require access. Access to electronic records is controlled by the organization's Personal Identify Verification (PIV) cards or multi-factor authentication and/or other network access or security controls. Role-based access is used to restrict access, and the organization employs the principle of least privilege, allowing only authorized users with access necessary to accomplish assigned tasks in accordance with organizational missions and business functions.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are retrieved by employee's name or title.

POLICIES AND PRACTICSE FOR RETENTION AND DISPOSAL OF RECORDS:

The retention schedule is located within the FERC Comprehensive Records Schedule, Part IV, Item 2—COMMISSION PUBLICATIONS. This section is designed to address official publications that are formally coordinated, prepared, and printed by the Government Printing Office, private contractors, or directly by the agency. It also encompasses special reports, studies, brochures, pamphlets, handbooks, manuals, catalogs, and other materials prepared for public relations and educational purposes, all intended to inform or promote agency programs and operations to the public. For records of this nature, the official record copies are classified as permanent. These permanent records will be transferred to NARA for long-term preservation, ensuring their continued availability and historical value.

ADMINISTRACTIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

See Policies and Practices for Storage of Records.

RECORD ACCESS PROCEDURES:

Individuals requesting access to the contents of records must submit a request through the Freedom of Information Act (FOIA) office. The FOIA website is located at: *https://www.ferc.gov/foia.* Requests may be submitted through the following portal: *https://www.ferc.gov/enforcement-legal/foia/electronic-foia-privacy-act-request-form.* Written requests for access to records should be directed to: Director, Office of External Affair, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

CONTESTING RECORD PROCEDURES:

See Records Access procedures.

NOTIFICATION PROCEDURE:

Generalized notice is provided by the publication of this notice. For specific notice, see Records Access Procedure, above.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

HISTORY:

65 FR 21743 (April 24, 2000).

Dated: November 2, 2026.

Debbie-Anne A. Reese,

Secretary.

[Project No. 2538–106]

Erie Boulevard Hydropower, L.P.; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Erie Boulevard Hydropower, L.P.'s, application for its Beebee Island Project No. 2538 proposing to remove the remaining conventional wooden flashboard system and replace it with a pneumatic flashboard system, and for a temporary variance from the requirements of license Articles 401, 411, and 414 for 12 weeks to allow for a 1.0-foot reservoir drawdown, reduced fish attraction flows, and a suspension of veiling flow requirements, respectively, and have prepared an Environmental Assessment (EA) for the project.[1] The project is located on the Black River in the town of Watertown, in Jefferson County, New York. The project does not occupy federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed replacement of the conventional wooden flashboard system with a pneumatic flashboard system and alternatives to the proposed action, and concludes that the proposed action would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at *http://www.ferc.gov* using the ''eLibrary Search Form'' link. Enter the docket number (P–2538–106) in the docket number field to access the document. For assistance, contact FERC Online Support at *FERCOnlineSupport@ferc.gov* or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.

You may also register online at *http://www.ferc.gov/docs-filing/esubscription.asp* to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

All comments must be filed by December 2, 2026, 5:00 p.m. Eastern Time.

The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at *http://www.ferc.gov/docs-filing/efiling.asp.* Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at *http://www.ferc.gov/docs-filing/ecomment.asp.* For assistance, please contact FERC Online Support. In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852. The first page of any filing should include docket numbers P–2538–106.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov.*

For further information, contact Mark Mattozzi at (202) 502–8087 or *Mark.Mattozzi@ferc.gov.*

[Docket No. NJ27–1–000]

Oncor Electric Delivery Company LLC; Notice of Filing

Take notice that on October 23, 2026, Oncor Electric Delivery Company LLC

submits tariff filing per 35.28(e): Orlando's Revised Non-Jurisdictional Open Access Transmission Tariff, effective October 4, 2026.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (*http://www.ferc.gov*). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at 202–502–6652 (toll free at 1–866–208–3676) or email at *ferconlinesupport@ferc.gov,* or the Public Reference Room at (202) 502–8371, TTY (202) 502–8659. Email the Public Reference Room at *public.referenceroom@ferc.gov.*

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the ''eFiling'' link at *http://www.ferc.gov.* Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov.*

Comment Date: 5:00 p.m. Eastern Time on November 13, 2026.

Dated: November 2, 2026.

Federal Energy Regulatory Commission

[Docket No. CP26–551–000]

Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, FLNG Liquefaction 3, LLC; Notice of Schedule for the Preparation of an Environmental Assessment for the Hourly Production Increase Project

On July 7, 2026, Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, and FLNG Liquefaction 3, LLC (collectively Freeport LNG) filed an application seeking approval to increase the maximum hourly liquified natural gas (LNG) production rate of the Liquefaction Project from approximately 33.6 million standard cubic feet per hour to 35 million cubic feet per hour. Granting the requested authorization will provide Freeport LNG with operational flexibility to increase the hourly LNG production rate in response to maintenance, downtime or other operational events, while allowing Freeport LNG to achieve (but not exceed) the currently authorized maximum annual LNG production capacity of 870 billion cubic feet per year.

On July 21, 2026, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.[1]

Schedule for Environmental Review

Issuance of EA—November 6, 2026
90-day Federal Authorization Decision Deadline [2]—February 4, 2027

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Freeport LNG proposed increase the maximum hourly LNG production rate of the Liquefaction Project from approximately 33.6 to 25 million standard cubic feet. Freeport LNG has determined that the Hourly Maximum reflects the maximum flow rate of the Liquefaction Project at low ambient temperatures while other production variables are optimized.

Freeport LNG's has indicated that this increase can be implemented within the operating limits of existing major equipment. No changes are proposed to the currently installed major equipment, layout or design basis. Freeport LNG is not proposing to increase the maximum annual LNG production capacity of the Liquefaction Project and Freeport LNG is proposing no changes to any other engineering documents previously submitted.

Background

The Notice of Application informed stakeholders of three ways to become involved in the Commission's review of the Amendment, by either: (1) filing comments; (2) protesting Freeport LNG's proposal; or (3) filing a motion to intervene. We received no comments in response to the Notice of Application.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to *https://www.ferc.gov/ferc-online/overview* to register for eSubscription.

For public inquiries and assistance with making filings such as

[1] For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX–019–20–000–1790266302.

[2] The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.
