Animal and Plant Health Inspection Service

[Docket No. APHIS–2026–0562]

Mozza Foods, Inc.: Availability of a Petition for a Determination of Nonregulated Status and Draft Plant Pest Risk Assessment for MF1786–1 Soybean (Glycine max) Expressing Casein Proteins

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has received a petition from Mozza Foods, Inc. seeking a determination of nonregulated status for MF1786–1 Soybean (*Glycine max*) which has been developed using genetic engineering to express the bovine alpha S1, beta and kappa casein proteins and the FAM20C kinase in its seeds, and to reduce the level of soybean glycinin proteins in seeds. We are making the petition and draft plant pest risk assessment available for public review and comment.

DATES: We will consider all comments that we receive on or before January 11, 2027.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to *www.regulations.gov.* Enter APHIS–2026–0562 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2026–0562, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Avenue #AP760, Beltsville, MD 20705.

The petition, draft plant pest risk assessment, and any comments we receive on this docket may be viewed at *www.regulations.gov,* or in our reading room, which is located in 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Mr. Alan Pearson, Biotechnology Regulatory Services, APHIS, USDA, 5601 Sunnyside Avenue, AP100–3–WS–1151, Beltsville, MD 20705; (301) 851–3944; email: *alan.pearson@usda.gov.*

SUPPLEMENTARY INFORMATION: Under the authority of the plant pest provisions of the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the regulations in 7 CFR part 340, ''Introduction of Organisms and Products Altered or Produced Through Genetic Engineering Which Are Plant Pests or Which There Is Reason to Believe Are Plant Pests,'' regulate, among other things, the introduction (importation, interstate movement, or release into the environment) of organisms and products altered or produced through genetic engineering that are plant pests or that there is reason to believe are plant pests. Such organisms and products are considered ''regulated articles.''

Section 340.6(a) of the regulations provides that any person may submit a petition to the Animal and Plant Health Inspection Service (APHIS) seeking a determination that an article should not be regulated under 7 CFR part 340. Paragraphs (b) and (c) of § 340.6 describe the form that a petition for a determination of nonregulated status must take and the information that must be included in the petition.

APHIS has received a petition (APHIS Petition Number 25–239–01p) from Mozza Foods, Inc. seeking a determination of nonregulated status for MF1786–1 Soybean (*Glycine max*), which has been developed using genetic engineering to express the bovine alpha S1, beta and kappa casein proteins and FAM20C Kinase in its seeds, and to reduce the level of soybean glycinin proteins in seeds. MF1786–1 soybean has also been modified for glufosinate resistance as a selectable marker to aid in the identification of transformed plants. The petition states that the information provided indicates that MF1786–1 soybean is unlikely to pose a plant pest risk and therefore should not be regulated under APHIS' regulations in 7 CFR part 340.

As part of our decision-making process regarding the organism's regulatory status, APHIS prepared a draft plant pest risk assessment (PPRA) to assess the plant pest risk of the organism. APHIS' draft PPRA compared the pest risk posed by MF1786–1 soybean with that of the nonmodified soybean variety from which it was derived. The draft PPRA concluded that MF1786–1 soybean is unlikely to pose an increased plant pest risk compared to the nonmodified soybean.

Paragraph (d) of § 340.6 provides that APHIS will publish a notice in the **Federal Register** providing 60 days for public comment on petitions for a determination of nonregulated status. In accordance with § 340.6(d), we are publishing this notice to inform the public that APHIS will accept written comments regarding the petition and draft PPRA from interested or affected persons for a period of 60 days from the date of this notice. The petition and draft PPRA are available for public review and comment, and copies are available as indicated under **ADDRESSES** and from the individual listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice. We are particularly interested in receiving comments regarding biological or ecological issues, and we encourage the submission of scientific data, studies, or research to support your comments.

After the comment period closes, APHIS will review and evaluate any information received during the comment period and any other relevant information. Based upon available information, APHIS will respond to the petitioner either approving or denying the petition. APHIS will post its regulatory determination on its website and publish a notice of availability in the **Federal Register**.

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 5th day of November 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF COMMERCE

International Trade Administration

[C–570–118]

Wood Mouldings and Millwork Products From the People's Republic of China: Final Results of Countervailing Duty Administrative Review; 2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that producers and exporters of wood mouldings and millwork products (millwork products) from the People's Republic of China (China) received countervailable subsidies during the period of review (POR), January 1, 2024 through December 31, 2024.

DATES: Applicable November 12, 2026.

FOR FURTHER INFORMATION CONTACT: Brandon James or Joshua Nixon, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–7472 or (202) 482–8361, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 8, 2026, Commerce published the *Preliminary Results* of this administrative review and invited interested parties to comment.[1] On August 4, 2026, in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), Commerce extended the deadline for issuing the final results by 53 days, until October 28, 2026.[2] On October 26, 2026, we extended the deadline for the final results by an additional seven days until November 4, 2026.[3]

For a detailed description of the events that occurred since the *Preliminary Results, see* the Issues and Decision Memorandum.[4] A list of topics discussed in the Issues and Decision Memorandum is included as Appendix I to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), which is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/frnotices.*

Scope of the Order

The product covered by the *Order* is millwork products from China. For a complete description of the scope of the *Order, see* the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised by interested parties in briefs are addressed in the Issues and Decision Memorandum. A list of the issues addressed in the Issues and Decision Memorandum is provided in Appendix I of this notice.

Changes Since the Preliminary Results

The subsidy programs under review, and the issues raised in case and rebuttal briefs submitted by the interested parties, are discussed in the Issues and Decision Memorandum. Based on events occurring since the *Preliminary Results,* and our analysis of the comments received from interested parties, we made certain changes from the *Preliminary Results.* For a discussion of these changes, *see* the Issues and Decision Memorandum.

Methodology

Commerce conducted this administrative review in accordance with section 751(a)(1)(A) of the Act. For each of the subsidy programs found countervailable, we find that there is a subsidy, *i.e.,* a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific.[5]

In making these findings, Commerce relied on facts available and drew an adverse inference in selecting from among the facts otherwise available.[6] For further information, *see* the ''Use of Facts Otherwise Available and Adverse Inferences'' section in the Issues and Decision Memorandum.

Companies Not Selected for Individual Review

The statute and Commerce's regulations do not directly address the establishment of rates to be applied to companies not selected for individual examination where Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. However, Commerce normally determines the rates for cooperative
