• Individuals who graduated from a high school with low average SAT/ACT scores or below-average state test results.
• Individuals from a school district where 50 percent or less of graduates go to college.
• Individuals raised in households where language barriers affected education access.
• Individuals from a high school where at least 30 percent of enrolled students are eligible for free or reduced-price lunch.
• Individuals who are the first generation in their family to attend college.

An individual from an economically vulnerable background is defined as someone who:

• Comes from a low-income family. Low-income family is defined as a family that has an annual income below the 200 percent of the Department's poverty guidelines;
• Is eligible for a Pell Grant; and/or
• Comes from a family that receives public assistance (*e.g.,* Temporary Assistance to Needy Families, Supplemental Nutrition Assistance Program, Medicaid, public housing).

The Secretary of HHS defines a 'low-income family' for programs included in Titles III, VII, and VIII of the Public Health Service Act as having an annual income that does not exceed 200 percent of the Department's poverty guidelines, which are based on the U.S. Census Bureau's low-income threshold. This threshold is simplified to facilitate the determination of financial eligibility for some federal programs and further adjusted by the Secretary of HHS based on the Consumer Price Index. Family is defined a group of two or more individuals related by birth, marriage, or adoption who live together, or an individual who is not living with any relatives.
