[Investigation Nos. 701–TA–464 and 731–TA–1160 (Third Review)]

Prestressed Concrete Steel Wire Strand From China; Determinations

On the basis of the record [1] developed in the subject five-year reviews, the United States International Trade Commission (''Commission'') determines, pursuant to the Tariff Act of 1930 (''the Act''), that revocation of the antidumping and countervailing duty orders on prestressed concrete steel wire strand from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.[2]

Background

The Commission instituted these reviews on April 1, 2026 (91 FR 16226) and determined on July 6, 2026, that it would conduct expedited reviews (91 FR 52083, August 12, 2026).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on November 6, 2026. The views of the Commission are contained in USITC Publication 5809 (November 2026), entitled *Prestressed Concrete Steel Wire Strand from China: Investigation Nos. 701–TA–464 and 731–TA–1160 (Third Review).*
