settlement arrangements.[17] This proposed change promotes efficiency by reducing or eliminating the need for same-day collateral substitution for Clearing Members who wish to take advantage of the optional window to deposit collateral to offset their margin deficits. The change would enable Clearing Members to more efficiently allocate their assets for collateral purposes and avoid intraday double-collateralization. And as noted above, this change would reduce the number of cash draws and returns OCC is required to make to satisfy margin deficits, improving efficiency. For those reasons, OCC believes that the proposal is consistent with Rule 17ad–22(e)(21)(i).[18]

(B) Clearing Agency's Statement on Burden on Competition

Section 17A(b)(3)(I) of the Act [19] requires that the rules of a clearing agency not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. OCC does not believe that the proposed rule change would have any impact or impose a burden on competition. All Clearing Members would have the opportunity to deposit non-cash collateral during the optional window, if they so choose. The proposal would not advantage any particular Clearing Members at the expense of others.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were not and are not intended to be solicited with respect to the proposed change and none have been received.
