DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–7094–N–11; OMB Control No. 2506–0219]

60-Day Notice of Proposed Information Collection: Youth Homelessness System Improvement (YHSI)

AGENCY: Office of Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.

DATES: *Comments Due Date:* January 8, 2027.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Written comments and recommendations for the proposed information collection can be sent within 60 days of publication of this notice to *www.regulations.gov.* Interested persons are also invited to submit comments regarding this proposal and comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Urnell Johnson, PRA Supervisor, Correspondence Unit, Department of Housing and Urban Development, 451 7th Street SW, Room 7232, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Karen DeBlasio, Director, Office of Special Needs Assistance Programs, Office of Community Planning and Development, Department of Housing and Urban Development, 451 7th Street SW, Room 7262, Washington, DC 20410; email *Karen.M.DeBlasio@hud.gov,* telephone (202) 402–4773 (This is not a toll-free number). HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit *https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs.*

Copies of available supporting documents for the proposed collection may be obtained from Ms. DeBlasio.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Youth Homeless Systems Improvement (YHSI).

OMB Approval Number: 2506–0219.

Type of Request: Renewal.

Form Number: SF–424 Application for Federal Assistance.

Description of the need for the information and proposed use:

Congress appropriated funds to the Department of Housing and Urban Development in FY2022–FY2026 to competitively award funds to selected communities to support them in establishing and implementing a response system for youth homelessness or for improving their existing response system. The YHSI projects focus on systems change to improve the capacity and increase collaboration with youth in the community; establish partnership with other youth-serving systems; connect housing and homelessness service providers to education, job training, and employment skills organizations; improve the centralized or coordinated assessment system also known as the Coordinated Entry Systems (CES); and improve data collection and use between systems that work with at-risk and homeless youth. This information collection revision is to monitor the progress of funded YHSI projects.

Estimated Number of Respondents: 86 YHSI grant recipients.

Estimated Number of Responses: 172.

Frequency of Response: Biannual.

Average Hours per Response: 2.

Total Estimated Burdens: $22,482.12.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

[Docket No. FWS–R4–ES–2026–2542; FXES11130400000–278–FF04E00000]

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 81 Southeastern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of status reviews.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended, for 81 species (ESA; 16 U.S.C. 1531 *et seq.*). A 5-year status review is based on an assessment of the best scientific and commercial data available at the time of the review. We ask the public to submit any new information relevant to the status of any of the species listed in this notice or their habitats.

DATES: These status reviews were announced on November 9, 2026.

ADDRESSES: We will accept new information about these or any listed species at any time. For instructions on how and where to submit information for a species named in these status reviews, see table 1 in the **SUPPLEMENTARY INFORMATION** section. Additional information on status reviews is available at *https://www.fws.gov/project/five-year-status-reviews.*

FOR FURTHER INFORMATION CONTACT: To request information, contact the

appropriate person in Table 1 in the **SUPPLEMENTARY INFORMATION** section. For general information or to submit information by mail, contact Bradly Potter, via phone at 517–643–7965, via email at *R4Recovery@fws.gov,* or via U.S. mail at U.S. Fish and Wildlife Service, 1875 Century Boulevard, Atlanta, GA 30345.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, are announcing 5-year status reviews under the ESA for 81 species which include 47 animal species and 34 plant species. A 5-year status review is based on the best scientific and commercial data available at the time of the review. We ask the public to submit at any time any new information relevant to the status of any of the species listed in Table 1 below.

Why do we conduct 5-year status reviews?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for wildlife) and 50 CFR 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing species under active review. For additional information about 5-year status reviews, refer to our fact sheet at *https://www.fws.gov/project/five-year-status-reviews.*

What information do we consider in our reviews?

A 5-year status review considers the best scientific and commercial data regarding the species. Such information includes:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, habitat requirements, tolerance thresholds, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been or are planned to be implemented to benefit the species;

(D) Current threats and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA (16 U.S.C. 1533(a)(1)); and

(E) Other new information, data, or corrections, including, but not limited to, taxonomic or nomenclature changes, identification of erroneous information contained in the List, and any improved analytical methods.

Any new information will be considered during the 5-year status review and ongoing recovery programs for the species.

Which species are under review?

This notice announces 5-year status reviews for the species listed in Table 1. For additional information on the species, see our website at *https://ecos.fws.gov/ecp/* and enter the species name in the search box.

New Information

To ensure that a 5-year status review is based on the best available scientific and commercial information, we ask that any new information is submitted using one of the methods identified under **ADDRESSES** (also see **FOR FURTHER INFORMATION CONTACT**). When submitting information, please support said information by supplying documentation such as maps; references; methods used to gather and analyze the data; and/or copies of any pertinent scientific journal articles, other publications, reports, or letters by knowledgeable sources. Before including your address, phone number, email address, or other personal identifying information in your submission, you should be aware that your entire submission—including your personal identifying information—may be made publicly available at any time.

Authority

We publish this notice under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).
