days of its public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). However, because Commerce preliminarily applied adverse facts available (AFA) to the China-wide entity in this investigation in accordance with section 776 of the Act, and the applied AFA rate is based solely on the petition, there are no calculations to disclose.

Verification

Because the mandatory respondents in this investigation did not provide information requested by Commerce, withdrew from participating in this proceeding, and Commerce preliminarily determines each of the mandatory respondents to have been uncooperative, verification will not be conducted.

Public Comment

Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than 14 days after the date of publication of the preliminary determination, unless the Secretary alters the time limit. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs.[8] Interested parties who submit case briefs or rebuttal briefs in this proceeding must submit: (1) a table of contents listing each issue; and (2) a table of authorities.[9]

As provided under 19 CFR 351.309(c)(2)(iii) and (d)(2)(iii), we request that interested parties provide at the beginning of their briefs a public, executive summary for each issue raised in their briefs.[10] Further, we request that interested parties limit their executive summary of each issue to no more than 450 words, not including citations. We intend to use the executive summaries as the basis of the comment summaries included in the issues and decision memorandum that will accompany the final determination in this investigation. We request that interested parties include footnotes for relevant citations in the executive summary of each issue. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).[11]

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain: (1) the party's name, address, and telephone number; (2) the number of participants and whether any participant is a foreign national; and (3) a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at a time and date to be determined.

Final Determination

Section 735(a)(1) of the Act and 19 CFR 351.210(b)(1) provide that Commerce will issue the final determination within 75 days after the date of its preliminary determination. Accordingly, Commerce will make its final determination no later than 75 days after the signature date of this preliminary determination.

U.S. International Trade Commission Notification

In accordance with section 733(f) of the Act, Commerce will notify the U.S. International Trade Commission (ITC) of its preliminary determination of sales at LTFV. If the final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after the final determination whether imports of the subject merchandise are materially injuring, or threaten material injury to, the U.S. industry.

Notification to Interested Parties

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: October 28, 2026.

Scope of the Investigation

The product subject to this investigation is N-Cyclohexylbenzothiazole-2-sulfenamide (CBS), an organic compound also known as N-cyclohexyl-2-benzothiazolesulfenamide, N-(1,3- benzothiazol-2-ylsulfanyl) cyclohexanamine and N-cyclohexylbenzothiazol-2-sulphenamide. It may additionally be termed Accelerator CZ, CBTS, Thiohexam, HIP4, Curax, DURAX, Conaca, Conach, Conacs, or Celacs. A CBS assay or sample most commonly reflects a concentration of 94 to 99 percent.

CBS is most commonly in the form of an off-white or light gray powder, oiled powder, or granule, though CBS imported in a different color or form is included in the scope. CBS typically has a melting point of 90 to 110°C and a molecular weight of 264.4 g/mol. CBS may be imported in a solution of benzene, ethanol, or acetone. CBS has the chemical formula C13H16N2S2 and is assigned the Chemical Abstract Service (CAS) registry No. 95–33–0.

The scope also includes CBS that is commingled with CBS from sources not subject to this investigation.

CBS powder, oiled powder, and granules are classified under subheading 2934.20.8000, Harmonized Tariff Schedule of the United States (HTSUS). Imports of CBS may also be classified under subheadings 3812.10.1000 and 3812.10.5000, HTSUS. Although the HTSUS and CAS numbers are provided for convenience and customs purposes, the written description of the scope is dispositive.

Steel Wire Garment Hangers From the People's Republic of China and the Socialist Republic of Vietnam: Final Affirmative Determination of Circumvention of the Antidumping Duty Order on Steel Wire Garment Hangers From the People's Republic of China and the Antidumping and Countervailing Duty Orders on Steel Wire Garment Hangers From the Socialist Republic of Vietnam

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that imports of steel wire garment hangers (hangers), completed in Cambodia using: (1) steel wire or (2) steel wire and

paper accessories, produced in the People's Republic of China (China) or the Socialist Republic of Vietnam (Vietnam), are circumventing the antidumping duty (AD) order on hangers from China, or the AD and countervailing duty (CVD) orders on hangers from Vietnam.

DATES: Applicable November 6, 2026.

FOR FURTHER INFORMATION CONTACT: Braeden Lowe, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–9124.

SUPPLEMENTARY INFORMATION:

Background

On October 6, 2008 and February 5, 2013, Commerce published in the **Federal Register** the AD order on hangers from China,[1] and the AD and CVD orders on hangers from Vietnam, respectively.[2] On August 12, 2025, Commerce initiated country-wide circumvention inquiries pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), to determine whether imports of hangers completed in Cambodia using: (1) steel wire or (2) steel wire and paper accessories, produced in China or Vietnam, are circumventing the *China Order* or the *Vietnam Orders* and, accordingly, should be covered by the scope of the *China Order* or the scope of the *Vietnam Orders*.[3] On September 22, 2026, Commerce published the affirmative *Preliminary Determination* of these circumvention inquiries.[4] Concurrent with the *Preliminary Determination,* we also extended the deadline to issue this final determination until October 30, 2026.[5] We invited parties to comment on the *Preliminary Determination* of these inquiries. We received no comments.

Scope of the Orders

For a complete description of the scope of the *China Order* and the scope of the *Vietnam Orders, see* Appendix I and II of this notice.[6]

Merchandise Subject to the Circumvention Inquiries

These circumvention inquiries cover hangers completed in Cambodia using either: (1) steel wire; or (2) steel wire and paper accessories produced in China or Vietnam, where the hangers are subsequently exported from Cambodia to the United States.

Affirmative Final Determination of Circumvention

Because we received no comments from any interested party, this final determination of circumvention remains unchanged from the *Preliminary Determination* and no decision memorandum accompanies this notice. Consistent with the *Preliminary Determination,* Commerce continues to determine that hangers completed in Cambodia using Chinese-origin or Vietnamese origin inputs, *i.e.,* steel wire or steel wire and paper accessories, are circumventing the *China Order* or the *Vietnam Orders,* each on a country-wide basis.[7] As a result, in accordance with section 781(b) of the Act, we determine that this merchandise should be included within the scope of the *China Order* or the scope of the *Vietnam Orders.*

Continuation of Suspension of Liquidation and Cash Deposit Requirements

Based on this affirmative final country-wide determination of circumvention with respect to hangers exported from Cambodia, in accordance with 19 CFR 351.226(I)(3), we will direct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation and require a cash deposit of estimated antidumping or countervailing duties on unliquidated entries of hangers from Cambodia that were entered, or withdrawn from warehouse, for consumption, on or after August 12, 2025, the date of publication of the initiation of this circumvention inquiry in the **Federal Register**.

The suspension of liquidation and cash deposit requirements will remain in effect until further notice.[8]

For this final determination, we continue to implement the cash deposit requirements and certification process outlined in the *Preliminary Determination*.[9] Specifically, Commerce found that no exporter of hangers from Cambodia is eligible to certify the origin of the steel or steel and paper inputs used to produce hangers in Cambodia. However, we established a certification program that allows parties (excluding parties to which Commerce applied adverse facts available) to certify that entries of hangers exported from Cambodia were produced using Chinese, rather than Vietnamese, steel wire or steel wire and paper accessories. In order to certify that shipments were not subject to the *Vietnam Orders,* the importer, exporter, and producer are required to provide documentation to CBP at the time of entry supporting the claim that the steel wire or steel wire and paper accessories were sourced from China. Should we determine at a later date that a more general certification program (*e.g.,* one where parties can certify that the imported hangers are not produced with Chinese- or Vietnamese inputs) is appropriate,

[9] Consistent with our recent determinations, where AD/CVD orders from two countries (*i.e.,* here, China and Vietnam) potentially apply to an entry, Commerce instructed CBP to suspend the entry and collect cash deposits at the rates applicable to the *Vietnam Orders* (*i.e.,* the AD cash deposit rate established for the Vietnam-wide entity (220.68 percent) and the CVD cash deposit rate established for all other companies (31.58 percent)) under the following third-country case numbers: A–555–812 (Vietnam AD), and C–555–813 (Vietnam CVD). For entries of hangers from Cambodia for which the producer, exporter, and importer have certified in Commerce's dual circumvention certification program that the merchandise was produced using Chinese-origin steel wire or steel wire and paper accessories, Commerce directed CBP to suspend liquidation and require a cash deposit at the AD cash deposit rate established for hangers from China under the following third-country case number: A–555–918. *See Preliminary Determination,* 91 FR at 60087; *see also* certification requirements and certifications at Appendix III and IV.

Commerce will release the required certification language, and establish such a certification program, at that time.

Administrative Protective Order

This notice will serve as the only reminder to all parties subject to an administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination is issued and published in accordance with sections 781(b) of the Act 19 CFR 351.226(g)(1).

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Appendix I

Scope of the China Order

The merchandise subject to the *Order* is steel wire garment hangers, fabricated from carbon steel wire, whether or not galvanized or painted, whether or not coated with latex or epoxy or similar gripping materials, and/or whether or not fashioned with paper covers or capes (with or without printing) and/or nonslip features such as saddles or tubes. These products may also be referred to by a commercial designation, such as shirt, suit, strut, caped, or latex (industrial) hangers.

On October 30, 2026, Commerce determined that steel wire garment hangers that are completed in Cambodia using Chinese-origin (1) steel wire or (2) steel wire and paper accessories and subsequently exported to the United States are subject to the *Order.*

Specifically excluded from the scope of the *Order* are wooden, plastic, and other garment hangers that are not made of steel wire. Also excluded from the scope of the *Order* are chrome-plated steel wire garment hangers with a diameter of 3.4 mm or greater.

The products subject to the *Order* are currently classified under U.S. Harmonized Tariff Schedule (HTSUS) subheadings 7326.20.0020, 7323.99.9060, and 7323.99.9080. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Appendix II

These products may also be referred to by a commercial designation, such as shirt, suit, strut, caped, or latex (industrial) hangers.

On October 30, 2026, Commerce determined that steel wire garment hangers that are completed in Cambodia using Vietnamese-origin (1) steel wire or (2) steel wire and paper accessories and subsequently exported to the United States are subject to the *Orders.*

The products subject to the *Orders* are currently classified under U.S. Harmonized Tariff Schedule (HTSUS) subheadings 7326.20.0020 and 7323.99.9080. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive

Appendix III

Certification Program Requirements

The importer is required to complete and maintain the applicable importer certification, and maintain a copy of the applicable producer certification, and retain all supporting documentation for both certifications. With the exception of the entries described below, the importer certification must be completed, signed, and dated by the time the entry summary is filed for the relevant entry.

If the producing company and the exporting company are the same, the importer, or the importer's agent, must submit the importer's certification, the producer/exporter certification, and documentation demonstrating that the country-of-origin of the (1) steel wire or (2) steel wire and paper accessories used in the production of the exported steel wire garment hangers was Chinese. Such certifications and documentation must be submitted to CBP at the time that the entry summary is filed by uploading these documents into the document imaging system (DIS) in the Automated Customs Environment (ACE).

If the producing company and the exporting company are different, the importer, or the importer's agent, must submit the importer's certification, the producer's certification, and the exporter's certification, and documentation demonstrating the Chinese-origin of the (1) steel wire or (2) steel wire and paper accessories used in the production of the exported steel wire garment hangers. Such certifications and documentation must be submitted to CBP at the time that the entry summary is filed by uploading these documents into DIS in ACE.

Where the importer uses a broker to facilitate the entry process, the importer should obtain the entry summary number from the broker. Agents of the importer, such as a broker, however, are not permitted to certify on behalf of the importer. Consistent with CBP's procedures, an importer shall identify certified entries by using the importer's additional declaration (record 54), AD/CVD Certification Designation (type code 6) when filing an entry summary.

Where the producer and the exporter are the same entity, the producer/exporter is required to complete and maintain the applicable producer/exporter certification and provide the importer with a copy of that certification and all supporting documentation (*e.g.,* invoice, purchase order, production records, etc.). With the exception of the entries described below, the producer certification must be completed, signed, and dated by the time of shipment of the relevant entry. The producer/exporter certification should be completed by the party producing and exporting the steel wire garment hangers that were manufactured in Cambodia to the United States.

Where the producer and exporter are different entities, (1) the producer is required to complete and maintain the applicable producer certification and provide the importer with a copy of that certification and all supporting documentation (*e.g.,* invoice, purchase order, production records, etc.), and (2) the exporter is required to complete and maintain the applicable exporter certification and provide the importer with a copy of that certification and all supporting documentation (*e.g.,* invoice, purchase order, production records, etc.).

Additionally, the claims made in the certifications and supporting documentation are subject to verification by Commerce or CBP. Importers and producers are required to maintain the certifications and supporting documentation until the later of: (1) the date that is five years after the latest entry date of the entries covered by the certification; or (2) the date that is three years after the conclusion of any litigation in the United States courts regarding such entries.

For all steel wire garment hangers that were entered, or withdrawn from warehouse, for consumption during the period August 12, 2025 (the date of publication of the initiation of these circumvention inquiries), through 45 days from the date on which Commerce published its preliminary circumvention findings in the **Federal Register**, where the entry has not been liquidated (and entries for which liquidation has not become final), the importer and producer certifications should be completed and signed as soon as practicable, but not later than 45 days of the date on which Commerce published its preliminary circumvention findings in the **Federal Register** . The importer's certification, the producer's certification, the commercial invoice, and documentation supporting the country of origin of the steel wire or type of input if not steel wire used to produce the steel wire garment hangers should be uploaded to the DIS in ACE as soon as practicable, but not later than 45 days of the date on which Commerce published its preliminary circumvention findings in the **Federal Register**. For such unliquidated

entries made prior to the publication of these preliminary determinations which are suspended under the antidumping and countervailing duty orders, the importer or producer each have the option to complete a blanket certification covering multiple entries, individual certifications for each entry, or a combination thereof.

As discussed in the Preliminary Decision Memoranda, this dual circumvention certification program is not available for companies to which Commerce has applied facts available with adverse inferences. Accordingly, as discussed in the Preliminary Decision Memoranda, Commerce preliminarily determines that Alpha Hanger, Everbrit and Kaining are ineligible to certify that any entries of hangers are made of Chinese-origin (1) steel wire or (2) steel wire and paper accessories.

N. I understand that failure to maintain the required certification and supporting documentation, or failure to substantiate the claims made herein, or not allowing CBP and/or Commerce to verify the claims made herein, may result in a *de facto* determination that all entries to which this certification applies are within the scope of the antidumping duty (AD) and countervailing duty (CVD) orders on steel wire garment hangers from Vietnam. I understand that such finding will result in:

(i) suspension of liquidation at the AD and CVD rates applicable to the Vietnam Order of all unliquidated entries (and entries for which liquidation has not become final) for which these requirements were not met;

(ii) the importer being required to post the AD and CVD cash deposits determined by Commerce; and

J. I understand that failure to maintain the required certification and supporting documentation, or failure to substantiate the claims made herein, or not allowing CBP and/or Commerce to verify the claims made herein, may result in a *de facto* determination that all sales to which this certification applies are within the scope of the antidumping duty and countervailing duty orders on steel wire garment hangers from Vietnam. I understand that such a finding will result in:

(i) suspension of all unliquidated entries at the AD and CVD rates applicable to the Vietnam Order (and entries for which liquidation has not become final) for which these requirements were not met;

(ii) the importer being required to post the antidumping duty and countervailing duty cash deposits determined by Commerce; and

K. I understand that agents of the seller/exporter, such as freight forwarding companies or brokers, are not permitted to make this certification.
