safety questions will be satisfactorily resolved by the completion of construction, and that, taking into consideration siting criteria, the proposed facility can be constructed and operated at the proposed location without undue risk to public health and safety, subject to the conditions listed in the CP. Furthermore, the NRC found that the licensee, LME, is technically and financially qualified to construct the facility, and that issuance of the CP will not be inimical to the common defense and security or to the health and safety of the public. Finally, the NRC found that issuance of the CP was in accordance with subpart A, ''National Environmental Policy Act—Regulations Implementing Section 102(2),'' of 10 CFR part 51, ''Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,'' and that all applicable requirements had been satisfied.

Accordingly, the immediately effective CP was issued on November 9, 2026.

II. Further Information

The NRC staff prepared a Safety Evaluation (SE) and Environmental Assessment (EA) which document the staff's evaluation of the CP application and its findings. In accordance with 10 CFR 2.390, ''Public inspections, exemptions, requests for withholding,'' of the NRC's ''Agency Rules of Practice and Procedure,'' details with respect to this action, including the SE and EA, and accompanying documentation included in the CP package, are available online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* From this site, persons can access the NRC's ADAMS, which provides text and image files of NRC's public documents.

III. Availability of Documents

The documents identified in the following table are available to interested persons through ADAMS.

Document description	ADAMS accession No.
Construction Permit No. CPAR–3, dated November 9, 2026	ML26301A133.
Safety Evaluation Related to the Long Mott Energy, LLC Construction Permit Application for Long Mott Generating Station, dated October 30, 2026.	ML26295A004 (package).
Environmental Assessment and Finding of No Significant Impact for the Construction Permit and Environmental Review Exemptions for the Long Mott Generating Station, dated May 31, 2026.	ML26112A016.
LME Construction Permit Application Documentation (Revision 0), dated March 31, 2025	ML25090A057 (package).
LME Construction Permit Application Documentation (Revision 1), dated September 18, 2026	ML26261A419 (package).
Request for Confirmation of Information (RCI–1) from Long Mott Energy, LLC to Support the Review of the Construction Permit Application for Long Mott Generating Station, dated August 14, 2026.	ML26230A155 (package).
Request for Confirmation of Information (RCI–2) from Long Mott Energy, LLC to Support the Review of the Construction Permit Application for Long Mott Generating Station, dated September 14, 2026.	ML26258A017 (package).

Authority: 42 U.S.C. 2011 *et seq.*

Dated: November 9, 2026.

For the Nuclear Regulatory Commission.

Mehdi Reisi Fard,

Director, Division of Advanced Reactor Engineering, Office of Advanced Reactors.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

741st Meeting of the Advisory Committee on Reactor Safeguards (ACRS)

In accordance with the purposes of Sections 29 and 182b of the Atomic Energy Act (42 U.S.C. 2039, 2232(b)), the U.S. Nuclear Regulatory Commission's (NRC) Advisory Committee on Reactor Safeguards (ACRS) will hold meetings on December 3 through 4, 2026. In addition, the ACRS is implementing Section 4.(b) of Executive Order (E.O.) 14300, ''Ordering the Reform of the Nuclear Regulatory Commission,'' dated May 23, 2025, which states, in part, that the functions of the ACRS shall be reduced to the minimum necessary to fulfill ACRS's statutory obligations and that review by ACRS of permitting and licensing issues shall focus on issues that are truly novel and noteworthy. The ACRS will only undertake other work as directed by the Commission in accordance with Sections 29 and 182b of the Atomic Energy Act.

The Committee will be conducting meetings that will include some Members being physically present at the headquarters of the NRC while other Members participate remotely. Interested members of the public are encouraged to participate remotely in any open sessions via Microsoft Teams or via phone at 301–576–2978, passcode 943968090#. A more detailed agenda, including the Microsoft Teams link, may be found at the ACRS public website at *www.nrc.gov/reading-rm/doc-collections/acrs/agenda/index.html.* If you would like the Microsoft Teams link forwarded to you, please contact: *Quynh.Nguyen@nrc.gov* or *Lawrence.Burkhart@nrc.gov.*

Thursday, December 3, 2026

8:30 a.m.–8:35 a.m.: *Opening Remarks by the ACRS Chairman* (Open)—The ACRS Chairman will make opening remarks regarding the conduct of the meeting.

8:35 a.m.–2:00 p.m.: *BWRX–300 Safety Strategy Topical Report* (Open/Closed)—The Committee will hear presentations from and have discussions with NRC staff and applicant representatives regarding the subject topic. [Note: Pursuant to 5 U.S.C 552b(c)(4), a portion of this session may be closed in order to discuss and protect information designated as proprietary.].

2:00 p.m.–5:00 p.m.: *Planning and Procedures Session/Future ACRS Activities/Reconciliation of ACRS Comments and Recommendations/Report Preparation and Committee Deliberation* (Open/Closed)—The Committee will discuss planning and procedures topics, including items proposed for consideration by the Full Committee during future ACRS meetings; deliberate; and proceed to preparation of reports. [Note: Pursuant to 5 U.S.C. 552b(c)(2), a portion of this session may be closed to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of the ACRS.]. [Note: Pursuant to 5 U.S.C 552b(c)(4), a portion of this session may be closed in order to discuss and protect information designated as proprietary.]

Friday, December 4, 2026

8:30 a.m.–6:00 p.m.: *Report Preparation and Committee Deliberation* (Open)—The Committee will continue deliberations and proceed with preparation of reports.

Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on July 22, 2025 (90 FR 34522). In accordance with those procedures, oral

or written views may be presented by members of the public, including representatives of the nuclear industry. Persons desiring to make oral statements should notify Quynh Nguyen, Cognizant ACRS Staff and the Designated Federal Officer (Email: *Quynh.Nguyen@nrc.gov*), 5 days before the meeting, if possible, so that appropriate arrangements can be made to allow necessary time during the meeting for such statements. In view of the possibility that the schedule for ACRS meetings may be adjusted by the ACRS Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the cognizant ACRS staff if such rescheduling would result in major inconvenience. Registration for this meeting is not required.

An electronic copy of each presentation should be emailed to the cognizant ACRS staff at least three days before the meeting.

In accordance with 5 U.S.C. 552b(c) and 1009(d), certain portions of this meeting may be closed, as specifically noted above. Use of still, motion picture, and television cameras during the meeting may be limited to selected portions of the meeting as determined by the ACRS Chairman. Electronic recordings will be permitted only during the open portions of the meeting.

Please contact the Designated Federal Officer if you would like to submit a request for physical or electronic meeting accommodation.

ACRS meeting agendas, meeting transcripts, and letter reports are available through the NRC Public Document Room (PDR) at *pdr.resource@nrc.gov,* the ACRS public website, or by calling the PDR at 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays, or from the Publicly Available Records System component of NRC's Agencywide Documents Access and Management System, which is accessible from the NRC website at *www.nrc.gov/reading-rm/adams.html* or *www.nrc.gov/reading-rm/doc-collections/#ACRS/.*

Dated: November 9, 2026.

For the Nuclear Regulatory Commission.

Russell Chazell,

Federal Advisory Committee Management Officer, Office of the Secretary.

BILLING CODE 7590–01–P

OFFICE OF PERSONNEL MANAGEMENT

Agency Information Collection Activities; Proposals, Submissions, and Approvals: Questionnaire for National Security Positions

AGENCY: Office of Personnel Management.

ACTION: 30-Day notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Office of Personnel Management (OPM) requests that the Office of Management and Budget (OMB) renew a previously approved information collection request (ICR), Questionnaire for National Security Positions, Standard Form 86 (SF 86), without change.

DATES: Comments are encouraged and will be accepted until December 14, 2026.

ADDRESSES: You may submit comments on the Federal Rulemaking Portal: *https://www.regulations.gov.* Follow the instructions for submitting comments. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing at *https://www.regulations.gov* as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Joseph Knouff, Director, Suitability Executive Agent Programs, U.S. Office of Personnel Management, P.O. Box 699, Slippery Rock, PA 16057, or by email at *SuitEA@opm.gov.*

SUPPLEMENTARY INFORMATION: As required by the Paperwork Reduction Act of 1995, OPM is soliciting comments for this collection. The information collection (OMB No. 3206–0005) was published in the **Federal Register** on July 9, 2026, at 91 FR 42565, allowing for a 60-day public comment period. OPM received five public comments during the 60-day comment period. No changes were required in response to the commenters and no commenter specifically challenged OPM's numerical burden estimate or provided an alternative burden estimate or methodology.

Several commenters addressed the continued necessity of the SF 86 collection, including whether OPM should instead proceed directly to full implementation of the Personnel Vetting Questionnaire (PVQ). The Federal government, under Trusted Workforce 2.0 reform, is already working towards full implementation of the PVQ, which will be complete once developed and implemented in the National Background Investigation Services (NBIS). One commenter also recommended changes to the manner in which personnel vetting information is collected, including the use of incremental updates and pre-population of information, to enhance the quality and utility of the information collected and reduce respondent burden.

The recommendations concerning modernization of the personnel vetting information collection process relate primarily to the broader technological and operational framework for personnel vetting. OPM is transitioning toward the PVQ, which is currently approved and in development. Until the PVQ is implemented and the associated information systems are ready for use, the SF 86 remains necessary to support personnel vetting activities. While OPM appreciates the comments on the broader technological and operational framework, it has determined that no changes to the SF 86 are warranted as part of this renewal.

The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submissions of responses.

Background

The Questionnaire for National Security Positions, Standard Form 86 (SF 86), is currently used to collect information completed by applicants for, or incumbents of, Federal Government civilian or military positions, or positions in private entities performing work for the Federal Government under contract. The information collected is used as the basis for background investigations to determine whether individuals in national security positions are suitable or fit for employment or retention; fit to
