GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0300; Docket No. 2026–0562; Sequence No. 1]

Information Collection; General Services Administration Acquisition Regulation; Implementation of Information Technology Security Requirements

AGENCY: Office of Acquisition Policy, General Services Administration (GSA).

ACTION: Notice; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and OMB regulations, GSA invites the public to comment on an extension concerning the implementation of information technology security requirements. GSA invites comments on: whether the proposed collection of information is necessary, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through March 31, 2027. GSA proposes that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: GSA will consider all comments received by January 8, 2027.

ADDRESSES: GSA invites interested persons to submit comments on this collection through *https://www.regulations.gov* and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at *GSARegSec@gsa.gov.*

Instructions: All items submitted must cite OMB Control No. 3090–0163, Contract Solicitation Information. Comments received generally will be posted without change to *https://www.regulations.gov,* including any personal and/or business-confidential information provided. To confirm receipt of your comment(s), please check *www.regulations.gov,* approximately two-to-three days after submission to verify posting.

FOR FURTHER INFORMATION CONTACT: Thomas O'Linn, Procurement Analyst, at telephone 816–589–3783 (Ext. 13291), or *GSARpolicy@gsa.gov.*

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and any Associated Form(s)

OMB Control No. 3090–0300, Implementation of Information Technology Security Requirements.

B. Needs and Uses

The General Services Acquisition Regulations (GSAR) requires that contractors accessing information systems that support the operations and assets of GSA, another agency, contractor, or other source, to comply with GSA's IT security policies including GSA IT's security policies outlined in CIO 09–48, IT Security Procedural Guide: Security and Privacy IT Acquisition Requirements and CIO 12–2018, IT Policy Requirements Guide.

Due to the Revolutionary GSAR Overhaul (RGO), there are no program changes. Once RGO rulemaking is complete, GSA will assess and revise this information collection as needed.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day–27–1319; Docket No. CDC–2026–1783]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on an existing information collection project titled National Surveillance of Community Water Systems and Corresponding Populations with the Recommended Fluoridation Level. This surveillance program collects the fluoridation status of, and population served by the nation's 52,000 community water systems (CWS) which serve the 50 states and the District of Columbia.

DATES: CDC must receive written comments on or before January 8, 2027.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2026–1783 by either of the following methods:

- *Federal eRulemaking Portal: www.regulations.gov.* Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–H21–8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *www.regulations.gov.*

Please note: Submit all comments through the Federal eRulemaking portal (*www.regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–H21–8, Atlanta, Georgia 30329; phone: 404–639–7570; Email: *omb@cdc.gov.*

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

National Surveillance of Community Water Systems and Corresponding Populations with the Recommended Fluoridation Level—(OMB Control No 0920–1319, Exp. 2/28/2027)—Extension—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Community water fluoridation is the process of adjusting the fluoride concentration of a Community Water Systems (CWS) to the level beneficial for prevention of dental caries as recommended by the US Public Health Service (PHS). Community water fluoridation is a major factor contributing to the large decline in caries in the U.S. in the past 75 years and is recognized as one of 10 great public health achievements of the twentieth century. Community water fluoridation reduces dental caries by 25% and is a safe, and is the most cost-effective way to deliver fluoride to people of all ages, regardless of education and income level. It is especially important for populations with limited access to preventive dental measures. CDC is authorized to collect the information under the Public Health Service Act. This data collection aligns with CDC's strategy to use public health surveillance to inform programs and policies to improve the oral health of the nation by reducing disparities and expanding access to effective prevention programs.

CDC uses the Water Fluoridation Reporting System (WFRS) to collect water fluoridation coverage and quality throughout the U.S. Respondents to the information collection are state fluoridation managers or other state government officials designated by the state dental director or drinking water administrator. State participation in the data collection is voluntary. This data allows CDC and states to monitor the performance and efficiency of their water fluoridation programs, which will improve and extend program delivery.

CDC requests OMB approval for an estimated 2,783 annual burden hours. There is no cost to respondents other than their time to participate.
