accordance with procedures set forth in 40 CFR parts 2 and 703, as applicable.

2. Tips for Preparing Your Comments

When preparing and submitting your comments, see the commenting tips at *https://www.epa.gov/dockets/commenting-epa-dockets.*

II. Background

A. What is HHCB?

HHCB is primarily used as a synthetic musk compound found widely in fragrances. HHCB is utilized in household products such as detergents, cleaners, and air fresheners. HHCB is also a key ingredient in non-TSCA uses including perfumes, cosmetics, and personal care products due to its long-lasting scent properties. Workers may be exposed to HHCB through dust, mist, or vapor when making or using these products. Consumers may be exposed to HHCB through dust, mist, or vapor during intended product use (*e.g.,* cleaning a counter, placing an air freshener in a bathroom or small room, or doing laundry). Environmental releases occur primarily when fragrance products are disposed of down the drain, leading to HHCB entering wastewater and, after treatment, being discharged in effluent from Publicly Owned Treatment Works (POTWs). HHCB may also enter wastewater through transfers of manufacturing wastes to POTWs.

B. Risk Evaluation of HHCB

In December 2019, EPA announced its designation of HHCB (Docket ID: EPA–HQ–OPPT–2018–0430) as a high-priority substance for risk evaluation under TSCA. In April 2020, EPA published and sought public comment on the draft scope of the HHCB risk evaluation (85 FR 19941, April 9, 2020) (FRL–10007–11–OCSPP) and, after considering public comments, issued the final scope in August 2020 (85 FR 55281, September 4, 2020) (FRL–10013–90–OCSPP). In April 2026, EPA released the *Draft Risk Evaluation for 1,3,4,6,7,8-Hexahydro-4,6,6,7,8,8-hexamethylcyclopenta[γ]-2-benzopyran (HHCB)* for public comment and external peer review by the Science Advisory Committee on Chemicals (SACC) (85 FR 19941, April 06, 2026) (FRL–13304–01–OCSPP).

III. Request for Comment

EPA seeks feedback on the newly available supporting materials in the context of the draft risk evaluation under TSCA for HHCB. Specifically, EPA seeks feedback 24 studies considered in the *Draft Human Health and Environmental Hazard Assessment for 1,3,4,6,7,8-Hexahydro-4,6,6,7,8,8-hexamethylcyclopenta[γ]-2-benzopyran (HHCB)* that were inadvertently not accessible due to an administrative issue with the HERO database during the public comment period for the draft risk evaluation of HHCB (April 14, 2026, to June 15, 2026). A copy of the memo which includes a list of the newly available 24 studies can be found in docket EPA–HQ–OPPT–2018–0430. EPA encourages all potentially interested parties, including individuals, governmental and non-governmental organizations, non-profit organizations, academic institutions, research institutions, and private sector entities to provide comment during the 30-day public comment period.

IV. Next Steps

EPA will consider comments received on this notice of data availability submitted to the docket while finalizing the HHCB risk evaluation. EPA will announce the availability of the final risk evaluation for HHCB in the coming months. Under TSCA section 6, EPA must use the final risk evaluation as a basis to determine, based on the weight of scientific evidence, whether or not the chemical presents an unreasonable risk to health or the environment under the chemical's conditions of use. This includes risks to subpopulations who may be at greater risks than the general population, such as children and workers. TSCA prohibits EPA from considering non-risk factors (*e.g.,* costs/benefits) during risk evaluation.

If at the end of the risk evaluation process, EPA determines that a chemical presents an unreasonable risk to health or the environment under the conditions of use, the chemical must move to risk management action under TSCA section 6(a). EPA is required to implement, via regulation, regulatory restrictions on the manufacture (including import), processing, distribution, use, or disposal of the chemical to eliminate the identified unreasonable risk. Like the prioritization and risk evaluation processes, there is an opportunity for public comment on any proposed risk management actions.

For more information about the TSCA risk evaluation process for existing chemicals, go to *https://www.epa.gov/assessing-and-managing-chemicals-under-tsca.*

Authority: 15 U.S.C. 2601 *et seq.*

Dated: November 12, 2026.

Douglas M. Troutman,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0546, OMB 3060–1326; FR ID 377154]

Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before January 15, 2027. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a

currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

OMB Control Number: 3060–0546.

Title: Section 76.59 Definition of Markets for Purposes of the Cable Television Mandatory Television Broadcast Signal Carriage Rules.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents and Responses: 120 respondents and 130 responses.

Estimated Time per Response: 0.5 to 40 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement; Recordkeeping requirement.

Total Annual Burden: 958 hours.

Total Annual Cost: $640,150.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 151, 154(i), 303(r), 338 and 534.

Needs and Uses: Market modification allows the Commission to modify the local television market of a particular commercial television broadcast station to enable commercial television stations, cable operators and satellite carriers to better serve the interests of local communities. Market modification provides a means to avoid rigid adherence to DMA designations and to promote consumer access to in-state and other relevant television programming. Section 338(l) of the Communications Act (the satellite market modification provision) and section 614(h)(1)(C) of the Communications Act (the corresponding cable provision) permit the Commission to add communities to or delete communities from a station's local television market following a written request. Furthermore, the Commission may determine that particular communities are part of more than one television market.

OMB Control Number: 3060–1326.

Title: Class A Television Stations—Low Power Protection Act.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local, or tribal governments.

Number of Respondents and Responses: 50 respondents; 250 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. 151, 152, 154(i), 154(j), 303, 307, 309, 311, 336(f), and the Low Power Protection Act, Public Law 117–344, 136 Stat. 6193 (2023).

Total Annual Burden: 250 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission will use the information collected under this information collection to determine whether applicants can convert to Class A status pursuant to the Low Power Protection Act.

On December 11, 2023, the Commission adopted a Report and Order, FCC 23–112, to implement the Low Power Protection Act (LPPA or Act), which was enacted on January 5, 2023. The LPPA provides certain low power television (LPTV) stations with a limited window of opportunity to apply for primary spectrum use status as Class A television stations. The Report and Order establishes the period during which eligible stations may file applications for Class A status, eligibility and interference requirements, and the process for submitting applications.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

OMB Control Number: 3060–0120.

Title: Broadcast EEO Model Program Report, FCC Form 396–A.

Form Number: FCC Form 396–A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions.

Number of Respondents and Responses: 5,000 respondents, 5,000 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain benefits. The statutory authority for this collection of information is contained in section 154(i) and 303 of the Communications Act of 1934, as amended.

Total Annual Burden: 5,000 hours.

Total Annual Cost: No cost.

Needs and Uses: The Broadcast Equal Employment Opportunity (EEO) Model Program Report, FCC Form 396–A, is filed in conjunction with applicants seeking authority to: construct a new broadcast station; to obtain assignment of construction permit or license; and/or seeking authority to acquire control
