Total Annual Burden: 22,606 hours.

Total Annual Cost: No cost.

Needs and Uses: Section 276 of the Communications Act, as amended (the Act), requires that the Federal Communications Commission (Commission or FCC) establish rules ensuring that payphone service providers (PSPs) are ''fairly compensated'' for each and every completed payphone-originated call. The Commission revised those rules in a 2018 Report and Order (FCC 18–21). The Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. Those rules: (1) place liability to compensate PSPs for payphone-originated calls on the facilities-based long distance carriers or switch-based resellers (SBRs) from whose switches such calls are completed; (2) define these responsible carriers as ''Completing Carriers'' and require them to develop their own system of tracking calls to completion; (3) require Completing Carriers to file with PSPs a quarterly report and also submit an attestation by a company official, including but not limited to the chief financial officer (CFO), that the payment amount for that quarter is accurate and is based on 100% of all completed calls; (4) require quarterly reporting obligations for other facilities-based long distance carriers in the call path, if any, and define these carriers as ''Intermediate Carriers;'' and (5) give parties flexibility to agree to alternative compensation arrangements (ACA) so that small Completing Carriers may avoid the expense of instituting a tracking system. The revisions adopted in the 2018 Report and Order (1) eliminated the payphone call tracking system audit and associated reporting requirements; (2) permitted a company official, including but no longer limited to, the chief financial officer (CFO), to certify that a Completing Carrier's quarterly compensation payments to PSPs are accurate and complete; and (3) eliminated expired interim and intermediate per-payphone compensation rules that no longer apply to any entity. They thus significantly decreased the paperwork burden on carriers.
