SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, NSF is publishing a proposed Privacy Act system of records notice (SORN) for the case management system in support of each of the NSF administrative programs described below.

NSF–84: Awardee Compliance Case Management System

This SORN is intended to establish the NSF Office of Civil Rights (OCR) electronic case management system (CMS) for receiving, tracking, managing, and responding to complaints or reports received from victims, witnesses, or other individuals alleging discrimination, harassment, or retaliation in programs and activities that receive financial assistance from NSF (*e.g.,* NSF grants, cooperative agreements). Individuals may file a complaint or report through the online Web-based CMS by registering and creating a CMS user account. (Witnesses or other third parties may also file a complaint or report of discrimination, harassment, or retaliation on behalf of another individual through the CMS, but only with that individual's consent.) For Privacy Act purposes, all complaints, reports, or other records in the CMS are to be treated as records ''about'' the subject individual (*i.e.,* victim of the alleged discrimination, harassment, or retaliation), *see* 5 U.S.C. 552a(a)(4) (defining Privacy Act ''record'') and are to be maintained and retrieved only by the case number or other identifier personally assigned to the subject individual, and not by any other third-party individual who may also be identified in such records (*e.g.,* alleged violator, witnesses).

To the extent the system's online form constitutes an information collection activity subject to U.S. Office of Management & Budget (OMB) approval under the Paperwork Reduction Act (PRA), the form was approved by OMB and assigned Control No. 3145–0288 (National Science Foundation Office of Civil Rights Case Management System) on April 8, 2026.

NSF–85: Reasonable Accommodation Request E-Filing System

This SORN is intended to establish the NSF OCR electronic filing system pertaining to NSF employees, job applicants, and individuals conducting business at NSF who have requested a ''reasonable accommodation'' under applicable Federal law (*e.g.,* assistive technology, accessibility, support services, or other adjustments or modifications to the work environment under the Rehabilitation Act of 1973, as amended). Individuals may initiate such a request electronically by registering and creating an account in the online Web-based e-filing system, which will then allow them to submit information about their accommodation request, and to view the status of any request that they originally created in the system.
