opportunity to join NOAA scientists for a research experience at sea doubles as both highly valuable professional development for the educators (see Section 4002(b)(5)), increasing their own marine science literacy and skills, and as an avenue to increase their students' interest and participation in STEM (Science, Technology, Engineering, and Math) (see Section 4002(b)(1)).

This collection covers the Teacher at Sea Program application. The online application solicits information from interested educators, including basic personal information, information about the educator's school or institution, teaching experience, lesson development experience, and ideas for applying program experience in their classrooms. The application also requires recommendations (in the form of questionnaires) from two professional references nominated by each applicant. This collection enables NOAA to select suitable participants for a limited number of opportunities.

Selected educators write a blog documenting the events and scientific work of their cruise. Upon return, they develop ideas for classroom activities based on what they learned while at sea. These materials are then made available to other educators so they may benefit from the experience without actually going to sea themselves.

NOAA does not collect information from this universe of respondents for any other purpose than to determine which educators will participate in the NOAA Teacher at Sea Program.

This submission revises the previous collection to remove redundant instruments. The NOAA Health Services Questionnaire, which selected educators must complete in order to participate in the program, is covered under its own OMB Control Number (0648–0824) and need not be included in this collection. Additionally, participating educators are no longer required to submit a final report.

Affected Public: Individuals.

Frequency: Once.

Respondent's Obligation: Voluntary.

Legal Authority: America COMPETES Act.

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0283.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Processed Products Family of Forms

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 19, 2027.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at *NOAA.PRA@noaa.gov.* Please reference OMB Control Number 0648–0018 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Veronica Pereira, NOAA Fisheries Office of Science and Technology, 1315 East West Highway, Silver Spring, MD 20910, (301)-427–8117, *Veronica.Pereira@noaa.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of the current information collection. The National Oceanic and Atmospheric Administration (NOAA) Fisheries Service annually collects information from seafood and industrial fishing processing plants on the volume and value of their processed fishery products and their monthly employment figures. NOAA also collects monthly production volume of fish meal, oil, and soluble. The information gathered is used by NOAA in the economic and social analyses developed when proposing and evaluating fishery management actions. The data are also used in annual reports such as Fisheries of the United States and are provided to other agencies, academia, and industry members as needed and allowed through the Magnuson Stevens Act.

II. Method of Collection

Responses are submitted by mail, via postage-paid envelopes provided by NOAA Fisheries. If preferred by the processor, an electronically fillable pdf can also be provided and transmitted via encrypted messaging. Lastly, as an alternative option, interested processors report online through our Fisheries One Stop Shop (FOSS) portal and enter and submit data electronically.

III. Data

OMB Control Number: 0648–0018.

Form Number(s): NOAA Forms 88–13, 88–13C.

Type of Review: Regular submission [extension of a current information collection].

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 620.

Estimated Time per Response: Annual Survey of Seafood Processors: 30 minutes and Monthly Meal and Oil Report: 15 minutes.

Estimated Total Annual Burden Hours: 310 hours.

Estimated Total Annual Cost to Public: $0.

Respondents' Obligation: Required to obtain benefits.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (MSA).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the

accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Type-Approval Requirements for Vessel Monitoring Systems (VMS)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on June 29, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Type-Approval Requirements for Vessel Monitoring Systems (VMS).

OMB Control Number: 0648–0789.

Form Number(s): None.

Type of Request: Regular submission (extension of currently approved collection).

Number of Respondents: 10.

Average Hours per Response: Initial Application: 80 hours; Changes to Type-Approval: 24 hours; Revocation Response: 24 hours; Maintenance/Diagnostic and Troubleshooting Support: 1,076 hours.

Total Annual Burden Hours: 6,608 hours.

Needs and Uses: This request is for extension of a currently approved information collection. The current Code of Federal Regulations (CFR) at Title 50, part 600, subpart Q, sets forth the requirements for Enhanced Mobile Transceiver Units (EMTUs) to be type-approved by NMFS for use in federal fisheries programs. These EMTUs can either be satellite-linked systems or cellular-based hardware and software. Respondents for type-approval of vessel monitoring system (VMS) satellite- or cellular-based systems must submit a written type-approval request and electronic copies of supporting materials that include certain required information. The National Marine Fisheries Service (NMFS) Office of Law Enforcement (OLE) uses the information submitted to assess whether an EMTU or EMTU–C meets minimum technical specifications and can be approved for use in the NMFS VMS program. The information currently required to accompany an application for type-approval of VMS satellite-based systems is set forth at 50 CFR 600.1502 through 600.1507. The information required for type-approval of VMS cellular-based systems will be substantially similar and identical except where specifically indicated (*e.g.,* EMTU-Cs will not be required to report the at-sea loss of communications signals, as proposed in 50 CFR 600.1503(e)(5)).

Information requested in the type-approval application for EMTU-Cs and EMTUs includes the information identified in 50 CFR 600, subpart Q, more specifically, 50 CFR 600.1501 through 600.1509. This identified information is also embodied in the Type-Approval Matrix form (available from NMFS OLE) that can be used by a respondent to more easily organize and submit the required information in their type-approval request to NMFS. The information will include information regarding: Characteristics of the EMTU–C or EMTU, Associated entities including manufacturer and sellers, Communication functionalities, Data formats, Data transmission details, Latency requirements, Messaging formats and transmission details, electronic forms, Data security, Customer service, Durability, and Applicant's data handling requirements.

Affected Public: Business or other for-profit organizations.

Frequency: Variable. Estimated at once every 3 years.

Respondent's Obligation: Required to obtain or retain benefits.

Legal Authority: The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) requires that the National Marine Fisheries Service (NMFS) and regional fishery management councils prevent overfishing and requires the collection of reliable data essential to the effective conservation, management, and scientific understanding of the nation's fishery resources, including vessel monitoring systems.

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collection currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0789.
