Steelhead (*O. mykiss*): threatened, naturally and artificially propagated Snake River Steelhead Distinct Population Segment (DPS); threatened, naturally and artificially propagated Lower Columbia River Steelhead DPS; threatened, naturally and artificially propagated Middle Columbia River Steelhead DPS; threatened, naturally and artificially propagated Upper Columbia River Steelhead DPS.

Background

The operators and funding agencies, including Idaho Fish and Game, the Shoshone-Bannock Tribe, Oregon Department of Fish and Wildlife, NMFS's Northwest Fisheries Science Center, the Nez Perce Tribe and Bonneville Power Association, submitted a Hatchery and Genetic Management Plan to NMFS pursuant to NMFS' ESA section 10(a)(1)(A) for hatchery activities in the Snake River basin.

The programs are intended to contribute to the survival and recovery of Snake River Sockeye salmon in the Snake River basin. The proposed program would maintain the Snake River sockeye salmon captive broodstock, collect and spawn adult
