**Forest Service**

*Title:* Qualified Product List for Wild Land Fire Chemicals.

*OMB Control Number:* 0596–0182.

*Summary of Collection:* The policy of the USDA Forest Service (USDA FS) is stated in Forest Service Handbook (FSH 5109.16, chapters zero code and 20), ''Use only evaluated, approved and qualified fire chemicals.'' This policy requires the Agency to evaluate all wildland fire chemicals before use in fire management activities on lands managed by the USDA FS. Additionally, the Agency needs ''to have available and utilize adequate types and quantities of qualified fire chemical products to accomplish fire management activities safely, efficiently, and effectively.'' To accomplish this objective, the USDA FS evaluates fire chemical products available for use in direct wildland-fire management operations prior to such use on lands managed by the Agency. (FSH5109.16, zero code, sections 02 and 03).

*Need and Use of the Information:* Information is collected for each formulation or reformulation once, upon the respondent's initial request for evaluation. For the purposes of this information collection, we're anticipating an average of five respondents will submit ten new responses during a twelve-month period. This information collection and the product evaluation must be conducted on an ongoing basis to ensure the Agency can solicit and award contracts in a timely manner to provide firefighters with safe and effective wildland fire chemical products.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 15.

*Frequency of Responses:* Reporting: Other (once).

*Total Burden Hours:* 64.
