Telephone Systems (MLTS) environments, providers must provide automated dispatchable location with 911 calls. For on-premises, non-fixed devices associated with an MLTS, the MLTS operator or manager must provide automated dispatchable location to the appropriate PSAP when technically feasible; otherwise they must provide either dispatchable location based on end-user manual update, or alternative location information. For off-premises MLTS calls to 911, the MLTS operator or manager must provide automatic dispatchable location if it is technically feasible to do so. If this is not technically feasible, the MLTS operator or manager must provide either dispatchable location based on end user manual update or enhanced location information. Enhanced location information may be coordinate-based and shall consist of the best available location that can be obtained from any available technology or combination of technologies at reasonable cost. The requirements adopted in the *2019 Order* account for variance in the feasibility of providing dispatchable location for non-fixed MLTS 911 calls and the means available to provide it.

The information collection requirements associated with these rules will ensure that Fixed Telephony and MLTS providers have the means to provide 91l callers' locations to PSAPs, thus reducing response times for emergency services.

TD Logistics, Inc., Complainant v. Zim American Integrated Shipping Services Co., LLC and Zim Integrated Shipping Services Ltd., Respondents; Notice of Filing of Complaint and Assignment

Notice is given that a complaint has been filed with the Federal Maritime Commission (the ''Commission'') by TD Logistics, Inc. (the ''Complainant'') against Zim American Integrated Shipping Services Co., LLC and Zim Integrated Shipping Services Ltd. (collectively, the ''Respondents''). Complainant states that the Commission has subject-matter jurisdiction over this complaint pursuant to the Shipping Act of 1984 and personal jurisdiction over Respondents as a ''common carrier'' or ''ocean common carrier,'' as those terms are defined in 46 U.S.C. 40102(7) and (18), respectively.

Complainant is a corporation organized under the laws of the state of California, with a principal place of business in Hacienda Heights, California.

Complainant identifies respondent ZIM Integrated Shipping Service Ltd. an ocean carrier with its corporate office in Haifa, Israel, whose agent in the United States is respondent Zim American Integrated Shipping Services Co. LLC, a vessel operating ocean common carrier, with its principal place of business located in Norfolk, Virginia.

Complainant alleges these violations arose from Respondents incorrectly invoicing Complainant for demurrage and detention charges, filing retaliatory legal action in a United States district court, refusing to meaningfully engage in dispute resolution efforts, and other acts and omissions of Respondents.

An answer to the complaint must be filed with the Commission within 25 days after the date of service.
