each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* The licensee proposes to amend Article 411 of the project license, which currently requires the licensee to develop a plan to establish a portage put-in downstream of the dam, a portage trail connecting Appalachian Power's picnic area to the put-in, and an evaluation of the adequacy of the access road serving those facilities. The proposed amendment would remove the requirement to construct the portage trail between Appalachian Power's picnic area and the downstream put-in. The licensee states that construction of the portage trail is not feasible due to site conditions and other implementation constraints.
