DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA–2026–14059]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Noise Certification Standards for Subsonic Jet Airplanes and Subsonic Transport Category Large Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves the noise certification regulations of 14 CFR part 36 for aircraft. This includes information collection requirements for the noise certification of subsonic aircraft-jet airplanes and subsonic transport category large airplanes, small propeller driven airplanes and rotorcraft. The information collected are the results of noise certification tests that demonstrate compliance with 14 CFR part 36. The original information collection was implemented to show compliance in accordance with the Aircraft Noise Abatement Act of 1968; that statute is now part of the overall codification of the FAA's regulatory authority over aircraft noise in 49 U.S.C. 44715. The noise compliance report is used by the FAA in making a finding that the airplane is in noise compliance with the regulations. These compliance reports are required only once when an applicant wants to certificate an aircraft type. Without this data collection, the FAA would be unable to make the required noise certification compliance finding.

DATES: Written comments should be submitted by January 12, 2027.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (Enter docket number into search field).

By mail: Christopher Hobbs, Attn: AEE–100, 800 Independence Ave. SW, Suite 900W, Washington, DC 20591.

By fax: 202–267–5594.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

FOR FURTHER INFORMATION CONTACT: Christopher Hobbs by email at: *christopher.m.hobbs@faa.gov;* phone: 202–267–7345.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 2120–0659.

Title: Noise Certification Standards for Subsonic Jet Airplanes and Subsonic Transport Category Large Airplanes.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The aircraft noise information collected are the results of noise certification tests that demonstrate compliance with 14 CFR part 36. The original information collection was implemented to show compliance in accordance with the Aircraft Noise Abatement Act of 1968; that statute is now part of the overall codification of the FAA's regulatory authority over aircraft noise in 49 U.S.C. 44715. For this renewal, the FAA proposes in this PRA collection 18 total noise certification projects per year. Each applicant's collected information is incorporated into a noise compliance report that is provided to and approved by the FAA. The noise compliance report is used by the FAA in making a finding that the airplane is in noise compliance with the regulations. These compliance reports are required only once when an applicant wants to certificate an aircraft type. Without this data collection, the FAA would be unable to make the required noise certification compliance finding.

Respondents: Aircraft manufacturer/applicant seeking type certification;

Frequency: Estimated 18 total applicants per year;

Estimated Average Burden per Response: Estimated 200 hours per applicant for the compliance report;

Estimated Total Annual Burden: $20,912 per applicant or cumulative total $376,416 per year for 18 applicants.

Issued in Washington, DC, on November 10, 2026.

Christopher Hobbs,

General Engineer, Office of Environment and Energy, Noise Division (AEE–100).

SUPPLEMENTARY INFORMATION:

Request for Comments

The Department of the Treasury and its Alcohol and Tobacco Tax and Trade Bureau (TTB), as part of a continuing effort to reduce paperwork and respondent burden, invite the general public and other Federal agencies to comment on the proposed or continuing information collections described below, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Comments submitted in response to this document will be included or summarized in our request for Office of Management and Budget (OMB) approval of the relevant information collection. All comments are part of the public record and subject to disclosure. Please do not include any confidential or inappropriate material in your comments.

We invite comments on: (a) Whether an information collection is necessary for the proper performance of the agency's functions, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the information collection's burden; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the information collection's burden on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide the requested information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information has a valid OMB control number.

Information Collections Open for Comment

Currently, we are seeking comments on the following forms, letterhead applications or notices, recordkeeping requirements, questionnaires, or surveys:

OMB Control No. 1513–0005

Title: Brewer's Notices; and Letterhead Applications and Notices Filed by Brewers.

TTB Form Number: TTB F 5130.10.

Abstract: The Internal Revenue Code (IRC) at 26 U.S.C. 5401 requires brewers to file a notice of intent to operate a brewery and at 26 U.S.C. 5411, 5412, 5414, 5415, and 5417 it authorizes certain other operations at breweries, all under regulations issued by the Secretary of the Treasury (the Secretary). Under those authorities, the TTB regulations in 27 CFR part 25 require new brewers to file a ''Brewer's Notice'' with TTB prior to commencing operations and to amend their Notice when making certain changes to their business or when there is a change in their eligibility for the exemption from the requirement to maintain a brewer's bond. The part 25 regulations also require brewers to file a letterhead application or notice regarding certain changes or operations at their brewery. This information collection is necessary to protect the revenue and ensure that brewers conduct their operations in compliance with Federal laws and regulations.

Current Actions: There are no program changes to this information collection at this time, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is decreasing the estimated number of annual respondents, responses, and total burden hours associated with this collection but is increasing the estimated average number of annual responses per respondent.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Estimated Annual Burden

- *Number of Respondents:* 4,775.
- *Average Responses per Respondent:* 1.6523.
- *Number of Responses:* 7,890.
- *Average Per-response Burden:* 0.8986 hours.
- *Total Burden:* 7,090 hours.

OMB Control No. 1513–0051

Title: Application for an Alcohol Fuel Producer Permit Under 26 U.S.C. 5181.

TTB Form Number: TTB F 5110.74.

Abstract: Under the authority of the IRC at 26 U.S.C. 5181(a)(1), persons wishing to establish a distilled spirits plant for the sole purpose of producing and receiving distilled spirits for fuel use must provide an application and bond as the Secretary prescribes by regulation. Under that authority, TTB has issued regulations concerning alcohol fuel plants (AFPs) in 27 CFR part 19, subpart X. Those regulations require new AFP proprietors to apply for an alcohol fuel producer permit using form TTB F 5110.74 and require existing AFP proprietors to make certain amendments to their permit information using that same form, which identifies or describes the applicant, the proposed AFP's location, layout and stills, its size category (small, medium, or large) based on the amount of alcohol fuel to be produced annually, and its security measures. The collected information allows TTB to determine the applicant's eligibility under the IRC to obtain or modify an alcohol fuel producer permit, and to determine whether the applicant's AFP operations will conform to Federal law and regulations. Such determinations are necessary to protect the revenue as distilled spirits produced at an AFP are potable and subject to Federal excise tax until denatured for fuel use. Once distilled spirits are denatured at an AFP, the resulting alcohol fuel may be withdrawn free of tax as authorized by the IRC at 26 U.S.C. 5214(a)(12).

Current Actions: There are no program changes to this information collection at this time, and TTB is

submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is decreasing the estimated number of annual respondents, responses, and total burden hours associated with this collection but is increasing the estimated average number of annual responses per respondent.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits; Individuals or households.

Estimated Annual Burden

- *Number of Respondents:* 20.
- *Average Responses per Respondent:* 1.2.
- *Number of Responses:* 24.
- *Average Per-response Burden:* 1.5 hours.
- *Total Burden:* 36 hours.
