Beltsville, MD 20705; (202) 666–8250. For more information on the information collection reporting process, contact Ms. Sheniqua Harris, APHIS' Paperwork Reduction Act Coordinator, at (301) 851–2528 or email *APHIS.PRA@usda.gov.*

SUPPLEMENTARY INFORMATION:

Title: Operations and Reporting System.

OMB Control Number: 0579–0335.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Secretary of Agriculture is authorized under Section 426 of the Act of March 2, 1931, as amended (7 U.S.C. 8351–8354; 46 Stat. 1468), to conduct a program of wildlife services with respect to injurious animal species. Large populations of aggressive wildlife species, if left unmanaged, may cause tremendous amounts of damage to crops, livestock herds, and private property within the United States. Without mitigation, the damage could result in severe economic losses for agricultural businesses and private property owners. The Act authorizes the Secretary to take any action he considers necessary for the control of nuisance mammals and birds and those mammal and bird species that are reservoirs for zoonotic diseases.

The United States Department of Agriculture, Animal and Plant Health Inspection Service (APHIS), Wildlife Services (WS), is responsible for assisting the public with mitigating wildlife damage. WS provides advice or enters into agreements with State and local jurisdictions, Tribes, public and private agencies, organizations, institutions, and individuals to provide its services. Through its technical assistance approach, WS offers advice through telephone or onsite consultations, training sessions, demonstration projects, and other means. Mitigation activities are then performed by the requester. WS also provides a cooperative direct control approach where goods, services, and expertise are provided on a cost reimbursable basis. WS collects only information needed to determine appropriate courses of action for providing effective services. Information is used by the agency to:

- Identify cooperators appropriately;
- Identify lands on which WS personnel will work;
- Differentiate between cooperators (*i.e.,* property owners, land managers, or resource owners) who request assistance to manage damage caused by wildlife;
- Identify the land areas on which wildlife damage management activities would be conducted;
- Identify the relationship between resources or property, WS' protection of such resources or property, and the damage caused by wildlife;
- Determine the methods or damage management activities to deal with the damage;
- Establish a record that a cooperative agreement has been entered into with a cooperator;
- Document that permission has been obtained from landowners to go on the cooperator's property;
- Record wildlife damage occurrences on cooperator's property and steps to address them;
- Record occurrences which may have affected non-target species or humans during, or related to, WS project actions; and
- Determine satisfaction with service to help WS evaluate, modify, and improve its programs.

Information collection activities include work initiation documents, assistance requests, protected resource queries, project reports, order forms and sales records, equipment issuances, migratory bird damage reports, reports of injury or death to non-target animals, accident reports, pilot proficiency reviews, and invoice transmittals.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years. APHIS has renamed this information collection to Operations and Reporting System, the information collection was formerly known as National Management Information System.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.,* permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.042 hours per response.

Respondents: State, local, and Tribal governments; businesses, not-for-profits, and other public sector organizations; and individuals who request services from WS or engage in wildlife damage management projects with WS.

Estimated annual number of respondents: 77,712.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 86,274.

Estimated total annual burden on respondents: 3,608 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of October 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Virginia Advisory Committee; Cancellation of November Meeting and Revision to December Meeting Purpose and Duration

AGENCY: Commission on Civil Rights.

ACTION: Notice; cancellation of November meeting and revisions to December meeting.

SUMMARY: The Commission on Civil Rights published a notice in the **Federal Register** concerning meetings of the Virginia Advisory Committee.

The panel briefing previously noticed for Tuesday, November 10, 2026, from 10:30 a.m. (ET) to 12:30 p.m. (ET), has been cancelled.

The meeting scheduled for Tuesday, December 15, 2026, from 11:30 a.m. (ET) to 1:30 p.m. (ET) is now scheduled for approximately one hour from 11:30 a.m. (ET) to 12:30 p.m. (ET); the purpose is also revised to briefing planning. For convenience, the meeting link for the December meeting is: *https://www.zoomgov.com/webinar/register/WN_pCdY9KuQQsu3ng15k7sAyg;* Phone (Audio Only): 1–833–435–1820 USA Toll Free; Webinar ID: 165 385 914 #.

The original notice is in the **Federal Register** of Friday, October 9, 2026, in FR Doc. 2026–20702, in the third column of page 64632 and the and the first column of page 64633.

FOR FURTHER INFORMATION CONTACT: Mallory Trachtenberg, Designated Federal Officer, at (202) 809–9618 or *mtrachtenberg@usccr.gov.*

Dated: October 29, 2026.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; American Community Survey and Puerto Rico Community Survey

AGENCY: Census Bureau, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act (PRA) of 1995, invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment on the revision of the American Community Survey and the Puerto Rico Community Survey, prior to the submission of the information collection request (ICR) to OMB for approval.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 4, 2027.

ADDRESSES: Interested persons are invited to submit written comments by email to *acso.pra@census.gov.* Please reference the American Community Survey and the Puerto Rico Community Survey in the subject line of your comments. You may also submit comments, identified by Docket Number USBC–2026–0760 to the Federal e-Rulemaking Portal: *https://www.regulations.gov.* Click the ''Comment'' icon, complete the required fields, and enter or attach your comments. All comments received are part of the public record. No comments will be posted to *https://www.regulations.gov* for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Nicole Butler, U.S. Census Bureau, American Community Survey Office, 301–763–3928, *nicole.butler@census.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau seeks a revision for the American Community Survey (ACS) and the Puerto Rico Community Survey (PRCS). The ACS program provides information every year on over 40 topics—giving communities, businesses, and governments the current information they need about our nation and its people. ACS data also help inform how trillions of dollars in federal funds are distributed each year.

The ACS content is designed to serve the data needs of federal government agencies and, in addition, provides a rich source of local area information useful to a wide variety of data users, including state and local governments, universities, and private businesses. The ACS is part of the Decennial Census Program. Historically, the decennial census sampled addresses to complete a ''long form,'' which collected detailed population and housing characteristics once a decade whereas a majority of addresses were asked to a complete a ''short form'' which collected basic demographic information. The demand for current, nationally consistent data from a wide variety of data users led federal government policymakers to consider the feasibility of collecting detailed population and housing data continuously throughout the decade. This led the Census Bureau to plan the ACS as a replacement for the ''long form.''

Since its implementation in 2005, the ACS has collected detailed social, economic, housing, and demographic data on more than 40 topics on an ongoing basis, providing more timely data than was previously possible. Every question on the ACS must meet an explicit need from one or more federal agencies. Constraining the content of the ACS was, and still is, critical because of the mandatory reporting requirement and because doing so reduces the burden on the American people. The Census Bureau periodically reviews the questions on the ACS to ensure that existing content serves the data needs of federal agencies and to evaluate new question proposals from federal agencies. The Census Bureau classifies federal agency uses of the ACS as mandatory, required, programmatic, or operational as follows:

- There is a current federal law calling for the use of decennial census
