and other information through port agents, electronic logbooks, and mandatory dealer reports. Prior to this annual survey, little data related to vessel and gear characteristics at the individual vessel level have been collected through other means.

Completion of the annual survey is required for fishermen to renew or transfer a Gulf commercial shrimp permit. NMFS' Southeast Fisheries Science Center (SEFSC) mails the annual survey to all Gulf shrimp permit holders each year. Requiring completion of the survey shortly before permit renewal, with renewal contingent upon survey completion,[1] ensures that all permitted fishermen will be included in the census and each fisherman will only be surveyed once per annum.

The questions contained on the vessel and gear survey form are needed to collect data as required by regulations implementing Amendment 13. All but Question 1 on the form are focused on activity in the past year. Questions 1–4 ask for year of vessel purchase, by whom the vessel was operated in the past year, number of days at sea and trips taken in the past year and in what areas and fisheries the vessel was operated. Questions 5–11 pertain to the most frequent type of gear used. Questions 12–13 pertain to the most frequently used bycatch reduction devices (BRD). Questions 14–26 pertain to the most frequently used turtle exclusion devices (TED). Question 27 asks for a list of all electronic equipment used on the vessel.

The primary purposes of collecting vessel and gear characterization data at the census level is to develop statistically valid sampling designs for the other aforementioned data collection programs. It is believed that the creation of stratified, random sampling designs for these data collection programs is necessary to ensure that the data, and the estimates of the fishery performance measures based on that data, are accurate (*e.g.,* representative of the fishery's actual performance). The various vessel and gear characteristics serve as strata in these sampling designs.

The information collected by the vessel and gear characterization survey is used by NMFS economists, social scientists, and biologists to help evaluate the performance of existing regulations (*e.g.,* BRDs, TEDs, time or area closures, etc.), and the impact changes to those regulations may have on individual fishermen, the shrimp fishing industry as a whole, and fishing communities. In addition, the vessel and gear characterization data are further linked to various biological, social, and economic data collected by other means.

It is anticipated that the information collected will be available to the public through technical memoranda and similar publications, or used to support publicly disseminated information, such as analyses contained within documents distributed by the Gulf Fishery Management Council (Council). Data may be reported according to the various types of nets, TEDs, BRDs or electronic equipment that is generally used, which will allow comparisons and evaluations of alternative vessel and gear configurations by analysts and vessel owners.

II. Method of Collection

NMFS mails a paper copy of the forms to respondents and provides a pre-paid business reply envelope for permit applications to submit the form.

III. Data

OMB Control Number: 0648–0542.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; Business or other for-profit organizations.

Estimated Number of Respondents: 1,171.

Estimated Time per Response: 30 minutes.

Estimated Total Annual Burden Hours: 586 hours.

Estimated Total Annual Cost to Public: $0 in recordkeeping or reporting costs.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Act, 16 U.S.C. 1801 *et seq.* and Amendment 13 to the Fishery Management Plan for the Shrimp Fishery of the Gulf of America (71 FR 56039, September 26, 2006).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Electronic Logbook for the Commercial Shrimp Fishery in the Gulf of America

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 12, 2027.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at *NOAA.PRA@noaa.gov.* Please reference OMB Control Number 0648–0543 in the subject line of your comments. All comments received are

part of the public record and will generally be posted on *https://www.regulations.gov* without change. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Rebecca Smith, National Marine Fisheries Service, Southeast Fisheries Science Center, Fisheries Statistics Division, 4700 Avenue U, Galveston, TX 77551, 409–210–1817, or *rebecca.smith@noaa.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection. The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the Gulf Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. NMFS manages the commercial shrimp fishery in Federal waters of the Gulf of America (Gulf) under the Fishery Management Plan for the Shrimp Fishery of the Gulf. The electronic logbook (ELB) regulations for the Gulf shrimp fishery may be found at 50 CFR 622.51(a)(2).

As of October 1, 2026, there are approximately 1,171 valid or renewable Federal permits to commercially harvest shrimp from the exclusive economic zone (EEZ) in the Gulf. Monitoring shrimp vessels, operating together with many other fishing vessels of differing sizes, gears types used, and fishing capabilities, is made even more challenging by seasonal variability in shrimp abundance and price, and the broad geographic distribution of the fleet. ELBs provide a precise means of estimating the amount of shrimp fishing effort. Using ELBs to estimate fishing effort serves an important role to help estimate bycatch in the Gulf shrimp fleet.

II. Method of Collection

The ELB unit automatically collects fishing effort data and requires manual removal and swapping of the memory cards to be mailed to the NMFS Galveston Laboratory twice per year. The current ELB unit once transmitted these data via a cellular phone connection activated when the vessel is within non-roaming cellular range. However, since the 3G cellular technology discontinued in 2020, the manual collection of memory cards is the new collection method. NMFS, the shrimp industry and Council are developing a 3-part plan to phase out, test and implement a modernized replacement device that will automatically collect fishing effort data and transmit those data via a cellular phone connection activated when the vessel is within non-roaming cellular range.

III. Data

OMB Control Number: 0648–0543.

Form Number(s): None.

Type of Review: Regular submission—extension of a current information collection.

Affected Public: Individuals or households; Business or other for-profit organizations.

Estimated Number of Respondents: 1,171.

Estimated Time per Response: 3 hours.

Estimated Total Annual Burden Hours: 3,513 hours.

Estimated Total Annual Cost to Public: $0 in recordkeeping or reporting costs.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act, Fishing Regulation 50 CFR 622.51(a)(2).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XG184]

South Atlantic Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Meeting of the South Atlantic Fishery Management Council.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold meetings of the Southeast Data, Assessment and Review (SEDAR) Catch Advice and Data Committee, the Dolphin Wahoo Committee, the Golden Crab Committee, the Snapper Grouper Committee, and the Citizen Science Committee. The meeting week will also include a formal public comment session and closed and open meetings of the Full Council.

DATES: The Council meeting will be held from 8:30 a.m. on Monday, December 7, 2026, until 12 p.m. on Friday, December 11, 2026.

ADDRESSES: *Meeting address:* The meeting will be held at the Beaufort Hotel, 2440 Lennoxville Road; Beaufort, NC 28516; phone (252) 728–3000. The meeting will also be available via webinar. See **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Myra Brouwer, Deputy Director for Management, SAFMC; phone (843) 302–8436 or toll free (866) SAFMC–10; FAX (843) 769–4520; email: *myra.brouwer@safmc.net.*

SUPPLEMENTARY INFORMATION: Meeting information, including agendas, overviews, and briefing book materials will be posted on the Council's website at: *https://safmc.net/council-meetings/.* Webinar registration links for the meeting will also be available from the Council's website.

Public comment: Public comment on agenda items may be submitted through the Council's online comment form available from the Council's website.
