SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The SQSP is a comprehensive performance management system implemented in 1995 for the UI program and the principal vehicle that state UI agencies use to plan, record, and manage program improvement efforts. SQSP also serves as the grant document through which states receive Federal UI administrative funding. SQSP links program performance with the budget and planning process. The SQSP package also includes key reports associated with workload and cost detail from states used to determine administrative funding in excess of initial funding allocations made to each state.

The SQSP, with its State Plan Narrative, Corrective Action Plans (CAPs), and Integrity Action Plan, represents the state's formal plan and schedule for improving performance. States will continue to use the State Plan Narrative to provide a general summary of the UI program in the state. Actions planned to correct deficiencies for Secretary Standards, Core Measures, and UI programs are expected to be addressed in CAPs. Each SWA is required to submit one CAP for each deficiency. Based on the most recent activity during the FY 2027 SQSP process, a total of 750 CAPs were submitted from SWAs. This is a decrease of 124 CAPs from the last OMB approval cycle and represents a significant decline in the burden associated with the SQSP information collection. ETA proposes extending this collection with a revision due to the change in estimated burden.

The Secretary of Labor is authorized to provide funds to administer the UI program and to govern the expenditures of those funds. The SQSP is a major part of the Department's program oversight and governance and administrative funding distribution process. The Social Security Act sections 302, and 303(a)(8) and (9), authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0132.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (*e.g.,* permitting electronic submission of responses).
