BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Notice of 229 Boundary for the SLAC National Accelerator Laboratory

AGENCY: Office of Science, Department of Energy.

ACTION: Notice of 229 Boundary for the SLAC National Accelerator Laboratory.

SUMMARY: Notice is hereby given that the U.S. Department of Energy, pursuant to the Atomic Energy Act of 1954, prohibits the unauthorized entry and the unauthorized introduction of weapons or dangerous materials, as provided in, into or upon the following described facilities and property of the SLAC National Accelerator Laboratory of the U.S. Department of Energy.

DATES: This action is effective on November 4, 2026.

FOR FURTHER INFORMATION CONTACT: Mr. Tyler M. Walker, Real Estate Contracting Officer, 301 Laboratory Road, Oak Ridge, TN 37830, Email: *tyler.walker@doe.gov;* Telephone: (865) 469–1183.

SUPPLEMENTARY INFORMATION: This security boundary is designated pursuant to Section 229 of the Atomic Energy Act of 1954 as amended, and as implemented by U.S. Department of Energy's regulations regarding Trespassing on Department of Energy Property at 10 CFR part 860.

The following supplement is made:

The U.S. Department of Energy installation known as the SLAC National Accelerator Laboratory, located in the City of Menlo Park, San Mateo County, California, with a physical address of 2575 Sand Hill Road, Menlo Park, CA 94025.

The site, consisting of approximately 426.3 acres, is controlled through a long-term ground lease between the United States Department of Energy by the Board of Trustees of the Leland Stanford Junior University. The SLAC National Accelerator Laboratory boundary is indicated by a combination of signage at entrances and along the perimeter, and chain link fencing, and other physical features which surround the facility.

Signing Authority: This document of the Department of Energy was signed on October 5, 2026, by Tyler M. Walker, Real Estate Contracting Officer, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on November 2, 2026.

Jennifer Hartzell,

Alternate Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[OE Docket No. EA–431–B]

Application for RENEWAL of Authorization To Export Electric Energy; Tenaska Power Services Co.

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: Tenaska Power Services Co. (the Applicant or TPS) has applied for renewed authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments must be submitted on or before December 4, 2026.

ADDRESSES: Comments or requests for more information should be addressed by electronic mail to *Electricity.Exports@hq.doe.gov.*

FOR FURTHER INFORMATION CONTACT: Marina Fennel, (240) 702–6156, *Electricity.Exports@hq.doe.gov.*

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On January 8, 2026, the authority to issue such orders was delegated to the DOE's Assistant Secretary for the Office of Electricity by Redelegation Order No. S3–DEL–OE1–2026.

On September 1, 2026, TPS filed an application (Application or App.) with DOE for renewal of export authority to transmit electric energy from the United States to Mexico for an additional five-year term. App. at 2. TPS was granted export authorization under Order No. EA–431–A on March 4, 2022, which expires on March 4, 2027.

According to the Application, TPS is a Nebraska corporation that is authorized to do business in the States of Nebraska, Alabama, Illinois, Texas, New York, Ohio, Oklahoma, California, Delaware, Nevada, Pennsylvania, New Jersey, and Washington. TPS is an indirect wholly owned subsidiary of Tenaska Energy Inc. (Tenaska), which is ''an independent developer and owner of power production facilities located throughout the United States.'' *Id.* at 3. TPS is a ''power marketer authorized by the Federal Energy Regulatory Commission (FERC) to make sales of electric power at wholesale in interstate commerce at market-based rates.'' *Id.* In addition, TPS states that it ''does not currently own or control electric generation or transmission facilities, and does not have a power supply of its own in the United States that would cause its electricity exports to have a reliability, fuel use, or system stability impact'' and that it will ''purchase the electricity that it may export, on either a firm or an interruptible basis, from wholesale generators, electric utilities, federal power marketing agencies and affiliates through negotiated agreements that have been voluntarily executed by the selling parties after considering their own need for any such electricity.'' *Id.* at 4. Thus, ''TPS's proposed electricity exports will not impair or tend to impede the sufficiency of electric power supplies in the United States or the regional coordination of electric utility planning or operations.'' *Id.* at 4–5.
