BILLING CODE 6210-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Solicitation of Nominations for Appointment to the Advisory Committee on Immunization Practices

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: In accordance with the Federal Advisory Committee Act, the Centers for Disease Control and Prevention (CDC), within the Department of Health and Human Services (HHS), is seeking nominations for membership on the Advisory Committee on Immunization Practices (ACIP). The ACIP consists of up to 19 experts that collectively represent a balanced range of scientific, clinical, and public health expertise relevant to the Committee's mission, including person(s) knowledgeable about consumer perspectives and/or social and community aspects of immunization programs.

DATES: Nominations for membership on the ACIP must be received no later than December 31, 2026. Submissions received after this time will not be considered for the current membership cycle.

ADDRESSES: All nomination forms and additional required documents should be emailed to ACIP@cdc.gov with the subject line: "ACIP Nomination Application". The ACIP nomination form and instructions can be found at <https://www.cdc.gov/acip/apply-for-membership/index.html>.

FOR FURTHER INFORMATION CONTACT: ACIP Secretariat, Advisory Committee on Immunization Practices, Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H21-12, Atlanta, Georgia 30329-4027. Email: ACIP@cdc.gov.

SUPPLEMENTARY INFORMATION: The Advisory Committee on Immunization Practices (ACIP) is charged with advising the Director, Centers for Disease Control and Prevention (CDC), regarding the use of vaccines and related immunobiologic agents for the prevention and control of vaccine-preventable diseases in the United States, including identifying areas where additional data or evaluation would inform future recommendations regarding such vaccines and immunizations. In addition, under 42 U.S.C. 1396s, the Committee is mandated to establish and periodically

review and, as appropriate, revise the list of vaccines for administration to vaccine-eligible children through the Vaccines for Children program, along with schedules regarding dosing interval, dosage, and contraindications to administration of vaccines.

Nominations are sought for individuals who have the expertise and qualifications necessary to contribute to the accomplishment of the objective of the ACIP. Nominees will be selected to represent a balanced range of scientific, clinical, and public health expertise relevant to the Committee's mission, including person(s) knowledgeable about consumer perspectives and/or social and community aspects of immunization programs. Federal employees will not be considered for membership. Members may be invited to serve for up to four-year terms. Selection of members is based on candidates' qualifications to contribute to the accomplishment of ACIP objectives.

Department of Health and Human Services (HHS) policy stipulates that committee membership be balanced in terms of points of view represented and the committee's function. Appointments shall be made free from discrimination on the basis of race, color, religion, sex, national origin, age, disability, or other protected status, consistent with applicable law and Departmental policy. Nominees cannot be full-time employees of the U.S. Government. Preference is given to U.S. citizens; nominations from non-U.S. citizens are handled on a case-by-case basis. Current participation on Federal workgroups or prior experience serving on a Federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning of and annually during their terms. The Centers for Disease Control and Prevention (CDC) reviews potential candidates for ACIP membership and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of their term, or as soon as the HHS selection process is completed. Note that the need for different expertise varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year.

Candidates should email the following materials to ACIP@cdc.gov with the subject line: "ACIP Nomination Application".

- ACIP Nomination Form, which can be found at <https://www.cdc.gov/acip/apply-for-membership/index.html>.

- Current curriculum vitae (CV), including complete contact information (telephone numbers, mailing address, email address). CVs should include candidates' education, training, board certification and career history and list main areas of employment or other relevant activity and public appointments, if any. CVs should also include details of any relevant academic or professional qualifications.

- At least one letter of recommendation from person(s) not employed by HHS. Candidates may also submit letter(s) from current HHS employees if they wish (excluding CDC employees), but at least one letter must be submitted by a person not employed by an HHS agency (*i.e.*, National Institutes of Health, Food and Drug Administration).

Nominations may be submitted by the candidate or by the person/organization recommending the candidate.

The Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Kalwant Smagh,

Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Notice of Amended Order Requirement for Attestation by All Persons Arriving in the United States From Any Foreign Country Via Transportation by Aircraft and Controlled Free Pratique for Airlines and Other Aircraft Operators Confirming That Such Persons Have Not Been in the Democratic Republic of the Congo in the Past 21 Days

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of Agency Order.

SUMMARY: The Centers for Disease Control and Prevention (CDC), a component of the Department of Health and Human Services (HHS), announces the issuance of an Amended Order under Sections 361, 365, 368, and 369 of the Public Health Service Act, and associated implementing regulations, prohibiting the boarding of any person who is not otherwise subject to an exemption on any aircraft destined to the United States from a foreign country unless the person presents a signed attestation confirming the person has not been present in the Democratic Republic of the Congo (DRC) during the 21 days prior to boarding a flight to the United States. This Amended Order was issued on October 28, 2026, to become effective at 11:59 p.m. Eastern Standard Time (EST) on November 3, 2026, and shall remain in effect through 11:59 p.m. EST on December 18, 2026. This Amended Order may be amended or rescinded prior to that time at the discretion of the Secretary or his designee.

DATES: This action will take effect November 3, 2026, at 11:59 p.m. EST. For individuals intending to travel to the United States by air, the Order will apply to flights departing at or after 11:59 p.m. EST on November 3, 2026.

FOR FURTHER INFORMATION CONTACT: Mina Zadeh, Acting Chief of Staff, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS V18-2, Atlanta, GA 30329. Phone: 404-639-7000. Email: cdcregulations@cdc.gov.

SUPPLEMENTARY INFORMATION: On October 22, 2026, the Assistant Secretary for Health (ASH), HHS, signed an Order prohibiting the boarding of any passenger on any aircraft destined to the United States from a foreign country unless the passenger presents a signed attestation in paper or digital format confirming that the person has not been present in the Democratic Republic of the Congo (DRC) during the 21 days prior to boarding a flight to the United States. On October 28 the ASH signed an Amended Order making minor changes, *e.g.*, changing “passenger” to “person,” to clarify that crew members are also subject to this requirement. This includes any flight arriving in the United States, including cargo flights, regardless of whether the United States is its final destination or the flight is connecting through the United States en route to another country. The airline or aircraft operator must retain a copy of the completed version of the signed attestation for at least 42 days after the person’s flight departs for the United States from a foreign country and

provide the attestation to the U.S. Government upon request.

This Amended Order is effective for a period of 45 days. This Amended Order may be amended further or rescinded prior to that time at the discretion of the Secretary or his designee. Any amendment or extension of this Amended Order will be based on the current outbreak metrics, including case counts, geographic spread, community-transmission indicators, and containment capacity in affected countries.

Pursuant to 42 U.S.C. 268, the U.S. customs officers and U.S. Coast Guard officers will assist in implementation of this Amended Order. Other federal departments and agencies, including the U.S. Department of Homeland Security and the U.S. Department of Transportation, may also cooperate and assist with implementation of this Amended Order consistent with their own legal authorities.

This Amended Order shall be enforceable through the provisions of 18 U.S.C. 3559, 3571; 42 U.S.C. 243, 268, 270, 271; and 42 CFR 71.2. Pursuant to 42 U.S.C. 271, CDC may request the U.S. Department of Justice seek to prosecute individuals who knowingly and willfully submit false attestations in violation of 18 U.S.C. 1001.

This Amended Order is not a rule within the meaning of the Administrative Procedure Act (“APA”) but rather is an action taken under the existing authority of 42 U.S.C. 264(a) and 42 CFR 71.20, 71.31(b), and 71.32(b), which were promulgated in accordance with the APA after full notice and comment rulemaking and a delayed effective date. Separately, HHS/CDC issued a Paperwork Reduction Act (PRA) notice related to the required attestation form. The PRA notice provides an opportunity for public comment through www.regulations.gov using docket CDC-2026-1750.-

A copy of the Amended Order is provided below and a copy of the signed Amended Order can be found at <https://www.cdc.gov/port-health/legal-authorities/attestation-order.html>.
