

2027. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

This notice allows 60 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: As required by the Clean Air Act, EPA has regulations establishing emission standards and other requirements for various classes of vehicles, engines, and evaporative emission components. These regulations require that compliance be demonstrated prior to EPA granting a "Certificate of Conformity". EPA charges fees for administering this certification program. In 2004, then in 2008 the fees program was expanded to include nonroad categories of vehicles and engines, such as several categories of marine engines, locomotives, non-road recreational vehicles, many nonroad compression-ignition and spark-ignition engines and evaporative emission components. Manufacturers and importers of covered vehicles, engines and components are required to

pay the applicable certification fees prior to their certification applications being reviewed by the Agency. Under section 208 of the Clean Air Act (42 U.S.C. 7542(c)) all information, other than trade secret processes or methods, must be publicly available. Information about fee payments is treated as confidential information prior to certification.

Form Numbers: 3520-29.

Respondents/affected entities:

Manufacturers or importers of passenger cars, motorcycles, light trucks, heavy duty truck engines, nonroad vehicles or engines, and evaporative emissions components are required to receive a certificate of conformity from EPA prior to selling or introducing these products into commerce in the U.S.

Respondent's obligation to respond:

Required to obtain or retain a benefit (40 CFR part 1027).

Estimated number of respondents:

633 (total).

Frequency of response: An average of approximately eight responses per respondent per year.

Total estimated burden: 1058 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$96,118 (per year), includes \$15,179 annualized capital or operation and maintenance costs.

Changes in Estimates: There is an increase of 36 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the greater number of responses in the number of certificates and, therefore, the number of fees paid from year to year. The estimate of the costs associated with the fees program have increased from \$77,444 to \$96,118 due to wage estimate increases, as well as an average higher pay grade for cert reps. The average increased due to employee progression, as well as attrition.

Byron Bunker,

Director, Implementation, Analysis and Compliance Division.

BILLING CODE 6210-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Solicitation of Nominations for Appointment to the Advisory Committee on Immunization Practices

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: In accordance with the Federal Advisory Committee Act, the Centers for Disease Control and Prevention (CDC), within the Department of Health and Human Services (HHS), is seeking nominations for membership on the Advisory Committee on Immunization Practices (ACIP). The ACIP consists of up to 19 experts that collectively represent a balanced range of scientific, clinical, and public health expertise relevant to the Committee's mission, including person(s) knowledgeable about consumer perspectives and/or social and community aspects of immunization programs.

DATES: Nominations for membership on the ACIP must be received no later than December 31, 2026. Submissions received after this time will not be considered for the current membership cycle.

ADDRESSES: All nomination forms and additional required documents should be emailed to *ACIP@cdc.gov* with the subject line: "ACIP Nomination Application". The ACIP nomination form and instructions can be found at <https://www.cdc.gov/acip/apply-for-membership/index.html>.

FOR FURTHER INFORMATION CONTACT: ACIP Secretariat, Advisory Committee on Immunization Practices, Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H21-12, Atlanta, Georgia 30329-4027. Email: *ACIP@cdc.gov*.

SUPPLEMENTARY INFORMATION: The Advisory Committee on Immunization Practices (ACIP) is charged with advising the Director, Centers for Disease Control and Prevention (CDC), regarding the use of vaccines and related immunobiologic agents for the prevention and control of vaccine-preventable diseases in the United States, including identifying areas where additional data or evaluation would inform future recommendations regarding such vaccines and immunizations. In addition, under 42 U.S.C. 1396s, the Committee is mandated to establish and periodically

review and, as appropriate, revise the list of vaccines for administration to vaccine-eligible children through the Vaccines for Children program, along with schedules regarding dosing interval, dosage, and contraindications to administration of vaccines.

Nominations are sought for individuals who have the expertise and qualifications necessary to contribute to the accomplishment of the objective of the ACIP. Nominees will be selected to represent a balanced range of scientific, clinical, and public health expertise relevant to the Committee's mission, including person(s) knowledgeable about consumer perspectives and/or social and community aspects of immunization programs. Federal employees will not be considered for membership. Members may be invited to serve for up to four-year terms. Selection of members is based on candidates' qualifications to contribute to the accomplishment of ACIP objectives.

Department of Health and Human Services (HHS) policy stipulates that committee membership be balanced in terms of points of view represented and the committee's function. Appointments shall be made free from discrimination on the basis of race, color, religion, sex, national origin, age, disability, or other protected status, consistent with applicable law and Departmental policy. Nominees cannot be full-time employees of the U.S. Government. Preference is given to U.S. citizens; nominations from non-U.S. citizens are handled on a case-by-case basis. Current participation on Federal workgroups or prior experience serving on a Federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning of and annually during their terms. The Centers for Disease Control and Prevention (CDC) reviews potential candidates for ACIP membership and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of their term, or as soon as the HHS selection process is completed. Note that the need for different expertise varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year.

Candidates should email the following materials to *ACIP@cdc.gov* with the subject line: "ACIP Nomination Application".
