take whatever action is deemed appropriate.

(2) Any applicant for a new permanent base or fixed station authorization to be located on the islands of Puerto Rico, Desecheo, Mona, Vieques, and Culebra, or for a modification of an existing authorization which would change the frequency, power, antenna height, directivity, or location of a station on these islands and would increase the likelihood of the authorized facility causing interference, shall notify the Interference Office, Arecibo Observatory, HC3 Box 53995, Arecibo, Puerto Rico 00612, in writing or electronically, of the technical parameters of the proposal. Applicants may wish to consult interference guidelines, which will be provided by Cornell University. Applicants who choose to transmit information electronically should email to: *prcz@naic.edu.*

(i) The notification to the Interference Office, Arecibo Observatory shall be made prior to, or simultaneously with, the filing of the application with the Commission. The notification shall state the geographical coordinates of the antenna (NAD–83 datum), antenna height above ground, ground elevation at the antenna, antenna directivity and gain, proposed frequency and FCC Rule Part, type of emission, and effective radiated power.

(ii) After receipt of such applications, the Commission will allow the Arecibo Observatory a period of 20 days for comments or objections in response to the notification indicated. The applicant will be required to make reasonable efforts to resolve or mitigate any potential interference problem with the Arecibo Observatory and to file either an amendment to the application or a modification application, as appropriate. The Commission shall determine whether an applicant has satisfied its responsibility to make reasonable efforts to protect the Observatory from interference.

*OMB Control Number:* 3060–0188.

*Title:* Call Sign Reservation and Authorization System, FCC Form 380.

*Form Number:* FCC Form 380.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit, Not-for-profit institutions; and State, local, or tribal government.

*Number of Respondents and Responses:* 1,600 respondents; 1,600 responses.

*Estimated Hours per Response:* 0.166–0.25 hours.

*Frequency of Response:* On occasion reporting requirements.

*Total Annual Burden:* 333 hours.

*Total Annual Cost:* $162,000.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this collection is contained in Sections 154(i) and 303 of the Communications Act of 1934, as amended.

*Needs and Uses:* The information collection requirements contained in 47 CFR 73.3550 provide that all requests for new or modified call signs be made via the on-line call sign reservation and authorization. The Commission uses an on-line system, FCC Form 380, for the electronic preparation and submission of requests for the reservation and authorization of new and modified call signs. Access to the call sign reservation and authorization system is made by broadcast licensees and permittees, or by persons acting on their behalf, via the internet's World Wide Web. This on-line, electronic call sign system enables users to determine the availability and licensing status of call signs; to request an initial, or change an existing, call sign; and to determine and submit more easily the appropriate fee, if any. Because all elements necessary to make a valid call sign reservation are encompassed within the on-line system, this system prevents users from filing defective or incomplete call sign requests. The electronic system also provides greater certitude, as a selected call sign is effectively reserved as soon as the user has submitted its call sign request. This electronic call sign reservation and authorization system has significantly improved service to all radio and television broadcast station licensees and permittees.

Federal Communications Commission.

## FEDERAL MARITIME COMMISSION

**[FMC–2026–0298]**

### Renewal of Agency Information Collection Activities: Submission for OMB Review; Comment Requested; Ocean Transportation Intermediaries; 3072–0018

**AGENCY:** Federal Maritime Commission.

**ACTION:** Notice and request for comment.

**SUMMARY:** The Federal Maritime Commission (Commission or FMC) is giving public notice that the agency has submitted the continuing information collection listed below in this notice to the Office of Management and Budget (OMB) for approval extension, with revision, for Collection of Information 3072–0018 (Ocean Transportation Intermediaries). The public is invited to comment on this information collection pursuant to the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before December 2, 2026.

**ADDRESSES:** *Comments should be submitted to:* (1) the Office of Management and Budget's Office of Information and Regulatory Affairs through the portal at *https://www.reginfo.gov/public/do/PRAMain.* Find this particular information collection at *Reginfo.gov* by selecting ''Currently under Review—Open for Public Comments'' or by using the search function, and (2) the Commission through the Federal eRulemaking Portal at *www.regulations.gov* (FMC–2026–0298). If your material cannot be submitted to the addresses above, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

**FOR FURTHER INFORMATION CONTACT:** Dr. India Wright, (202) 523–5787 *bcl@fmc.gov.*

**SUPPLEMENTARY INFORMATION:** The Commission invites the general public and other Federal agencies to comment on any aspect of the continuing information collection listed in this notice, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). We are particularly interested in receiving comments on: (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Comments submitted in response to this notice will be included or summarized in our request for OMB approval of the relevant information collection. All comments are part of the public record and subject to disclosure. Please do not include any confidential or inappropriate material in your comments.

#### Previous Request for Comments

On August 11, 2026, the Commission published a notice and request for comment in the **Federal Register** (91 FR 51707, August 11, 2026) regarding the agency's request for approval from OMB for information collections as required by the Paperwork Reduction Act of

1995. During the 60-day period, the Commission received comments from Kalé Info Solutions USA and FMC Compliance Services. Both comments support the updates to the collection, including the proposed modernization. Some recommendations (Trusted Data Exchange Through Port and Cargo Community Systems and Digital Trade Facilitation Pilot), while valuable, are currently outside the scope of 46 CFR 515 and would require expanded collection to support the recommendations adequately, increasing burden.

**Information Collections Open for Comment**

*Title:* 46 CFR 515—Licensing, Financial Responsibility Requirements and General Duties for Ocean Transportation Intermediaries and Related Forms.

*OMB Control Number:* 3072–0018 (Expires November 30, 2026).

*Form Numbers:* FMC–18, FMC–48, FMC–48A, FMC–65, FMC–67, FMC–68, FMC–69, FMC–69A.

*Abstract:* Sections 40101–41309 of title 46 of the United States Code, as amended, provide that no person in the United States may advertise, hold oneself out, or act as an ocean transportation intermediary (OTI) unless that person holds a license issued by the Commission. The Commission shall issue an OTI license to any person that the Commission determines to be qualified by experience and character to act as an OTI. Further, no person may act as an OTI unless that person furnishes a bond, proof of insurance, or other surety in a form and amount determined by the Commission to insure financial responsibility. The Commission has implemented the legislative requirements in regulations contained in 46 CFR part 515, including in financial responsibility Forms FMC–48, FMC–67, FMC–68, and FMC–69, Optional Rider Forms FMC–48A and FMC–69A, its related license application Form FMC–18, and the related foreign-based unlicensed non-vessel-operating common carriers (NVOCCs) registration/renewal Form FMC–65.

*Type of Review:* Extension with change.

*Current Actions:* There are no changes to the questions asked or the type of information collected. The FMC–18 will remain an electronic form. The current electronic Form FMC–18 is a legacy system that requires the use of Microsoft Internet Explorer. In 2022, Microsoft ended support for Internet Explorer and has since directed users to Microsoft Edge, which offers a built-in ''IE mode'' for legacy site compatibility but requires the end user to go through a lengthy and sometimes confusing process to enable the feature. The new FMC systems will be implemented utilizing Microsoft Entra ID (Microsoft Entra) and ServiceNow PSDS (ServiceNow). Microsoft Entra is used to securely create and manage ID logins and ServiceNow will be the platform through which the external user will submit the data collected. Both Microsoft Entra and ServiceNow will also allow the use of modern, Chromium-based browsers like Google Chrome, Microsoft Edge, Firefox, and Safari. Forms FMC–48, FMC–48A, FMC–65, FMC–69 and FMC–69A will be accessed through ServiceNow and primarily be submitted through the automated electronic system but will remain as PDF forms available on the Commission's website. Forms FMC–67 and FMC–68 will continue to be available on the Commission's website as PDF forms and continue to be accepted through email or mail. To further reduce the burden, on amendment applications for Form FMC–18, the form will auto populate with the entity information previously submitted and vetted to reduce the burden of data input and human error from the external user. This same auto populate information will be available to external users that submit Forms FMC–48, FMC–48A, FMC–69 and FMC–69A to reduce the human error commonly associated with the submission of those forms.

Total estimated burden has been amended to reflect changes in Commission estimates.

*Needs and Uses:* The Commission uses information obtained under part 515 and through Form FMC–18 to determine the qualifications of OTIs and their compliance with 46 U.S.C. subtitle IV and FMC regulations, and to enable the Commission to discharge its duties under 46 U.S.C. subtitle IV by ensuring that OTIs maintain acceptable evidence of financial responsibility. If the collection of information were not conducted, there would be no basis upon which the Commission could determine if applicants are qualified for licensing. The Commission would also not be able to effectively assess the compliance of foreign-based, unlicensed NVOCCs without the required registration information.

*Frequency:* Ad hoc basis. This information is collected when applicants apply for a license or submit a registration, complete the triennial renewal, or when existing licensees or registrants change their application forms.

*Type of Respondents:* The types of respondents are persons desiring to obtain or maintain a license or registration to advertise, hold themselves out as, or act as an OTI. Under 46 U.S.C. subtitle IV, OTIs may be either an ocean freight forwarder, an NVOCC, or both.

*Number of Annual Respondents:* The Commission estimates a potential annual respondent universe of 9,611 entities. Due to an increase in the number of OTIs, the inclusion of Form FMC–65 Change submissions and recordkeeping requirements, the Commission estimates the number of responses as 19,046. The distribution of responses is as follows: 360 New FMC–18 filings; 280 FMC–18 Amendment filings; 1,780 OTI License Renewals; 6,406 FMC–48 and FMC–69 filings; 3 FMC–48A and FMC–69A filings, 744 FMC–65 registration filings; 1,531 FMC–65 Renewal filings; 471 FMC–65 Organizational Change filings; and 9,611 recordkeeping requirements. The Commission does not anticipate receiving any filings of Forms FMC–67 or FMC–68 based on experience in recent years and so the estimate for these forms is zero. These forms are included in this renewal to remain available to respondents when applicable.

*Estimated Time per Response:* The time per response to complete application Form FMC–18 New filings averages two (2) hours, Form FMC–18 Amendment filings averages one (1) hour, and to complete the triennial renewal is ten (10) minutes. The time to complete a financial responsibility form (FMC–48, FMC–48A, FMC–69, or FMC–69A) is ten (10) minutes. The time to complete a financial responsibility form (FMC–67, FMC–68) averages 20 minutes. The time to complete Form FMC–65 to submit, renew or report changes to a registration as a foreign based, unlicensed NVOCC averages ten (10) minutes.

*Total Annual Burden:* 720 person-hours (Form FMC–18, New) + 280 person-hours (Form FMC–18, Amended/Change in Organization) + 302.63 person-hours (OTI License Renewal) + 2,113.98 person-hours (Forms FMC–48, 67, 68, 69) + 0.51 person-hours (Forms FMC–48A, 69A) + 126.48 person-hours (Form FMC–65) + 260.27 (Form FMC–65 Renewal) + 80.07 (Form FMC–65, Organizational Changes) + 2,402.75 person-hours (Recordkeeping). Total burden equals 6,286.66 person-hours.

For the Commission.

## FEDERAL RESERVE SYSTEM

### Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at *https://www.federalreserve.gov/foia/request.htm.* Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)).

Comments received are subject to public disclosure. In general, comments received will be made available without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would not be appropriate for public disclosure.

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Benjamin W. McDonough, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551–0001, not later than December 2, 2026.

*A. Federal Reserve Bank of Minneapolis* Mark Nagle, Assistant Vice President; 90 Hennepin Avenue, Minneapolis, Minnesota 55480–0291. Comments can also be sent electronically to *MA@mpls.frb.org:*

1. *C3 Holdings, Inc., Random Lake, Wisconsin;* to become a bank holding company by acquiring Northern Financial Corporation, and thereby indirectly acquiring Independence State Bank, both of Independence, Wisconsin.

Board of Governors of the Federal Reserve System.

**Michele Taylor Fennell,**

*Associate Secretary of the Board.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

**[30Day–26–0179]**

### Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled ''Focus on Advancing Support and Transition with the Fragile X Online Registry with Accessible Database (FAST FORWARD)'' to the Office of Management and Budget (OMB) for review and approval. CDC previously published a ''Proposed Data Collection Submitted for Public Comment and Recommendations'' notice on April 28, 2026, to obtain comments from the public and affected agencies. CDC received two related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

**Proposed Project**

Focus on Advancing Support and Transition with the Fragile X Online Registry with Accessible Database (FAST FORWARD)—New—National Center on Birth Defects and Developmental Disabilities (NCBDDD), Centers for Disease Control and Prevention (CDC).

*Background and Brief Description*

Fragile X Syndrome (FXS) is a genetic disorder caused by changes in a gene called fragile X messenger ribonucleoprotein 1 (FMR1). FMR1 usually makes a protein called Fragile X Messenger Ribonucleoprotein (FMRP) that is needed for brain development. People with FXS make little or no FMRP. FXS is the most prevalent known cause of inherited intellectual disability and the most common monogenic cause of autism. Physical features of FXS include a narrow face with prominent jaw and forehead and large ears. Medical features can include dental crowning, otitis media, sinus infections, sleep disorder, and strabismus; developmental features can include intellectual disability, motor delays, poor eye contact, repetitive behaviors, seizure disorder, speech-language disorder, and symptoms of attention deficit hyperactivity disorder. FXS is typically diagnosed in early childhood when physical, medical, and developmental features are more recognized. It is estimated that one in 7,000 males and one in 11,000 females have FXS.
