

Control Number 1122–0034. This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Justice, information collections currently under review by OMB. If you submit a public comment, please send a copy to Tiffany Watson at tiffany.watson@usdoj.gov.

DOJ seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOJ notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Abstract: The STOP Violence Against Women Formula Grant Program was authorized through the Violence Against Women Act of 1994 (VAWA), amended and reauthorized in 2000, 2005, 2013 and 2022. The STOP (Services, Training, Officers, and Prosecutors) Violence Against Women Formula Grant Program provides funding to states and territories for use by state, local, and Indian Tribal governments, courts, and victim service providers. This program enhances the capacity of local communities to develop and strengthen effective law enforcement and prosecution strategies to combat domestic violence, dating violence, sexual assault and stalking and to develop and strengthen comprehensive, holistic victim services. The grant funds must be distributed by STOP state administrators to subgrantees according to a statutory formula.

Each state and territory must allocate 25 percent for law enforcement, 25

percent for prosecutors, 30 percent for victim services (of which at least 10 percent must be distributed to culturally specific community-based organizations), 5 percent to state and local courts, and 15 percent for discretionary distribution. VAWA provides for a 25 percent match requirement imposed on grant funds under the STOP Violence Against Women Formula Grant Program. Thus, a grant made under this program may not cover more than 75 percent of the total costs of the project being funded. The state is exempted from matching the portion of the state award that goes to a victim service provider for victim services or that goes to a tribe. Territories are also exempted in full. States can apply to have the match requirement waived by submitting a petition to OVW and a demonstrating financial need. At the time of closeout, OVW will look at the entities and purposes of funds and determine the required match amount.

The purpose of this information collection is to provide a worksheet for documenting the amount of matching funds required at the closeout of a specific fiscal year award under the STOP Violence Against Women Formula Grant Program. The type of questions on the worksheet will include award number, award amount and amount of funds sub-awarded to victim service providers for victim services or to tribes.

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a previously approved collection.
2. *Title of the Form/Collection:* STOP Match Calculation Worksheet.
3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: 1122–0034. U.S. Department of Justice, Office on Violence Against Women.
4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Affected Public- State, local and Tribal governments. The affected public includes the 51 STOP state administrators.
5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that it will take 51 respondents approximately ten minutes to complete the STOP Match Calculation Worksheet.
6. *An estimate of the total annual burden (in hours) associated with the collection:* The total annual hour burden to complete the data collection forms is 8.5 hours, that is 51 STOP State Administrators completing an assessment tool once annually with an estimated completion time of ten minutes.
7. *An estimate of the total annual cost burden associated with the collection, if applicable:* The annualized costs to the Federal Government resulting from the OVW staff review of the STOP Match Calculation Worksheets submitted by grantees are estimated to be \$497.68.

TOTAL BURDEN HOURS

Activity	Number of respondents	Frequency	Total annual responses	Time per response	Total annual burden (hours)
Worksheet	51	annually	51	10 minutes	8.5
Unduplicated Totals	51		51		8.5

If additional information is required contact: Darwin Arceo, Department Clearance Officer, United States Department of Justice, Justice Management Division, Enterprise Portfolio Management, Two Constitution Square, 145 N Street NE, 4W–218, Washington, DC.

Dated: October 23, 2026.

Darwin Arceo,

Department Clearance Officer for PRA, U.S. Department of Justice.

MORRIS K. UDALL AND STEWART L. UDALL FOUNDATION

Sunshine Act Meetings

TIME AND DATE: 11:00 a.m. to 12:00 p.m. (MST–AZ), Tuesday, November 10, 2026.

PLACE: Virtual Board of Trustees Meeting via Microsoft Teams.

STATUS: This virtual meeting of the Board of Trustees will be open to the public. Members of the public who would like to observe this meeting may

request remote access by contacting Sara Moeller at moeller@udall.gov prior to November 10, 2026, to obtain the teleconference connection information.

MATTERS TO BE CONSIDERED: (1) Call to Order and Chair’s Remarks; (2) Trustees’ Remarks; (3) Executive Director’s Remarks; (4) Consent Agenda Approval (Minutes of the June 2, 2026, Board of Trustees Meeting; Board Reports submitted for Education Programs, Finance and Internal Controls, John S. McCain III National Center for Environmental Conflict Resolution, and

Udall Center for Studies in Public Policy, including the Native Nations Institute for Leadership, Management, and Policy and Special Collections at the University of Arizona Libraries; and Board takes notice of any new and updated personnel policies and internal control methodologies); (5) The University of Arizona Fiscal Year 2027 Program Work Plan and Funding; (6) Strategic Hiring Committee Discussion; and (7) Officer and Executive Committee Elections.

CONTACT PERSON FOR MORE INFORMATION:

Sara Moeller, Chief Operating Officer, 434 E University Blvd., Suite 300, Tucson, AZ 85705, (520) 345-3562.

Dated: October 22, 2026.

David P. Brown,

Executive Director, Morris K. Udall and Stewart L. Udall Foundation.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request: Survey of Earned Doctorates

AGENCY: National Science Foundation; National Center for Science and Engineering Statistics.

ACTION: Notice.

SUMMARY: The National Center for Science and Engineering Statistics within the National Science Foundation (NSF) is announcing plans to request renewal of the Survey of Earned Doctorates (OMB Control Number 3145-0019). In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comments, NCSES will prepare the submission requesting OMB clearance of this collection for three years.

DATES: Written comments on this notice must be received by December 28, 2026 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to the address below.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, U.S. National Science Foundation, Randolph Building, 401 Dulany Street, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-

8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Earned Doctorates.

OMB Control Number: 3145-0019.

Expiration Date of Current Approval: June 30, 2028.

Type of Request: Intent to seek approval to renew information collection for three years.

Abstract: Established within the NSF by the America COMPETES Reauthorization Act of 2010 section 505, codified in the NSF Act of 1950, as amended, the National Center for Science and Engineering Statistics (NCSES) serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, and research and development for use by practitioners, researchers, policymakers, and the public.

The Survey of Earned Doctorates (SED) is part of NCSES' portfolio and collects data on individuals to provide information on science and engineering education and careers in the United States. The SED has been conducted annually since 1958 and is jointly sponsored by four Federal agencies (NSF/NCSES, National Institutes of Health, U.S. Department of Education/ National Center for Education Statistics, and National Endowment for the Humanities) to avoid duplication of effort in collecting such data. It is an accurate, timely source of information on our Nation's highly educated individuals. This request to renew the information collection for three years is to cover the 2028 and 2029 SED survey cycles.

Data are obtained via Web survey from each person earning a research doctorate from an accredited U.S. institution at the time they receive the degree. Data are collected on their field of specialty, educational background, sources of support in graduate school, debt level, postgraduation plans, and demographic characteristics. NCSES publishes statistics from the survey in several reports. The survey will be collected in conformance with the Privacy Act of 1974. Responses from individuals are voluntary. NCSES will ensure that all individually identifiable information collected will be kept strictly confidential and will be used only for research or statistical purposes.

Use of the Information: The Federal Government, policy makers, universities, researchers, and others use the information extensively. Results

from the SED are used to assess characteristics of the doctorate population and trends in doctoral education and degrees. Data from the survey are published annually on the NCSES website in a publication series reporting on all fields of study, titled *Doctorate Recipients from U.S. Universities* (<https://nces.nsf.gov/pubs/2026315>). Information from the SED is also included in other series available online such as *Science and Engineering Indicators* (<https://nces.nsf.gov/indicators>). In addition, access to tabular data from selected variables is available through the NCSES online data tool (<https://ncesdata.nsf.gov/builder/sed>) and the SED Restricted Data Analysis System (<https://ncesdata.nsf.gov/rdas/#/>).

Expected Respondents: The SED is a census of all individuals receiving a research doctorate from an accredited U.S. academic institution in the academic year beginning July 1 and ending June 30 of the subsequent year. As such, the population for the 2028 SED consists of all individuals receiving a research doctorate in the 12-month period beginning July 1, 2027 and ending June 30, 2028. Likewise, the population for the 2029 SED consists of all individuals receiving a research doctorate in the 12-month period beginning July 1, 2028 and ending June 30, 2029. A research doctorate is a doctoral degree that (1) requires completion of an original intellectual contribution in the form of a dissertation or an equivalent culminating project (e.g., musical composition) and (2) is not primarily intended as a degree for the practice of a profession. The most common research doctorate degree is the Ph.D. Recipients of professional doctoral degrees, such as MD, DDS, JD, DPharm, and PsyD, are not included in the SED. The 2028 and 2029 SED are expected to include about 615 separately reporting schools with eligible research doctoral programs from about 480 doctorate-granting institutions. Based on the historical trend, NCSES expects a stable turnout of research doctorates for the next few years with a nominal increase from the 2026 cycle estimating that approximately 62,000 individuals will receive a research doctorate from U.S. institutions in each of the 2028 cycle and the 2029 cycle.

In addition to the questionnaire for individuals receiving their research doctorates, the SED needs to collect administrative data such as graduation lists from participating academic institutions. An Institutional Coordinator at each institution helps distribute the Web survey link, track
