mandatory. See 40 CFR 49.122, 49.124, 49.126, 49.130 through 135, 49.138, and 49.139.

Estimated number of respondents: 1,502 (total).

Frequency of response: Annual or occasional.

Total estimated burden: 4,034 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $395,412 (per year), which includes $0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 433 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The increases were primarily associated with a slight increase in the number of respondents and burden estimate for conducting an annual survey and adjusting fugitive particulate matter control plans under the fugitive particulate matter rule (49.126), and an increase in the number of respondents registering air pollution sources and reporting emissions (49.138).

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through November 30, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 30, 2026 during a 60-day comment period (91 FR 48,107). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at *www.regulations.gov* or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit *http://www.epa.gov/dockets*.

Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7(a) requires that any person who produces pesticides, active ingredients or devices subject to the Act must register with the Administrator of EPA the establishment in which the pesticide, active ingredient or device is produced. This section further requires that applications for registration of any establishment shall include the name and address of the establishment and of the producer who operates such an establishment. EPA Form 3540–8, Application for Registration of Pesticide-Producing and Device-Producing Establishments, is used to collect the establishment registration information required by this section.

FIFRA Section 7(c) requires that any producer operating an establishment registered under Section 7(a) report to the Administrator within 30 days after it is registered, and annually thereafter by March 1st for certain pesticide or device production and sales or distribution information. The producers must report which types and amounts of pesticides, active ingredients, or devices are currently being produced, were produced during the past year, or sold or distributed in the past year. The supporting regulations at 40 CFR part 167 provide the requirements and time schedules for submitting production information. EPA Form 3540–16, Pesticide Report for Pesticide-Producing and Device-Producing Establishments, is used to collect the pesticide production information required by Section 7(c) of FIFRA.

Establishment registration information, collected on EPA Form 3540–8, is a one-time requirement for all pesticide-producing and device-producing establishments. Pesticide and device production information, reported on EPA Form 3540–16, is required to be submitted within 30 days after the company is notified of its pesticide-producing or device-producing establishment number, and annually thereafter on or before March 1. Pesticide-producing and device-producing establishments may electronically submit their establishment registration information and pesticide production information through EPA's Central Data Exchange (CDX).

Form Numbers: 3540–8 and 3540–16.

Respondents/affected entities: Establishments producing pesticides.

Respondent's obligation to respond: Mandatory (40 CFR part 167).

Estimated number of respondents: 20,003 (total).

Frequency of response: Initial and Annually.

Total estimated burden: 32,155 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $2,899,331.40 (per year), which includes $0 annualized capital or operation & maintenance costs

Changes in the Estimates: There is a decrease of 1,065 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a reduction in the number of forms submitted. There was a decrease in the number of respondents submitting each form, which decreased the total burden hours, but there is an overall increase in the total estimated cost of respondent burden due to an increase in the estimated labor costs (increase in hourly wages). The total estimated increase in respondent costs from these changes in labor costs and adjustment to the total hours is $163,363.26.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.

Proposed Modification of NPDES General Permit for New and Existing Sources and New Dischargers in the Offshore Subcategory of the Oil and Gas Extraction Category for the Western Portion of the Outer Continental Shelf of the Gulf of America (GMG290000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final NPDES General Permit Modification.

SUMMARY: The Regional Administrator of Region 6 today provides notice that the National Pollutant Discharge Elimination System (NPDES) General Permit No. GMG290000 for existing and new sources and new dischargers in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category, located in and discharging to the Outer Continental Shelf offshore of Louisiana and Texas, was modified on November 2, 2026 with an effective date of November 2, 2026. The discharge of produced water to that portion of the Outer Continental Shelf from Offshore Subcategory facilities located in the territorial seas of Louisiana and Texas is also authorized by this permit.

DATES: This permit was issued November 2, 2026, is effective on November 2, 2026, and expires May 10, 2028. This effective date is necessary to provide dischargers with the immediate opportunity to comply with Clean Water Act (CWA) requirements in light of the expiration of the compliance period for acute Whole Effluent Toxicity Testing for Well Treatment, Completion and Workover Fluids. In accordance with 40 CFR 23, this permit shall be considered issued for the purpose of judicial review on December 2, 2026. Under section 509(b) of the CWA, judicial review of this general permit can be held by filing a petition for review in the United States Court of Appeals within 120 days after the permit is considered issued for judicial review. Under section 509(b)(2) of the CWA, the requirements in this permit may not be challenged later in civil or criminal proceedings to enforce these requirements. In addition, this permit may not be challenged in other agency proceedings.

FOR FURTHER INFORMATION CONTACT: Ms. Nichole Young, Region 6, U.S. Environmental Protection Agency, 1201 Elm Street, Dallas, Texas, 75270; telephone number: (214) 665–6447; email address: *young.nichole@epa.gov*.

SUPPLEMENTARY INFORMATION: Notice of the proposal of the draft modified permit, Draft Environmental Assessment (EA) and Preliminary Finding of No Significant Impact (FONSI) was published in the **Federal Register** on January 27, 2026 (91 FR 3492). EPA Region 6 has considered all comments received and made changes as listed below. A copy of the Region's responses to comments and the final permit may be found online from the Federal eRulemaking Portal: *http://www.regulations.gov* with Docket ID No EPA–R06–OW–2025–0307. Changes include:

1. Removed Footnote 56 from the permit.

2. Environmental Assessment has been corrected to clarify acute WET testing performed on well treatment, completion, and workover (TCW) discharges from February 2023 to April 2025 showed an ~13% failure rate.

Other Legal Requirements

Other statutory and regulatory requirements are discussed in the fact sheet that include: Executive Order 14192 (90 FR 9065, January 31, 2025); Ocean Discharge Criteria Evaluation; Marine Protection, Research, and Sanctuaries Act; National Environmental Policy Act; Magnuson-Stevens Fisheries Conservation and Management Act; Endangered Species Act; State Water Quality Standards and State Certification; Coastal Zone Management Act; Paperwork Reduction Act; Regulatory Flexibility Act; National Historic Preservation Act; Offshore Subcategory of the Oil and Gas Extraction Point Source Category; 40 CFR 122.62; 40 CFR 124.13; and 40 CFR 124.5(c)(2). Under Executive Order 12866 (58 FR 51735, October 4, 1993), this notice is a ''significant regulatory action.'' Accordingly, EPA submitted this notice to the Office of Management and Budget (OMB) for review under Executive Orders 12866 and 13563 (76 FR 3821, January 21, 2011) and any changes made in response to OMB recommendations have been documented in the docket for this notice.

Walter Mason,

Region 6 Administrator, U.S. Environmental Protection Agency.

Information Collection Being Reviewed by the Federal Communications Commission Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.
