[Docket No. 2026–4]

Exemptions To Permit Circumvention of Access Controls on Copyrighted Works; Correction

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects the preamble to a proposed rule published in the **Federal Register** on October 28, 2026, regarding Exemptions to Permit Circumvention of Access Controls on Copyrighted Works. The correction fixes a typographical error within a subsection discussing a petition to renew a current exemption.

DATES: November 2, 2026.

FOR FURTHER INFORMATION CONTACT: Rhea Efthimiadis, Assistant to the General Counsel, by email at *USCOGeneralCounsel@copyright.gov* or by telephone at (202) 707–8350.

SUPPLEMENTARY INFORMATION:

Correction

In proposed rule FR Doc. 2026–21939, beginning on page 67788 in the issue of October 28, 2026, make the following correction, in the **SUPPLEMENTARY INFORMATION** section. On page 67794 in column 1, in line 8, add the word ''not'' before the phrase ''permitted by the exemption.''

Dated: October 28, 2026.

Emily L. Chapuis,

General Counsel and Associate Register of Copyrights.

Significant New Use Rules on Certain Chemical Substances (26–7)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for certain chemical substances that were the subject of premanufacture notices (PMNs) and are also subject to an Order issued by EPA pursuant to TSCA. Once finalized, the SNURs would require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rulemaking to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the conditions of that use for that chemical substance. In addition, the manufacture or processing for the significant new use may not commence until EPA has conducted a review of the required notification, made an appropriate determination regarding that notification, and taken such actions as required by that determination.

DATES: Comments must be received on or before December 2, 2026.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPPT–2026–5974, online at *https://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, are available at *https://www.epa.gov/dockets.*

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. What is the Agency's authority for taking this action?

TSCA section 5(a)(2) (15 U.S.C. 2604(a)(2)) authorizes EPA to determine that a use of a chemical substance is a ''significant new use.'' EPA must make this determination by rule after considering all relevant factors, including the factors in TSCA section 5(a)(2) (see also the discussion in Unit II.).

B. What action is the Agency taking?

EPA is proposing SNURs for the chemical substances discussed in Unit III. These SNURs, if finalized as proposed, would require persons who intend to manufacture or process any of these chemical substances for an activity that is designated as a significant new use to notify EPA at least 90 days before commencing that activity.

C. Does this action apply to me?

1. General Applicability

This action applies to you if you manufacture, process, or use the chemical substances contained in this proposed rule. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Manufacturers or processors of one or more subject chemical substances (NAICS codes 325 and 324110), *e.g.,* chemical manufacturing and petroleum refineries.

2. Applicability to Importers and Exporters

This action may also apply to certain entities through pre-existing import certification and export notification requirements under TSCA (*https://www.epa.gov/tsca-import-export-requirements*).
