National Institute of Nursing Research; Notice of Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the National Advisory Council for Nursing Research.

The meeting will be partially open to the public as indicated below, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting. The open session will be videocast and can be accessed from the NIH Videocasting and Podcasting website: *https://videocast.nih.gov/.*

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

National Institutes of Health

Statement of Organization, Functions, and Delegations of Authority

AGENCY: National Institute of Health.

ACTION: Notice.

SUMMARY: National Center for the Advancement of Translational Sciences of the National Institute of Health has modified its organizational structure.

SUPPLEMENTARY INFORMATION: Part N, National Institutes of Health (NIH), of the Statement of Organization and Functions for the Department of Health and Human Services (HHS), is amended as set forth below to reflect the reorganization of the National Institute of Health, National Center for the Advancement of Translational Science (NCATS) by retitling and updating the functional Statements (1) the Chemical Genomics Branch to the Translational Models Branch under the Division of Preclinical Innovation within NCATS, (2) revise functional statement of the Office of Special initiatives, (3) abolishing the Office of Drug Development Partnership Programs, and the Office of Translational Medicine under the Office of the Director within NCATS.

Section N, *Organization and Functions,* is amended as follows:

(1) In the *Division of Preclinical Innovation (N92, formerly HN92)* retitle the following:

Chemical Genomics Branch (N924, formerly HN924) to *Translational Models Branch (N924, formerly HN924).* (1) Develop and advance human-based Non-Animal Models (NAMs) as transformative drug discovery and biomedical research tools; (2) Accelerate therapeutic discovery and regulatory science for rare and common diseases using predictive human model systems; (3) Accelerate target discovery using predictive human model systems; (4) Establish the predictive value and usefulness of human-based NAMs as pharmacology and toxicology assessment tools to reduce reliance on animal models; (5) Generate high-quality human biological data to enable AI-driven predictive modeling of drug efficacy and toxicity; (6) Integrate stem cells, tissue engineering, functional genomics, toxicology and data science into a unified human-based translational research enterprise; and (7) Serve as an NIH-wide resource for advancing human-based models research and technologies.
