SUPPLEMENTARY INFORMATION:

Title: Confidential Close Call Transit Data.

OMB Control Number: 2138–0044.

Type of Review: Renewal of information collection.

Respondents: WMATA employees.

Estimated Number of Respondents: 150.

Estimated Time per Response: 60 minutes.

Frequency: Annual.

Total Annual Burden Hours: 150 hours.

Abstract: The Confidential Close Call Program for Transit is a collaborative program between BTS, WMATA, the Amalgamated Transit Union (ATU) Local 689, the International Brotherhood of Teamsters (IBT) Local 922, and the Office & Professional Employees International Union (OPEIU) Local 2. The program provides a confidential platform to facilitate the voluntary reporting of close call events without fear of discipline. The program was established in 2013 for rail employees and expanded to include bus employees in 2016.

Collecting data on the nation's transportation system is an important component of BTS' mission and responsibility to the transportation community as stated in its authorizing statute (49 U.S.C. 6302). BTS, WMATA, and the labor organizations that represent WMATA employees share a common interest in promoting transit safety based on timely, accurate, and relevant data. BTS, a principal statistical agency within the U.S. Department of Transportation, serves as the independent third party for the program to collect, analyze, and maintain confidential close call data. Under the program, a close call is defined as any situation or circumstance that has the potential for safety consequences but did not result in an adverse safety event. Knowledge about a close call presents an opportunity to address unsafe work conditions and practices, prevent accidents, contribute to decision-making, and improve overall safety in the workplace.

BTS collects close call reports submitted by WMATA employees, conducts employee interviews, develops and maintains an analytical database containing reported data and other pertinent information, and provides statistical analysis to WMATA. Data shared with BTS by WMATA employees is treated confidentially and protected by BTS under the Confidential Information Protection and Statistical Efficiency Act of 2018 (CIPSEA), codified as amended at 44 U.S.C. 3561–3583. Only statistical and non-sensitive information will be made available through publications.

Voluntary reporting of close calls to a confidential system provides a tool to identify and correct weaknesses within WMATA and prevents accidents. Close call reporting fosters a voluntary, cooperative, non-punitive environment to communicate safety concerns. Through the analysis of the data that is reported, WMATA receives information about factors that contribute to unsafe events, which becomes the catalyst to develop new training programs and identify root causes of adverse events. The database also provides valuable information regarding precursors to safety risks and contributes to research and development of intervention programs aimed at averting accidents and fatalities.

Employees involved in reporting a close call incident are asked to fill out a report and participate in a brief, confidential interview. Employees submit the report electronically to BTS. Reporting employees will be asked to provide information such as: (1) name and contact information; (2) time and location of the event; (3) a short description of the event; (4) contributing factors to the close call; and (5) any other information that might be useful in determining a root cause for such events.

Data Confidentiality Provisions: Data collected under the Confidential Close Call Program are protected under CIPSEA. In accordance with CIPSEA, these data will be used exclusively for statistical purposes and will not be disclosed in identifiable form except with the informed consent of the respondent.

Annual Burden Discussion: It is estimated that the time to complete a close call report and participate in a brief confidential interview will be no than 60 minutes for a maximum total burden of 150 hours (150 reports * 60 minutes/60 = 150 hours). Reports are submitted when there is a qualifying event, *i.e.,* when a close call occurs.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of BTS's functions; (2) the accuracy of the estimated burden; (3) ways for BTS to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. Comments received after the comment closing date will be included in the docket and will be considered to the extent practicable.

Proposed Third-Party Risk Management Guidance; Extension of Comment Period

AGENCY: The Office of the Comptroller of the Currency (OCC), Treasury, the Board of Governors of the Federal

Reserve System (Board), the Federal Deposit Insurance Corporation (FDIC), and the National Credit Union Administration (NCUA).

ACTION: Proposed interagency guidance and request for comment; extension of comment period.

SUMMARY: On September 15, 2026, the OCC, Board, FDIC, and NCUA (collectively, the agencies) published in the **Federal Register** a proposed interagency guidance and request for comment on third-party risk management. The proposed guidance would reflect the agencies' supervisory experience and lessons learned through examining banking organizations' third-party risk management practices and would discuss the potential benefits that may accrue when a banking organization aligns its third-party risk management practices in relation to the reasonably assessed risk levels specific to each of its third-party relationships, among other things. Public comments were requested by November 16, 2026. The agencies have determined that an extension of the comment period until December 16, 2026, is appropriate.

DATES: The comment period for the notice published on September 15, 2026 (91 FR 58536) is extended. Comments must be received on or before December 16, 2026.

ADDRESSES:
