not necessary or appropriate in furtherance of the purposes of the Act. CMESC believes that the proposed rule change may enhance competition because, as detailed above, the proposed rule change would provide operational flexibility for Participants by enabling them to leverage existing relationships and market practices, in accordance with the Rules, when submitting transactions for clearance and settlement, thereby facilitating access to CMESC's Clearing Services for eligible secondary market transactions in U.S. Treasury securities. CMESC recognizes that various Members may perceive varying degrees of benefits of the proposed rule change conferred on them, depending on each Member's regulatory status and its entity type. CMESC believes that the effect of the proposed rule change on competition is distributed equally among all types of prospective Members because the proposed changes will apply to all Member types in the same ways and therefore would not disadvantage or favor any particular type of Member. As such, CMESC believes that the proposed rule change would promote competition and does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.
