SUPPLEMENTARY INFORMATION:

I. Background

The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Office of Workers' Compensation Programs administers the Federal Black Lung Compensation Program. The Black Lung Benefits Act (30 U.S.C. 901 *et seq.*) and its implementing regulations necessitate this information collection. The regulations at 20 CFR 725.701 set out a miner's eligibility for medical services and supplies for the length of time required by the miner's pneumoconiosis and related disability. The regulations require prior approval before ordering medical equipment where the purchase price exceeds $300.00. 20 CFR 725.705. The regulations also provide for the ongoing supervision of the miner's medical care, including the necessity, character and sufficiency of care to be furnished; gives the Office of Workers' Compensation Programs authority to request medical reports; and indicates the right to refuse payment for failing to submit any report required. 20 CFR 725.706. To implement the statute and these regulations, it was necessary to devise a form to collect the required information. The form is the CM–893, Certification of Medical Necessity, which is completed by the miner's physician and is used by the Division of Coal Mine Workers' Compensation to determine if the miner meets the standards to qualify for durable medical equipment and home nursing services. OMB has currently approved this information collection for use through April 30, 2027.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration and be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1240–0024.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

II. Desired Focus of Comments

OWCP is soliciting comments concerning the proposed information collection related to the Certification of Medical Necessity. OWCP is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OWCP's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Documents related to this information collection request are available at *https://regulations.gov* and at DOL–OWCP located at 200 Constitution Avenue NW, Room S3524, Washington, DC 20210. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.
