SUPPLEMENTARY INFORMATION:

OMB Control Number: 2105–0529.

Title: Procedures for Transportation Workplace Drug and Alcohol Testing Programs.

Form Numbers: DOT F 1385; DOT F 1380.

Type of Review: Clearance of a renewal of an information collection.

Background: Under the Omnibus Transportation Employee Testing Act of 1991, DOT is required to implement a drug and alcohol testing program in various transportation related industries. This specific requirement is elaborated in 49 CFR part 40, Procedures for Transportation Workplace Drug and Alcohol Testing Programs (Part 40). This request for a renewal of the information collection for the program includes 45 burden items related to the overall program and two official DOT forms: the U.S. Department of Transportation Alcohol Testing Form (ATF) [DOT F 1380] and the DOT Drug and Alcohol Testing Management Information System (MIS) Data Collection Form [DOT F 1385].

The ATF includes the employee's name, the type of test taken, the date of the test, and the name of the employer. Data on each test conducted, including test results, is necessary to document that the tests were conducted and is used to take action, when required, to ensure safety in the workplace.

The MIS form includes employer specific drug and alcohol testing information such as the reason for the test and the cumulative number of test results for the negative, positive, and refusal tests. No employee specific data is collected. The form has fields for data related to urine and oral fluid drug testing. The MIS data is used by each of the affected DOT Agencies (*i.e.,* Federal Aviation Administration, Federal Transit Administration, Federal Railroad Administration, Federal Motor Carrier Safety Administration, and the Pipeline and Hazardous Materials Safety Administration) and the United States Coast Guard when calculating their industry's annual random drug and/or alcohol testing rate.

DOT will request OMB approval to revise the MIS Data Collection Form. Specifically, in Section I of the form, ''Employer'', in the line for PHMSA—Pipeline, DOT will remove the text '': (Check) Gas Gathering__ Gas Transmission__ Gas Distribution__ Transport Hazardous Liquids__ Transport Carbon Dioxide__''. Because pipeline operators submit other reports to PHMSA, PHMSA already knows the types of pipelines they operate; therefore, collecting this data element on the MIS form is unnecessary. Furthermore, contractors to pipeline operators who must submit an MIS form are not operators and are confused by the options because the 'type of pipeline' does not apply to them. Removing this data element will not hinder the data collection effort or alter the form's burden estimate. In the Paperwork Reduction Act Notice section of the form, DOT will replace the text 'Suite W62–300' with 'Rm W75–211' to reflect the new office location.

Respondents: The information will be collected from transportation employers, Department representatives, and a variety of service agents. Estimated total number of respondents is 2,383,126.

Frequency: The information will be collected annually.
