following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by December 18, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Reginald Lucas, (571) 372–7574, *whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.*

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: MilGears Platform; OMB Control 0704–MILG.

Type of Request: New.

Number of Respondents: 50,000.

Responses per Respondent: 1.

Annual Responses: 50,000.

Average Burden per Response: .5 hours.

Annual Burden Hours: 25,000 hours.

Needs and Uses: The DoW developed the MilGears platform to support service members, veterans, and other users in identifying career pathways. This information collection has been expanded to support the management of educational and transitional benefits, including Tuition Assistance, credentialing, apprenticeships, and SkillBridge opportunities. The data collected is necessary to provide personalized recommendations, manage enrollments, process benefit applications, and facilitate a seamless user experience. The collection is essential for the platform's algorithms, improves user features, and advances DoW-wide workforce development initiatives in alignment with federal mandates for military-to-civilian transition and career readiness.

Respondents for this information collection include service members, veterans, and members of the general public who are interested in exploring customized careers and credentialing pathways. The goal is to support informed decision-making as individuals navigate their unique career trajectories.

Respondents voluntarily provide personal and professional information as part of the process to establish a user account within the MilGears platform. These accounts are designed to support data continuity and a more tailored user experience as individuals explore career and credentialing opportunities aligned with their goals, experiences, and interests. All data is collected online via the MilGears platform.

Users may learn about MilGears and this data collection through a variety of channels, including the Transition Assistance Program (TAP), Credentialing Assistance (CA) application forms, career counselors, or through online search. Once aware of the platform, users can access it at: *https://milgears.osd.mil/.* Upon visiting the platform, users can explore a suite of tools and resources that support career exploration and planning.

The data collected through the MilGears platform will be used to generate personalized recommendations for careers, credentials, and training opportunities; link military occupations to civilian career pathways and industry-recognized competencies; evaluate user engagement and satisfaction to guide ongoing platform improvements; support the development of Learning and Employment Records (LERs); provide DoW leadership with actionable insights on user trends to inform workforce planning; enable users to create persistent accounts for storing information and building individualized career pathways; and promote interoperability across DoW human resource systems and data sources.

Affected Public: Individuals or households.

Frequency: On Occasion.

Respondent's Obligation: Voluntary.

DoW Clearance Officer: Mr. Reginald Lucas.

Dated: November 16, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001–FR–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2547–095]

Village of Swanton, Vermont; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for license for the Highgate Falls Hydroelectric Project No. 2547 (project), located on the Missisquoi River in the Town of Highgate, Franklin County, Vermont, and prepared an Environmental Assessment (EA) for the project.[1]

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA may be viewed on the Commission's website at *http://www.ferc.gov* using the ''eLibrary'' link. Enter the docket number excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at *FERCOnlineSupport@ferc.gov,* (866) 208–3676 (toll-free), or (202) 502–8659 (TTY).

You may also register online at *https://ferconline.ferc.gov/FERCOnline.aspx* to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed by 5:00 p.m. Eastern Time on December 14, 2026.

The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at *https://ferconline.ferc.gov/FERCOnline.aspx.* Commenters can submit brief comments up to 10,000 characters, without prior registration, using the eComment system at *https://ferconline.ferc.gov/QuickComment.aspx.* For assistance, please contact FERC Online Support. In lieu of electronic filing, please send a paper copy via U.S. Postal Service to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P–2547–095.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov.*

[1] For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX–019–20–000–1760606606.

For further information, contact Arash Barsari by email at *Arash.JalaliBarsari@ferc.gov* or by telephone at (202) 502–6207.

(Authority: 18 CFR 2.1)

Dated: November 13, 2026.

Carlos D. Clay,

Deputy Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF26–15–000]

Northwest Pipeline, LLC; Notice of Scoping Period Requesting Comments on Environmental Issues for the Planned Silver Spur Project and Notice of Public Scoping Sessions

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document that will discuss the environmental impacts of the Silver Spur Project involving construction and operation of facilities by Northwest Pipeline, LLC (Northwest) in Twin Falls County, Idaho and Elko County, Nevada. The Commission will use this environmental document in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. This gathering of public input is referred to as ''scoping.'' The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission's NEPA process is described below in the *NEPA Process and Environmental Document* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on December 14, 2026. Comments may be submitted in written or oral form. Further details on how to submit comments are provided in the *Public Participation* section of this notice.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the environmental document. Commission staff will consider all written or oral comments during the preparation of the environmental document.

If you submitted comments on this project to the Commission before the opening of this docket on September 1, 2026, you will need to file those comments in Docket No. PF26–15–000 to ensure they are considered.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable easement agreement. You are not required to enter into an agreement. However, if the Commission approves the project, the Natural Gas Act conveys the right of eminent domain to the company. Therefore, if you and the company do not reach an easement agreement, the pipeline company could initiate condemnation proceedings in court. In such instances, compensation would be determined by a judge in accordance with state law. The Commission does not subsequently grant, exercise, or oversee the exercise of that eminent domain authority. The courts have exclusive authority to handle eminent domain cases; the Commission has no jurisdiction over these matters.

A fact sheet prepared by the FERC entitled ''An Interstate Natural Gas Facility On My Land? What Do I Need To Know?'' addresses typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. This fact sheet along with other landowner topics of interest are available for viewing on the FERC website (*www.ferc.gov*) under the Natural Gas, Landowner Topics link.

Public Participation

There are four methods you can use to submit your comments to the Commission. Please carefully follow these instructions so that your comments are properly recorded. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or *FercOnlineSupport@ferc.gov.*

(1) You can file your comments electronically using the *eComment* feature, which is located on the Commission's website (*www.ferc.gov*) under the link to FERC Online. Using eComment is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature, which is located on the Commission's website (*www.ferc.gov*) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on ''eRegister.'' You will be asked to select the type of filing you are making; a comment on a particular project is considered a ''Comment on a Filing''; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (PF26–15–000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

(4) In lieu of sending written comments, the Commission invites you to attend the public scoping sessions its staff will conduct in the project area, scheduled as follows:

Date and time	Location
Tuesday, December 8, 2026, 5:00–8:00 p.m	Wells Combined School Cafeteria, 1378 Lake Avenue, Wells, Nevada 89835; 775–752–3477.
Wednesday, December 9, 2026, 5:00–8:00 p.m.	Mountain Valley High School, 512 Main Avenue North, Twin Falls, Idaho; 208–732–7520.
