SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Contests, Challenges, and Awards.

OMB Number: 3041–0151.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Contestants, award nominees, award nominators.

General Description of Collection: The Commission establishes contests, challenges, and awards to increase the public's knowledge and awareness of safety hazards. The Commission also recognizes through awards certain individuals, firms, and organizations that work to address issues related to consumer product safety. The information to be collected from contestants and award nominees or nominators includes contact and background information necessary to conduct a contest or award program. Limited background or biographical information similar to data found on a resume, such as a nominee's education and work experience, may be requested for some contests or awards. Additionally, substantive entries such as essays, posters, drawings, or videos may be requested for contestants and award nominees.

Estimated Number of Respondents: CPSC estimates that there will be 500 contest or award participants each year.

Estimated Time per Response: The estimated time to complete a contest or award submission is five hours per participant.

Total Estimated Annual Burden: Based on CPSC's estimates that there will be 500 participants who require five hours each to complete their submissions, CPSC estimates that the total annual burden of this collection is 2,500 hours. The annualized cost to respondents for the information collection is approximately $123,650 (2,500 hours × $49.46/hr.), as estimated from total compensation data available from the U.S. Bureau of Labor Statistics, ''Employer Costs for Employee Compensation,'' June 2026, Table 1, Total compensation for all civilian workers: *https://www.bls.gov/news.release/archives/ecec_09092026.htm.*

Request for Comments: The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The

Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Loan Discharge Applications (DL/FFEL/Perkins).

OMB Control Number: 1845–0058.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments; Private Sector; Individuals and Households.

Total Estimated Number of Annual Responses: 35,547.

Total Estimated Number of Annual Burden Hours: 24,162.

Abstract: The Higher Education Act of 1965, as amended (HEA), established the Federal Family Education Loan (FFEL) Program, the William D. Ford Federal Direct Loan (Direct Loan) Program, and the Federal Perkins (Perkins) Loan programs under Title IV, Parts B, D, and E, respectively. Section 437(c)(1) of the HEA authorizes the discharge of a FFEL or Direct Loan program loan borrower's obligation to repay their loan(s) based on school closure or false certification of student eligibility. Section 464(g)(1) of the HEA authorizes the discharge of a Perkins Loan Program loan based on school closure. For the FFEL and Direct Loan programs, the regulations governing closed school and false certification loan discharges are in 34 CFR 682.402(d) and (e) (FFEL Program) and 34 CFR 685.212, 214 and 215 (Direct Loan Program). For the Perkins Loan Program, the regulations governing closed school discharges are in 34 CFR 674.33(g).

This information collection includes the following 8 loan discharge applications:

1. Loan Discharge Application: School Closure
2. Loan Discharge Application: False Certification (High School Graduation Status)
3. Loan Discharge Application: False Certification (Disqualifying Status)
4. Loan Discharge Application: False Certification (Unauthorized Signature/Unauthorized Payment)
5. Loan Discharge Application: Unpaid Refund
6. Loan Discharge Application: False Certification (Identity Theft)
7. Group Loan Discharge Application: False Certification of Student Eligibility or Unauthorized Payment
8. Loan Discharge Application: Forgery

Federal Energy Regulatory Commission

[Project No. 2756–068]

Burlington Electric Department; Notice of Application Tendered for Filing With the Commission and Establishing Procedural Schedule for Licensing and Deadline for Submission of Final Amendments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* New Major License.

b. *Project No.:* 2756–068.

c. *Date Filed:* October 30, 2026.

d. *Applicant:* Burlington Electric Department (Burlington).

e. *Name of Project:* Chace Mill Hydroelectric Project.

f. *Location:* The project is located on the Winooski River in the cities of Burlington and Winooski in Chittenden County, Vermont.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* James Gibbons, Director of Policy and Planning, Burlington Electric Department, 585 Pine Street, Burlington, VT 05401; telephone at (802) 658–0300; email at *jgibbons@burlingtonelectric.com.*

i. *FERC Contact:* Joshua Dub, Project Coordinator, Great Lakes Branch, Division of Hydropower Licensing; telephone at (202) 502–8138; email at *Joshua.Dub@ferc.gov.*

j. The application is not ready for environmental analysis at this time.

k. *Project Description:* The project includes an approximately 252.6-foot-long, 29-foot-high dam that includes two spillway sections that are overtopped with inflatable rubber crest gates with maximum crest elevations of 136 feet National Geodetic Vertical Datum of 1929 (NGVD 29) and a powerhouse that includes an intake structure with a trashrack with 0.8-inch clear bar spacing for the upper 8 feet of the trashrack and 2-inch clear bar spacing on the bottom section, and three 2.485-MW Kaplan turbine-generator units, for a total installed capacity of 7.455 MW.

The dam creates an impoundment that has a normal surface area of 6.7 acres at 136.0 feet NGVD 29. From the impoundment, water flows through the powerhouse to a 190-foot-long tailrace, where it returns to the Winooski River. Water also flows through the intake structure to a downstream fishway that includes a collection chamber behind the trashracks and a 3-foot-diameter pipe that discharges to the tailrace on the east side of the powerhouse. The project creates an approximately 230-foot-long bypassed reach of the Winooski River.

The project includes an upstream fish passage facility that consists of a trap and truck facility with a concrete fish lift located on the west side of the powerhouse. Project recreation facilities include: (1) an approximately 660-foot-long paved walkway on the north shoreline of the impoundment; (2) an approximately 745-foot-long public access trail on the north shoreline of the Winooski River, to the west of the project dam; and (3) a public access and overlook area on top of the powerhouse. The project includes a 200-foot-long access road on the northern bank of the impoundment.

Electricity generated at the project is transmitted to the electric grid via an underground 400-foot-long, 13.8-kilovolt transmission line.
