Part 1 of the application was submitted on December 31, 2025, and consisted of a limited work authorization request pursuant to 10 CFR 50.10(d), ''Request for limited work authorization,'' three exemption requests, and a comprehensive environmental report. In Part 1, Palisade SMR was seeking NRC approval to conduct certain early construction activities of a dual-unit SMR–300 plant at the PEC in Covert, Michigan. In Part 2, Palisades SMR is seeking NRC approval to complete construction activities of the dual-unit SMR–300 plant site.

Palisades SMR submitted Part 2 of its application as part of a phased application approach for a construction permit for a utilization facility, as described in 10 CFR 2.101(a)(9) and 10 CFR 2.600(d).

The NRC staff is currently undertaking its acceptance review of the application. If the application is accepted for docketing, subsequent **Federal Register** notices will be issued that address the acceptability of the tendered construction permit application for docketing and provisions for participation of the public in the permitting process. These weekly notices of receipt and availability of the application are being provided in accordance with the requirements in 10 CFR 50.43(a)(3).

Authority: 42 U.S.C. 2011 *et seq.*

Dated: November 13, 2026.

For the Nuclear Regulatory Commission.

Michelle Hayes,

Chief, Advanced Reactor Licensing Branch 2, Division of Advanced Reactor Licensing, Office of Advanced Reactors.

NUCLEAR REGULATORY COMMISSION

[Docket No. 07007027; License No. SNM–7007; EAF–RII–2026–0052; NRC–2026–5050]

In the Matter of TRISO–X, LLC; Confirmatory Order Modifying License

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing a Confirmatory Order to TRISO–X, LLC (the licensee), as a result of a successful Alternative Dispute Resolution (ADR) mediation. On June 9, 2026, the NRC notified the licensee of an apparent violation being considered for escalated enforcement. The apparent violation involved the implementation of management measures to ensure the design basis supporting the structural stability function of the TX–1 process building's main force resisting system (MFRS) was maintained during construction. The NRC provided the licensee with the opportunity to respond through a written response, a Pre-decisional Enforcement Conference (PEC), or ADR. The licensee elected to participate in ADR, and mediation sessions were held on July 29 and August 20, 2026, during which the parties reached an Agreement in Principle. As part of the agreement, the licensee committed to taking certain corrective actions and consented to the issuance of a Confirmatory Order to make those commitments legally binding and resolve the apparent violation without further enforcement action by the NRC. The Confirmatory Order is effective upon issuance.

DATES: The Confirmatory Order was issued on October 21, 2026.

ADDRESSES: Please refer to Docket ID NRC–2026–5050 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:
