SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–106797; File No. SR–FINRA–2026–023]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Adopt FINRA Rule 1240.03 (Senior Leader Regulatory Element Interim Program) To Establish an Interim Program of Regulatory Element Continuing Education

November 2, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on October 29, 2026, the Financial Industry Regulatory Authority, Inc. (''FINRA'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by FINRA. FINRA has designated the proposed rule change as constituting a ''non-controversial'' rule change under paragraph (f)(6) of Rule 19b–4 under the Act,[3] which renders the proposal effective upon receipt of this filing by the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

FINRA is proposing to adopt FINRA Rule 1240.03 (Senior Leader Regulatory Element Interim Program) and make a conforming amendment to FINRA Rule 1240(a)(6) (Delivery of the Regulatory Element) to establish an interim program of Regulatory Element Continuing Education (''CE'') that would be voluntary and provide member firms with the option for their senior leaders to complete continuing education.

The text of the proposed rule change is available on FINRA's website at *http://www.finra.org* and at the principal office of FINRA.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Pursuant to Rule 1240, registered persons of member firms are required to complete CE that consists of two mandatory programs, a Regulatory Element and a Firm Element. Regulatory Element CE, which is administered by FINRA, focuses on regulatory requirements and industry standards. Firm Element CE is provided by each member firm to its registered persons and focuses on the firm's securities products, services and strategies, its policies, and industry trends.

FINRA has received a variety of suggestions from member firms and industry groups regarding changes to the Regulatory Element CE requirement for senior leaders (*e.g.,* chief executive officer, chief financial officer). FINRA received similar suggestions regarding this topic in response to *Regulatory Notice* 25–07.[4]

FINRA believes that Regulatory Element CE provides individuals with valuable training on recent developments in regulatory requirements and industry standards, and as such, CE is appropriate for all registered persons, including senior leaders. FINRA, however, recognizes that senior leaders at member firms may realize greater benefit from Regulatory Element CE training that draws from the annual Regulatory Element content but is tailored to their unique roles at a member firm. Senior leaders may engage with FINRA rules differently than frontline representatives and principals because they have broader visibility and responsibilities across their member firm, and often its broader organizational structure. FINRA believes that Regulatory Element CE content for such leaders therefore may be more effective if it covers the information addressed in the various Regulatory Element CE learning plans but presents the information from a broader, firm-
