BILLING CODE 9112–FC–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA–2026–0199]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Information Collection for the State, Local, Tribal and Private Sector (SLTPS) Clearance Program

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: 30-Day notice of information collection; request for comment; extension of previously approved collection 1670–0013.

SUMMARY: The Office of the Chief Security Officer (OCSO) within Cybersecurity and Infrastructure Security Agency (CISA) submits the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and clearance. CISA previously published this information collection request (ICR) in the **Federal Register** on September 10, 2026 for a 60-day public comment period. No comments were received by CISA. The purpose of this notice is to allow additional 30-days for public comments.

DATES: Comments are encouraged and will be accepted until December 4, 2026. Submissions received after the deadline for receiving comments may not be considered.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION: Partnerships between the U.S. Government and the state, local tribal and private sector at times necessitate the sharing of classified information. The State, Local, Tribal and Private Sector (SLTPS) Clearance Request Form facilitates this sharing by sponsoring security clearances for certain members of each sector based on either their membership on a Sector Coordinating Council (SCC)/association or their infrastructure protection job-related duties and their need-to-know. The SLTPS is designed to sponsor security clearances for state, local, tribal and private sector officials involved in the infrastructure protection mission. These partners are subject matter experts within specific industries and have specialized knowledge not available within the Department of Homeland Security (DHS) and other Federal Departments or Agencies. Private citizens do not receive monetary compensation for their time. CISA created this program to sponsor clearances for these individuals who are not employed by or contracted with another Federal agency (the traditional means of obtaining a clearance) and must have clearances.

CISA collects necessary information through 1670–0013 to facilitate security clearances needed for sharing classified information with the vetted SLTPS Stakeholders.

The U.S. Government is authorized to ask for this information under Sections 201 and 229 of the Homeland Security Act (Pub. L. 107–296, 6 U.S.C. 121, 150), and Executive Orders 12968, 13526, 13549, 13636, and 13691 which authorize the collection of this information.

In order to begin this process of adjudicating a nominee to participate in the clearance program, federal nominators will complete the DHS Form 9014, State, Local, Tribal and Private Sector Clearance Request Form. The federal nominator will sign the form and have it approved by a senior-level official from the corresponding Federal Department or Agency. The signatures indicate the nominator and senior-level official have deemed the applicant has a CISA mission and meets the requirements and criteria as outlined in Executive Order (E.O.) 13549, the Department of Homeland Security, Classified National Security Information Program for SLTPS Implementing Directive and E.O. 13691, Sec. 4(c), and 32 CFR, Part 117, Sec. 117.22 of the National Industrial Security Program Operating Manual (NISPOM). Once submitted to the CISA OCSO the SLTPS Administrator will request the Personally Identifiable Information (PII) and a record is created into the Integrated Security Management System (ISMS). The Security Specialist will initiate an eApplication (eAPP), the

Defense Counterintelligence and Security Agency secure portal for investigation processing. Once the data is entered into e-App, the nominee is provided a password and can access the system and complete the online security questionnaire.

This information is only available to Security Specialists within OCSO working on the program and is maintained in ISMS, which is ''owned'' by the OCSO. The two-part PII request process helps minimize the collection of sensitive PII for only those nominees who meet the threshold and are sponsored by CISA.

This is an extension of a previously approved information collection.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA; 44 U.S.C. 3501 *et seq.*) and its implementing regulations in the Code of Federal Regulations (CFR) at 5 CFR part 1320, all information collections require approval under the PRA. On June 8, 2026, we published in the **Federal Register** (91 FR 34639) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on August 7, 2026. We also published the **Federal Register** notice on *Regulations.gov* (Docket No. FWS–HQ–IA–2026–1948). We received the following six comments in response to that notice:

Comment 1: Electronic comment received from Victoria Lopez submitted via *Regulations.gov* (FWS–HQ–IA–2026–1948–0003) on August 3, 2026. The commenter requests that the Service stop allowing the import of African elephants into the United States and stop authorizing the killing of elephants for trophies. The commenter expresses broader opposition to elephant hunting and trophy imports and raises concerns about threats to African elephant populations. The commenter also cites information regarding elephant populations and trophy hunting in Botswana and other African countries and urges the Service to provide greater protection for elephants and deny permits for the import of elephant trophies.

Agency Response to Comment 1: The Service appreciates the commenter's concern for the conservation of African elephants. However, the comments regarding whether African elephants should be hunted, whether elephant hunting should be permitted in range countries, and whether the Service should issue permits for the import of elephant specimens are outside the scope of this information collection renewal. The commenter did not address the information collection requirements; therefore, no response is required.

Comment 2: Anonymous electronic comment submitted via *Regulations.gov* [FWS–HQ–IA–2026–1948–0004] on August 5, 2026. The commenter states that they are unclear about the changes regarding elephant trophies and generally support sport hunting when conducted within biological limits established by range countries. The commenter opposes unnecessary burdens on hunting and indicates they take no position otherwise. The commenter also states that the action appears to primarily concern live elephants and expresses support for the Service's judgment.

Agency Response to Comment 2: We appreciate the commenters support regarding the import of African elephant specimens and feel there are no unnecessary burdens on hunting. Therefore, the Service is taking no action in response to the comment.

Comment 3: Anonymous electronic comment submitted via *Regulations.gov* [FWS–HQ–IA–2026–1948–0005] on August 7, 2026. The commenter recommends prohibiting the import and export of wildlife for hunting purposes and expresses concerns about climate change and the impacts of hunting on threatened species, including elephants.

Agency Response to Comment 3: This renewal does not propose changes to the African elephant 4(d) rule, the conservation status of African elephants, or the Service's substantive
