Application for Authorization To Export Electric Energy; KPT Energy LLC

by electronic mail to *Electricity.Exports@hq.doe.gov.*

FOR FURTHER INFORMATION CONTACT: Marina Fennel, (240) 702–6156, *Electricity.Exports@hq.doe.gov.*

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On January 8, 2026, the authority to issue such orders was delegated to the DOE's Assistant Secretary for the Office of Electricity by Redelegation Order No. S3–DEL–OE1–2026.

On July 24, 2026, KPT Energy filed an application (Application or App.) with DOE for authorization to transmit electric energy from the United States to Canada for a term of five years.

KPT energy affirms it will ''make all necessary commercial arrangements and will obtain any and all other regulatory approvals required in order to schedule and deliver power exports.'' *Id.* at 4.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See* App. at Exhibit A.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment to the Application at *Electricity.Exports@hq.doe.gov.*

Comments concerning KPT Energy's Application should be clearly marked with OE Docket No. EA–532. Comments will be posted along with the relevant application on the program website at *www.energy.gov/oe/pending-applications.*

A final decision will be made on the requested authorization after the environmental impacts have been evaluated consistent with the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321, *et seq.*), the DOE NEPA regulations at 10 CFR part 1021, and the DOE's Implementing Procedures (June 2026) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.
