plan administrator must disclose information it has submitted to PBGC in connection with a distress termination filing, and a plan administrator or plan sponsor must disclose information it has submitted to PBGC in connection with a PBGC-initiated termination. The provisions also require PBGC to disclose the administrative record relating to a PBGC-initiated termination upon request by an affected party.

The collection of information has been approved by OMB under control number 1212–0065 (expires February 28, 2027). PBGC intends to request that OMB extend its approval for another three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that approximately 25 plans will terminate as distress or PBGC-initiated terminations each year. PBGC further estimates that participants or other affected parties will annually request termination information in connection with approximately one-quarter of those terminations, resulting in approximately six requests per year (¼ of 25). PBGC estimates that the hour burden for each request will be about 18 minutes. PBGC expects that the staff of plan administrators and sponsors will perform the work in-house and that no work will be contracted to third parties. The total annual hour burden is estimated to be 1 hour and 48 minutes (6 plans × 18 minutes), and the total annual cost burden is estimated to be $0.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

The RRB is further required by section 8(c)(2) of the Act (45 U.S.C. 358(c)(2)) to publish the amounts so determined and proclaimed. The RRB is required by section 12(r)(3) of the Act (45 U.S.C. 362(r)(3)) to publish by December 11, 2026, the computation of the calendar year 2027 monthly compensation base (section 1(i) of the Act) and amounts described in sections 1(k), 2(c), 3 and 4(a–2)(i)(A) of the Act which are related to changes in the monthly compensation base. Also, the RRB is required to publish, by June 11, 2027, the maximum daily benefit rate under section 2(a)(3) of the Act for days of unemployment and days of sickness in registration periods beginning after June 30, 2027.

Pursuant to section 8(c)(2) and section 12(r)(3) of the Railroad Unemployment Insurance Act (Act) (45 U.S.C. 358(c)(2) and 45 U.S.C. 362(r)(3), respectively), the Board gives notice of the following:

1. The accrual balance of the Railroad Unemployment Insurance (RUI) Account, as of June 30, 2026, is $331,783,262.40;

2. The September 30, 2026, balance of any new loans to the RUI Account, including accrued interest, is zero;

3. The system compensation base is $5,059,021,508.02 as of June 30, 2026;

4. The cumulative system unallocated charge balance is ($540,735,331.54) as of June 30, 2026;

5. The pooled credit ratio for calendar year 2027 is zero;

6. The pooled charged ratio for calendar year 2027 is zero;

7. The surcharge rate for calendar year 2027 is zero;

8. The monthly compensation base under section 1(i) of the Act is $2,235 for months in calendar year 2027;

9. The amount described in sections 1(k) and 3 of the Act as ''2.5 times the monthly compensation base'' is $5,587.50 for base year (calendar year) 2027;

10. The amount described in section 4(a–2)(i)(A) of the Act as ''2.5 times the monthly compensation base'' is $5,587.50 with respect to disqualifications ending in calendar year 2027;

11. The amount described in section 2(c) of the Act as ''an amount that bears the same ratio to $775 as the monthly compensation base for that year as computed under section 1(i) of this Act bears to $600'' is $2,887 for months in calendar year 2027;

12. The maximum daily benefit rate under section 2(a)(3) of the Act is $107 with respect to days of unemployment and days of sickness in registration periods beginning after June 30, 2027.

Surcharge Rate

A surcharge is added in the calculation of each employer's contribution rate, subject to the applicable maximum rate, for a calendar year whenever the balance to the credit of the RUI Account on the preceding June 30 is less than the greater of $100 million or the amount that bears the same ratio to $100 million as the system compensation base for that June 30 bears to the system compensation base as of June 30, 1991. If the RUI Account balance is less than $100 million (as indexed), but at least $50 million (as indexed), the surcharge will be 1.5 percent. If the RUI Account balance is less than $50 million (as indexed), but greater than zero, the surcharge will be 2.5 percent. The maximum surcharge of 3.5 percent applies if the RUI Account balance is less than zero.

The ratio of the June 30, 2026 system compensation base of $5,059,021,508.02 to the June 30, 1991 system compensation base of $2,763,287,237.04 is 1.83079828. Multiplying 1. 83079828 by $100 million yields $183,079,828.00. Multiplying $50 million by 1. 83079828 produces $91,539,914.00. The Account balance on June 30, 2026, was $331,783,262.40. Accordingly, the surcharge rate for calendar year 2027 is zero.

Pooled Credit

A pooled credit is applied in the calculation of each employer's contribution rate, subject to the applicable minimum rate, for a calendar year whenever the balance to the credit of the RUI Account on the preceding June 30 is more than the greater of $250 million or the amount that bears the same ratio to $250 million as the system compensation base for that June 30 bears to the system compensation base as of June 30, 1991. If the balance is more than the greater of $250 million or the indexed $250 million, the excess amount is divided by the system compensation base for the preceding calendar year, resulting in the pooled credit amount.

The ratio of the June 30, 2026 system compensation base of $5,059,021,508.02 to the June 30, 1991 system compensation base of $2,763,287,237.04 is 1.83079828. Multiplying 1.83079828 by $250 million yields $457,699,570.00. The Account balance on June 30, 2026, was $331,783,262.40. Accordingly, the
