SUPPLEMENTARY INFORMATION:

Title; *Associated Form; and OMB Number:* Navy Insider Threat Report Form; OPNAV 5510/423; OMB Control Number 0703-0092.

Needs and Uses: The Department of the Navy uses Office of the Chief of Naval Operations (OPNAV) Form 5510/423, Navy Insider Threat Report, to collect standardized information concerning potential insider threats in support of the Navy Insider Threat Program. The collection supports the Navy's implementation of Executive Order 13587, which requires executive branch agencies to establish insider threat programs to deter, detect, and mitigate insider threats and unauthorized disclosures of classified national security information.

The form enables the Navy Analytic Hub to receive, assess, integrate, and respond to reports of concerning behavior or other information that may indicate a potential insider threat. Use of a standardized form reduces the need for repeated follow-up communications

and provides a consistent means to document relevant information, including submitter information, available information about the subject of the report, a narrative description of the concern, and any known mitigation actions or previous reporting.

The form may be completed by individuals reporting observed incidents or information within their knowledge, as well as by Navy personnel gathering information in support of an insider threat inquiry. For purposes of the Paperwork Reduction Act, the collection accounts only for burden imposed on contractor respondents. Respondents provide only the information available to them; they are not expected to provide personal information about a report subject or information concerning mitigation measures when they do not have access to that information. Navy Analytic Hub personnel may supplement incomplete reports using authorized Government sources and coordination with appropriate command personnel.

Information collected through OPNAV Form 5510/423 is used to support the Navy Insider Threat Program's mission to prevent, detect, deter, and mitigate risks posed by malicious or unwitting insiders.

Affected Public: Individuals or households.

Annual Burden Hours: 25.

Number of Respondents: 100.

Responses per Respondent: 1.

Annual Responses: 100.

Average Burden per Response: 15 minutes.

Frequency: On Occasion.

Dated: October 23, 2026.
