in their briefs.[12] Further, we request that interested parties limit their public executive summary of each issue to no more than 450 words, not including citations. We intend to use the public executive summaries as the basis of the comment summaries included in the issues and decision memorandum that will accompany the final results in this administrative review. We request that interested parties include footnotes for relevant citations in the public executive summary of each issue. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).[13]

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via ACCESS by 5:00 p.m. Eastern Time within 30 days after the date of publication of this notice. Requests should contain: (1) the party's name, address, and telephone number; (2) the number of participants, and whether any participant is a foreign national; and (3) a list of issues to be discussed. Oral presentations at the hearing will be limited to issues raised in the briefs. If a request for a hearing is made, Commerce will inform parties of the scheduled date for the hearing.[14]

Assessment Rates

Pursuant to section 751(a)(2)(A) of the Act and 19 CFR 351.212(b)(1), Commerce will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

If PMB Silicon's weighted-average dumping margin is not zero or *de minimis* (*i.e.,* less than 0.50 percent) in the final results of this review, Commerce intends to calculate importer-specific assessment rates on the basis of the ratio of the total amount of dumping calculated for each importer's examined sales to the total entered value of those sales. Where we do not have entered values for all U.S. sales to a particular importer, we will calculate an importer-specific, per-unit assessment rate on the basis of the ratio of the total amount of dumping calculated for the importer's examined sales to the total quantity of those sales.[15] To determine whether an importer-specific, per-unit assessment rate is *de minimis,* in accordance with 19 CFR 351.106(c)(2), we also will calculate an importer-specific *ad valorem* ratio based on estimated entered values. If PMB Silicon's weighted-average dumping margin is zero or *de minimis* or where an importer-specific *ad valorem* assessment rate is zero or *de minimis,* we will instruct CBP to liquidate appropriate entries without regard to antidumping duties.[16]

In accordance with Commerce's ''automatic assessment'' practice, for entries of subject merchandise during the POR produced by PMB Silicon for which it did not know that the merchandise was destined for the United States, we intend to instruct CBP to liquidate those entries at the all-others rate calculated in the less-than-fair-value (LTFV) investigation if there is no rate for the intermediate company(ies) involved in the transaction.[17]

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for PMB Silicon will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated or reviewed companies not covered by this review, the cash deposit rate will continue to be the company-specific cash deposit rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review or in the original LTFV investigation, but the manufacturer is, then the cash deposit rate will be the rate established for the most recently-completed segment of this proceeding for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 12.27 percent, the all-others rate established in the LTFV investigation.[18] These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to the liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results of review in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(4).

Dated: November 6, 2026.

Steven Presing,

Executive Director for Policy and Negotiations.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Federal Consistency Appeal by DCOR, LLC

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of Appeal.

SUMMARY: This announcement provides notice that the Department of Commerce has received a ''Notice of Appeal'' filed by Appellant DCOR, L.L.C (DCOR). DCOR is requesting that the Secretary of Commerce (Secretary) override an objection by the California Coastal Commission to a consistency

[12] We use the term ''issue'' here to describe an argument that Commerce would normally address in a comment of the Issues and Decision Memorandum.

certification for a proposed supplement to DCOR's Development and Production Plan for Platform Gilda, which would authorize hydraulic fracturing well stimulation techniques.

ADDRESSES: NOAA intends to post publicly available materials and related documents comprising the appeal record electronically, at *www.regulations.gov,* under docket number NOAA–NOS–2026–3235.

FOR FURTHER INFORMATION CONTACT: For questions about this Notice, contact John Hare-Grogg, Attorney-Advisor, NOAA Office of the General Counsel, at *administrative.appeals@noaa.gov* or (202) 809–7715.

SUPPLEMENTARY INFORMATION:

I. Notice of Appeal

On October 14, 2026, the Secretary received a ''Notice of Appeal'' filed by DCOR pursuant to the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.,* and implementing regulations found at 15 CFR part 930, subpart H. DCOR is appealing an objection by the California Coastal Commission to DCOR's CZMA Federal consistency certification for a proposed supplement to DCOR's Development and Production Plan for Platform Gilda, an offshore platform on the outer continental shelf in Federal waters of the Santa Barbara Channel, which would authorize hydraulic fracturing well stimulation techniques at 16 wells over the course of five years. This matter constitutes an appeal of an ''energy project'' within the meaning of the CZMA regulations. 15 CFR 930.123(c).

Under the CZMA, the Secretary may override the California Coastal Commission's objection on grounds that the project is consistent with the objectives or purposes of the CZMA, or is necessary in the interest of national security. To make the determination that the proposed activity is ''consistent with the objectives or purposes of the CZMA,'' the Secretary must find that: (1) the proposed activity furthers the national interest as articulated in sections 302 or 303 of the CZMA, in a significant or substantial manner; (2) the national interest furthered by the proposed activity outweighs the activity's adverse coastal effects, when those effects are considered separately or cumulatively; and (3) no reasonable alternative is available that would permit the proposed activity to be conducted in a manner consistent with the enforceable policies of the applicable coastal management program. 15 CFR 930.121. To make the determination that the proposed activity is ''necessary in the interest of national security,'' the Secretary must find that a national defense or other national security interest would be significantly impaired if the proposed activity is not permitted to go forward as proposed. 15 CFR 930.122.

II. Public Availability of Appeal Documents

NOAA intends to provide access to publicly available materials and related documents comprising the appeal record electronically, at *https://www.regulations.gov,* under docket number NOAA–NOS–2026–3235.

BILLING CODE 3510–08–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Mandatory Shrimp Vessel and Gear Characterization Survey

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 12, 2027.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at *NOAA.PRA@noaa.gov.* Please reference OMB Control Number 0648–0542 in the subject line of your comments. All comments received are part of the public record and will generally be posted on *https://www.regulations.gov* without change. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to specific questions related to collection activities should be directed to Rebecca Smith, National Marine Fisheries Service (NMFS), Southeast Fisheries Science Center, Galveston Laboratory, 4700 Avenue U, Galveston, TX 77551 (409) 210–1817, *rebecca.smith@noaa.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for the extension of a currently approved information collection. The mandatory vessel and gear characterization survey is a census data collection effort of all shrimp vessel owners or operators who possess a valid Federal Gulf commercial shrimp fishing permit. NMFS began collecting these survey data in 2006 under OMB Control No. 0648–0542 per the final rule implementing Amendment 13 to the Fishery Management Plan for the Shrimp Fishery of the Gulf of America (Amendment 13) (71 FR 56039, September 26, 2006).

NMFS is currently collecting census-level information on fishing vessel and gear characteristics in the Gulf of America (Gulf) commercial shrimp fishery (Gulf shrimp fishery), which operates in the Gulf exclusive economic zone. NMFS uses this information to conduct analyses that improve fishery management decision-making and ensure that national goals, objectives, and requirements of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act, 16 U.S.C. 1801 *et seq.*), National Environmental Policy Act, Regulatory Flexibility Act, Endangered Species Act, and Executive Order 12866 are met; and quantify achievement of the performance measures in the NMFS' Operating Plans. This information is vital in assessing the economic, social, and environmental effects of fishery management decisions and regulations on individual shrimp fishing enterprises, fishing communities, and the Nation as a whole. Recordkeeping requirements for this information collection under the Magnuson-Stevens Act are codified at 50 CFR 622.51(a)(3).

The vessel and gear survey annually updates existing data and continues data collection efforts for this significant fishery. NMFS currently collects other information from Gulf commercial shrimp vessels pertaining to their fishing activities, trip dates, landings,
