SUPPLEMENTARY INFORMATION: Form LS–1 is used by employers to authorize medical treatment for injured workers and by claimants to report findings of physical examinations and treatment recommended. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 9, 2026 (91 FR 34839).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, 30 CFR 44.10 and 30 CFR 44.11 establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2026–024–C.

Petitioner: Crimson Oak Grove Resources, LLC, 8800 Oak Grove Mine Road, Adger, AL 35006.

Mine: Oak Grove Mine, MSHA ID No. 01–00851, located in Jefferson County, AL.

Regulation Affected: 30 CFR 75.1002(a), Installation of electric equipment and conductors; permissibility.

Modification Request: The petitioner requests modification of the application of 30 CFR 75.1002(a) to permit the use of non-permissible electronic testing or diagnostic equipment located within 150 feet of pillar workings or longwall faces (subject area).

The petitioner states that:

(a) The equipment allowed under this Petition (low voltage or battery-powered non-permissible electronic testing and diagnostic equipment) shall be limited to: AMS 2140 Machinery Health
