SUPPLEMENTARY INFORMATION:

I. Notice of the Applications for Expansion

OSHA is providing notice that Intertek Testing Services NA, Inc., (ITSNA) is applying to expand the current recognition as a NRTL. ITSNA requests the addition of three test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by NRTLs or applicant organizations for

initial recognition, as well as for expansion or renewal of recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including ITSNA, which details that NRTL's scope of recognition. These pages are available from the OSHA website at *https://www.osha.gov/dts/otpca/nrtl/index.html.*

II. General Background on the Applications

ITSNA submitted an application, dated June 24, 2024 (OSHA–2007–0039–0081), to expand recognition to include five additional test standards. This application was amended on September 2, 2026, removing three standards from the original application (OSHA–2007–0039–0083). ITSNA also submitted a separate application on July 29, 2025 (OSHA–2007–0039–0082), to expand their NRTL scope of recognition to include an additional standard. This expansion covers the remaining two standards from the amended September 2026 application and the one standard in the July 2025 application. OSHA staff performed a detailed analysis of the application packets and other pertinent information. OSHA did not perform any on-site reviews in relation to these applications.

Table 1, below, lists the test standards found in ITSNA's applications for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED TEST STANDARDS FOR INCLUSION IN ITSNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 962	Household and Commercial Furnishings.
UL 3703	Standard for Solar Trackers.
UL 2056	Power Banks.

III. Preliminary Findings on the Applications

ITSNA submitted acceptable applications for expansion of the scope of recognition. OSHA's review of the application files and related material preliminarily indicates that ITSNA can meet the requirements prescribed by 29 CFR 1910.7 for expanding recognition to include the addition of the three test standards listed above for NRTL testing and certification. This preliminary finding does not constitute an interim or temporary approval of ITSNA's applications. OSHA seeks public comment on these preliminary determinations.

IV. Public Participation

OSHA welcomes public comment as to whether ITSNA meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits.

Commenters needing more time to comment must submit a request in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified.

To review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor. These materials also are generally available online at *https://www.regulations.gov* under Docket No. OSHA–2007–0039 (for further information, see the ''*Docket*'' heading in the section of this notice titled **ADDRESSES**).

OSHA staff will review all comments to the docket submitted in a timely manner and after addressing the issues raised by these comments, make a recommendation to the Assistant Secretary for Occupational Safety and Health on whether to grant ITSNA's applications for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the applications. In making these decisions, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

V. Authority and Signature

Amanda Laihow, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 7–2025 (90 FR 27878, June 30, 2025), and 29 CFR 1910.7.

Signed at Washington, DC, on November 2, 2026.

Amanda Laihow,

Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health.
