Abstract: The Personnel Development Program (PDP) is a Federal program managed at the Office of Special Education Programs (OSEP) aimed at increasing the supply of qualified personnel in the field of special education. This program awards competitive grants to Institutions of Higher Education (IHEs) to support scholars who are preparing to provide special education and related services to children and youth with disabilities. Scholars who receive funding agree to work in the field of special education or related services for two years for each year of support they receive.

The information is collected through the web-based Personnel Development Program Data Collection System (PDPDCS) under the authority of the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. 1462) and the implementing service obligation regulations at 34 CFR part 304, as well as reporting requirements under 34 CFR 75.110. Through the PDPDCS, grantees, scholars, and employers report data electronically.

The PDPDCS enables OSEP to meet its Congressional mandate by providing reliable data to assess program efficiency, performance, and effectiveness. Data collected are used to evaluate grantees' compliance with PDP program requirements, report program performance on GPRA measures to Congress, track scholar enrollment in training programs and subsequent service obligation fulfillment, and to refer scholars to the Accounts Receivable and Bank Management Division (ARBMD) for repayment of part or all of the scholarship received, if the scholars are not fulfilling their obligations through service.

Ross Santy,

Chief Data Officer, Office of Planning, Evaluation and Policy Development.
