BILLING CODE 6730–02–P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at *https://www.federalreserve.gov/foia/request.htm.* Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)).

Comments received are subject to public disclosure. In general, comments received will be made available without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would not be appropriate for public disclosure.

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Benjamin W. McDonough, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551–0001, not later than December 2, 2026.

A. Federal Reserve Bank of Minneapolis Mark Nagle, Assistant Vice President; 90 Hennepin Avenue, Minneapolis, Minnesota 55480–0291. Comments can also be sent electronically to *MA@mpls.frb.org:*

1. *C3 Holdings, Inc., Random Lake, Wisconsin;* to become a bank holding company by acquiring Northern Financial Corporation, and thereby indirectly acquiring Independence State Bank, both of Independence, Wisconsin.

Board of Governors of the Federal Reserve System.

Michele Taylor Fennell,

Associate Secretary of the Board.

BILLING CODE 6210–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day–26–0179]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled ''Focus on Advancing Support and Transition with the Fragile X Online Registry with Accessible Database (FAST FORWARD)'' to the Office of Management and Budget (OMB) for review and approval. CDC previously published a ''Proposed Data Collection Submitted for Public Comment and Recommendations'' notice on April 28, 2026, to obtain comments from the public and affected agencies. CDC received two related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Focus on Advancing Support and Transition with the Fragile X Online Registry with Accessible Database (FAST FORWARD)—New—National Center on Birth Defects and Developmental Disabilities (NCBDDD), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Fragile X Syndrome (FXS) is a genetic disorder caused by changes in a gene called fragile X messenger ribonucleoprotein 1 (FMR1). FMR1 usually makes a protein called Fragile X Messenger Ribonucleoprotein (FMRP) that is needed for brain development. People with FXS make little or no FMRP. FXS is the most prevalent known cause of inherited intellectual disability and the most common monogenic cause of autism. Physical features of FXS include a narrow face with prominent jaw and forehead and large ears. Medical features can include dental crowning, otitis media, sinus infections, sleep disorder, and strabismus; developmental features can include intellectual disability, motor delays, poor eye contact, repetitive behaviors, seizure disorder, speech-language disorder, and symptoms of attention deficit hyperactivity disorder. FXS is typically diagnosed in early childhood when physical, medical, and developmental features are more recognized. It is estimated that one in 7,000 males and one in 11,000 females have FXS.

The proposed data collection builds on and improves upon four previous CDC-funded data collection efforts focused on FXS. The first project (CDC–RFA–DD–07–003; 2008–2011) piloted an infrastructure to conduct data collection on people with FXS across multiple sites. The second project (CDC–RFA–DD–11–007; 2011–2015) developed and piloted the infrastructure for a registry and for longitudinal data collection. The third project (CDC–RFA–DD–15–003; 2015–2020) established the Fragile X Online Registry With Accessible Research Database (FORWARD), and the fourth project (CDC–RFA–DD–21–002; 2021–2026), which extended FORWARD to include Multiple Assessments for Research Characterization (FORWARD–MARCH) built on the foundation of the first two projects and continued data collection to conduct analyses to better characterize the natural history of FXS and meaningful outcome measures to improve the lives of people with FXS.

Congressional Language accompanying the 2026 Consolidated Appropriations Act funding for CDC's FXS activities encourages CDC to support additional strategies to promote earlier identification of children with FXS, to ensure populations with FXS conditions are being properly diagnosed and are made aware of available medical services, and support people with FXS and associated conditions and disorders across the lifespan.

This information collection request (ICR), consistent with Congressional intent, is developed to employ clinic-based enrollment of eligible participants aged 40 years old or younger with full mutation of FXS that attend clinics affiliated with the three U.S. sites funded for this project. Each participating clinic will recruit a minimum of 200 eligible persons with FXS for a total of 600 across all three sites. Information will be collected on diagnosis, co-occurring conditions and behaviors, communication, adaptive abilities, healthcare utilization and service needs, education, transition planning and experience, activities and social participation, future planning, caregiver supports, demographics, participant strengths, and other topics consistent with the goals of the project. Data will be collected through online caregiver surveys.

CDC requests OMB approval for an estimated 200 annual burden hours. There are no costs to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Parents/Caregivers	Survey	200	1	1

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Public Health Ethics and Regulations, Office of Science, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day–27–1291]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled ''Generic Information Collection Request for Cognitive Testing and Pilot Testing for the National Center for Chronic Disease Prevention and Health Promotion'' to the Office of Management and Budget (OMB) for review and approval. CDC previously published a Proposed Data Collection Submitted for Public Comment and Recommendations notice on March 9, 2026, to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Generic Information Collection Request for Cognitive Testing and Pilot Testing for the National Center for Chronic Disease Prevention and Health Promotion (OMB Control No. 0920–1291, Exp. 5/31/2026)—Reinstatement—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC's National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP) established a Generic Clearance to support information collection for cognitive testing and pilot testing activities.
