Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Underground Storage Tank Finder Application (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Underground Storage Tank Finder Application (EPA ICR Number 2696.02, OMB Control Number 2080–0086) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through October 31, 2026. Public comments were previously requested via the **Federal Register** on March 12, 2026 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before November 30, 2026.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OLEM–2026–1552 to EPA online

using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Elizabeth McDermott, Office of Underground Storage Tanks, Mail Code 5401T, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–0646; email address: mcdermott.elizabeth@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through October 31, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on March 12, 2026 during a 60-day comment period (91 FR 12194). This notice allows for an additional 30 days for public comments. Supporting

documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR is a renewal of the previously approved UST Finder ICR (No. 2696.01; OMB No. 2080–0086) to update the UST Finder application on a semiannual basis. To successfully maintain and improve the data quality and usability of UST Finder, the Agency seeks to continue gathering, on a voluntary basis, location and other relevant data about USTs and LUSTs that are currently collected and managed by states and territories. The application may be used for many purposes, such as helping regulators, owners, and operators in decision-making; prioritizing site cleanups or inspections; triaging risk; and identifying sites that may be more likely to have a release based on UST age and substance stored. The application may also be used by emergency response personnel to protect UST facilities from extreme weather events. After disasters, the UST Finder can be used to rapidly identify LUST site cleanups impacted by natural disasters and assist in restarting cleanups after these events.

Form Numbers: None.

Respondents/affected entities: The respondents for the information collection activity are state and territorial delegated agencies. The United States Standard Industrial Classification (SIC) code for the

respondents is SIC 9511, which corresponds to the North American Industry Classification System (NAICS) 924110 for Administration of Air and Water Resource and Solid Waste Management Programs. Source compliance data assembled by delegated agencies covers numerous NAICS categories.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 56 (total).

Frequency of response: Semiannual.

Total estimated burden: 989 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$72,475 (per year), which includes \$1,067 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 2481 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to the following factors.

- Most respondents have previously submitted data and will not require any time to set up their data delivery option. Thus, they will only incur a burden to submit the semi-annual data updates unless they choose to set up a new option.

- The last information collection was conducted prior to the first round of data collection for UST Finder, so the burden calculated in the previous ICR were based on estimates for respondents who had not yet submitted data. This uncertainty led to overestimated burden.

- EPA estimates the burden calculations in this ICR based on hours estimates provided by state agencies in the consultations conducted by EPA. Some of the responses indicated that the data set-up and semiannual update burden estimates were lower than previous estimates due to respondents' increased familiarity with the requirements of the data collection.

- The previous ICR considered subcontractor labor hours as part of the annual burden; however, this ICR considers subcontractor labor as a one-time capital cost to set up data delivery options.

Deputy Director, Data and Enterprise Programs Division.
