BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS–HQ–IA–2026–4094; FXIA16710900000–278–FF09A30000; OMB Control Number 1018–0192]

Agency Information Collection Activities; Submission to the Office of Management and Budget; Big Cat Public Safety Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service), are proposing to revise a currently approved information collection.

DATES: Interested persons are invited to submit comments on or before December 21, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *https://www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under Review—Open for Public Comments'' or by using the search function. Please provide a copy of your comments to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: PRB (JAO/3W), 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail); or by email to *Info_Coll@fws.gov.* Please reference ''1018–0192'' in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: Madonna L. Baucum, Service Information Collection Clearance Officer, by email at *Info_Coll@fws.gov,* or by telephone at (703) 358–2503. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the information collection request (ICR) at *https://www.reginfo.gov/public/do/PRAMain.*

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA; 44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR part 1320, all information collections require approval under the PRA. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number.

On June 12, 2023, we published in the **Federal Register** (88 FR 38358) an interim rule (RIN 1018–BH23) which announced our intention to request OMB approval of the information collections contained in this rule. In that interim rule, we solicited comments for 60 days on the information collections, ending on August 11, 2023. All comments received in response to the interim rule were addressed with the ICR for that interim rule submitted to OMB on October 20, 2023 and approved on December 4, 2023. The Service expects to publish a final rule by summer 2027.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Due to delays in publishing the final rule under RIN 1018–BH23, ''Regulations to Implement the Big Cat Public Safety Act,'' pursuant to the Big Cat Public Safety Act (BCPSA; Pub. L. 117–243, December 20, 2022, 136 Stat. 2336), this submission serves as an interim renewal to prevent the information collection from lapsing into noncompliance. As required by 5 CFR 1320, we intend to publish this 30-day **Federal Register** notice to provide the public with an additional opportunity to comment on the information collection, supplementing the 60-day comment period associated with the interim rule (88 FR 38358; June 12, 2023). We are not implementing any changes to the information collection contained in the final rule at this time. Any revisions will be incorporated into the PRA submission when the final rule is published.

The BCPSA was signed into law on December 20, 2022. The purpose of the BCPSA is to amend the Lacey Act Amendments of 1981 (16 U.S.C. 3371–3378) to clarify provisions enacted by the Captive Wildlife Safety Act (CWSA; Pub. L. 108–191, December 19, 2003) and to further the conservation of certain wildlife species. ''Prohibited wildlife species'' (also referred to as ''big cats'') is defined as ''any live species of lion, tiger, leopard, cheetah, jaguar, or cougar or any hybrid of such species'' (16 U.S.C. 3371(h)). This includes any of the following species, or hybrids of any of these species: Lion (*Panthera leo*), tiger (*Panthera tigris*), leopard (*Panthera pardus*), snow leopard (*Uncia uncia*), clouded leopard (*Neofelis nebulosa*), jaguar (*Panthera onca*), cheetah (*Acinonyx jubatus*), cougar (*Puma concolor*) (50 CFR14.252).

The BCPSA built on and amended the CWSA by making it unlawful to import, export, transport, sell, receive, acquire, or purchase in interstate or foreign commerce, or in a manner substantially affecting interstate or foreign commerce, or breed or possess prohibited wildlife species (lions, tigers, leopards, snow leopards, clouded leopards, jaguars,

cheetahs, and cougars, or any hybrids thereof), with certain exceptions. In enacting the BCPSA, Congress recognized the need to end the private ownership of big cats as pets and prohibit exhibitors from allowing public contact with big cats, including cubs. The BCPSA did, however, grant private owners a one-time, 180-day period in which to register their big cats, allowing them to keep their current animals if they registered each such animal with the Service not later than June 18, 2023. This registration allows pre-BCPSA private owners to continue to possess their animals under the pre-BCPSA exception if the owners continue to meet all of the BCPSA's requirements, which are described in our June 12, 2023, interim rule (88 FR 38358). Certain entities outlined in the BCPSA, including exhibitors with valid U.S. Department of Agriculture (USDA) Class C licenses, State agencies, State colleges and universities, State-licensed veterinarians, and wildlife sanctuaries, that meet the requirements for other BCPSA exceptions, were not required to register their big cats with the Service.

In summary, the BCPSA helps to ensure the health and welfare of big cats, protects the public from the dangers associated with private ownership of big cats, and strengthens the Service's ability to combat wildlife trafficking. Additional background on the Lacey Act, CWSA, and BCPSA is available in the preamble to our June 12, 2023, interim rule (88 FR 38358).

The existing and new reporting and/or recordkeeping requirements identified below require review and approval by OMB in conjunction with this submission:

(1) *Amendments—Form 3–200–11, ''Registration Form—Big Cat Public Safety Act'' (Pub. L. 117–243, December 20, 2022, 136 Stat. 2336)—Burden Reduction and Change to Form 3–200–11.* As required by the Service in Form 3–200–11, owners must provide the Service with updates if information concerning the registered big cats changes, as follows:

50 CFR 14.255(d)—Within 10 calendar days as required by the Service in Form 3–200–11, a registered pre-BCPSA owner must update the registration with the Service when a prohibited wildlife species dies or any of the following information changes: The location where the prohibited wildlife species is housed; the protocols taken to prevent breeding; the protocols taken to prevent direct contact between the public and big cat; ownership; or a unique identifier.

Form 3–200–11, ''*Registration Form—Big Cat Public Safety Act* (Pub. L. 117–243, December 20, 2022, 136 Stat. 2336), collected the following information during the initial registration process:

- Name, birth date, and contact information of individual applicant;
- Name, tax ID number, and contact information of business, corporation, or trust, if applicable;
- Information for officer of business, corporation, or trust, if applicable;
- Detailed information for big cats possessed (not including hybrids), to include:

—Common name of big cat;
—Name given to individual big cat, if applicable,
—Genus, species, and subspecies;
—Birthdate and date of acquisition, including supporting documentation;
—Unique identifier information (*i.e.,* microchip or tattoo);
—Sex;
—Description (*e.g.,* eye color, scars, ear tags);
—Photographs of big cat;
—Physical location of individual big cat (if different from registrant's contact information);
—Protocols taken to prevent breeding;
—Protocols taken to prevent direct contact between public and prohibited wildlife species; and
—Copies of all local, State, or Federal licenses held in relation to the big cats, if applicable.

- Detailed information for hybrid big cats possessed, to include:

—Name of hybrid big cat;
—Name given to individual big cat, if applicable,
—Genus, species, and subspecies;
—Birthdate and date of acquisition, including supporting documentation;
—Unique identifier information (*e.g.,* microchip or tattoo);
—Sex;
—Description (*e.g.,* eye color, scars, ear tags);
—Photographs of big cat;
—Physical location of big cat (if different from registrant's contact information);
—Protocols taken to prevent breeding;
—Protocols taken to prevent direct contact between public and prohibited wildlife species; and
—Copies of all local, State, or Federal licenses held in relation to the big cats, if applicable.

- Information collected to amend original registration, to include:

—Genus, species, subspecies, name of big cat, and unique identifier;
—Information for new location when individual big cat is relocated after registration;
—Description of any changes in protocols to prevent breeding as previously described in original registration;
—Description of any changes in protocols to prevent direct contact between the public and the prohibited wildlife as previously described in original registration;
—Change in unique identifier (*i.e.,* microchip or tattoo);
—Contact information for new owner;
—Notification of big cat's death, to include date; and
—The manner of disposal of big cat's remains (requires documentation from veterinarian or other authority describing cause of death and how the remains were disposed).

Justification for Burden Decrease—We are decreasing the estimated burden associated with amendments of Form 3–200–11 to account for a lower number of amendments anticipated to be submitted by owners to the Service per year.

Proposed Changes to Form 3–200–11—We are proposing the following changes to Form 3–200–11 since OMB's last approval at the interim rule stage to:

- Remove registration instructions and initial registration fields, since the BCPSA required owners to register all big cats with the Service by June 18, 2023.
- Retain the amendment portion of the form, which allows registered pre-BCPSA owners to update their existing registrations, including reporting the death of an animal or changes in housing location, breeding-prevention protocols, public-contact prevention protocols, ownership, or unique identifier.

(2) *Population Management and Care Plan (50 CFR14.254(a)(3))*—To qualify for an exception in § 14.257, under certain circumstances, a USDA-licensed entity or USDA-registered Federal facility must provide a population management and care plan to the Service for consideration in accordance with the BCPSA (16 U.S.C. 3372(e)(2)(A)(i)(III)). If a licensed entity or registered Federal facility allows any person who is neither (1) a trained professional employee or contractor of the licensed entity (or an accompanying employee receiving professional training) nor (2) a licensed veterinarian (or a veterinary student accompanying such a veterinarian) to come into direct physical contact with prohibited wildlife, then prior to allowing any such individual to come into direct physical contact with prohibited wildlife species the conservation program of the licensed entity or registered Federal facility must meet certain requirements. One requirement is that the licensed

entity or registered Federal facility must provide a species-specific, publicly available, peer-edited population management and care plan to the Director with justifications that the plan:

- Reflects established conservation science principles;
- Incorporates genetic and demographic analysis of a multi-institution population of animals covered by the plan;
- Promotes animal welfare by ensuring that the frequency of breeding is appropriate for the species;

(3) *Recordkeeping Requirements*—We do not anticipate the recordkeeping requirements will impose any significant burden, because the maintenance of these records is typically a normal business practice. Therefore, complying with the requirement to make records available can likely be met by making available and copying, if needed, a small number of documents pertaining to the possession, transportation, acquisition, disposition, importation, or exportation of the prohibited wildlife species, which we estimate can be completed in an hour or less.

a. *50 CFR 14.254(c), Licensed Entity or Registered Federal Facility*—To qualify for an exception in § 14.257, a licensed entity or a registered Federal facility must maintain complete and accurate records of any possession, breeding, transportation, acquisition, receipt, purchase, sale, disposition, importation, or exportation of prohibited wildlife species.

1. These records must be up to date and include the names and addresses of persons to or from whom any prohibited wildlife species has been acquired, received, imported, exported, purchased, sold, or otherwise transferred (including loans for exhibition, breeding, or otherwise), and the dates of these transactions.

2. The licensed entity or registered Federal facility must maintain these records for the lifespan of each prohibited wildlife species and for 5 years after its death or disposition and must copy these records for Service officials, if requested.

3. The licensed entity or registered Federal facility must make these records available and allow access to its facilities and its prohibited wildlife specimens for inspection by Service officials at reasonable hours.

b. *50 CFR 14.255(d) and (e), Registered Pre-BCPSA Owners—Burden Decrease*—A registered pre-BCPSA owner must maintain complete and accurate records of information for each individual prohibited wildlife species in their possession as required by the Service in the BCPSA registration form (Form 3–200–11) for the lifespan of each individual prohibited wildlife species and for 5 years after its death or disposition and must copy these records for Service officials, if requested.

1. Pre-BCPSA owners are required to maintain records of their BCPSA activities with big cats and provide the Service with updates on registered big cat(s). Owners must update the registration within 10 calendar days if a big cat dies or if there is any change in: the location where the big cat is housed; protocols taken to prevent breeding; protocols taken to prevent direct contact between the public and big cat; ownership; or unique identifier.

2. While the pre-BCPSA owner may not sell or otherwise engage in commerce with prohibited wildlife species, if the pre-BCPSA owner is no longer able to continue to possess their prohibited wildlife species, the pre-BCPSA owner may make arrangements to donate the prohibited wildlife species to a licensed entity, State college, State university, State agency, State-licensed veterinarian, or a wildlife sanctuary, or may make arrangements to abandon the prohibited wildlife species to the Federal Government. The disposition must not be reasonably likely to result in the registered pre-BCPSA owner's economic use, gain, or benefit, including, but not limited to, profit (whether in cash or in kind).

3. These records must be up to date, and the registered pre-BCPSA owner must make these records available and allow access to their facilities and prohibited wildlife specimens for inspection by Service officials at reasonable hours.

Justification for Burden Decrease—We are decreasing the estimated burden associated with the recordkeeping requirements at 50 CFR 14.255(e). Our initial estimates in the previous submissions were higher than the actual number of registered owners and we are now lowering the burden to correct that overage.

c. *50 CFR 14.256(b), Wildlife Sanctuaries*—A wildlife sanctuary must maintain complete and accurate records of any possession, transportation, acquisition, receipt, disposition, importation, or exportation of prohibited wildlife species.

1. These records must be up to date and must include the names and addresses of persons to or from whom any prohibited wildlife species has been acquired, received, imported, exported, or otherwise transferred, and the dates of these transactions.

2. The wildlife sanctuary must maintain these records for the lifespan of each prohibited wildlife species and for 5 years after its death or disposition and must copy these records for Service officials, if requested.

3. The wildlife sanctuary must make these records available and allow access to its facilities and its prohibited wildlife specimens for inspection by Service officials at reasonable hours.

d. *50 CFR 14.257(a), Documentation to Transport Live Prohibited Wildlife*—The prohibitions of § 14.253 do not apply to licensed entities or registered Federal facilities that meet all of the requirements of § 14.254; State colleges, State universities, or State agencies; State-licensed veterinarians; wildlife sanctuaries that meet all of the requirements of § 14.256; or persons who:

1. Can produce documentation showing that they are transporting live prohibited wildlife species solely for the purpose of expeditiously transporting the prohibited wildlife species to individuals or entities that are excepted from the prohibitions in § 14.253; and

2. Has no financial interest (whether in cash or in kind) in the prohibited wildlife species other than payment received for transporting them.

e. *(Removed) 50 CFR 14.257(b), Documentation of Date of Breeding*—The prohibition on possession in § 14.253 does not apply to a registered pre-BCPSA owner who is in possession of any prohibited wildlife species that was:

1. Born and possessed by the registered pre-BCPSA owner before the date of enactment of the BCPSA and meets all of the requirements of § 14.255 for each of the prohibited wildlife species in their possession; or

2. Bred before and born on or after the date of enactment of the BCPSA, to a prohibited wildlife species possessed by the registered pre-BCPSA owner before the date of enactment of the BCPSA, if the registered pre-BCPSA owner provides documentation demonstrating that the breeding occurred before the date of enactment of the BCPSA, and the person meets all of the requirements of § 14.255 for each of the prohibited wildlife species in their possession.

Justification for Removal— We are removing this recordkeeping IC because the requirement to document breeding dates under 50 CFR 14.257(b) is no longer necessary, as registration has ended and breeding is no longer authorized under the BCPSA unless an applicable exception is met.

Copies of Form 3–200–11 associated with this ICR is available via the docket [FWS–HQ–IA–2026–4094] on the

Regulations.gov website. Additionally, the public may request a copy of the form by sending a request to the Service Information Collection Clearance Officer in **ADDRESSES** above.

Title of Collection: Big Cat Public Safety Act (50 CFR part 14, subpart K).

OMB Control Number: 1018–0192.

Form Number: 3–200–11.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individuals, private sector, and State/local/Tribal governments.

Estimated Number of Annual Respondents: 1,830.

Estimated Number of Annual Responses: 1,830.

Estimated Completion Time per Response: 1 hour.

Estimated Annual Burden Hours: 1,830.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: $730.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Madonna Baucum,

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[A2407–014–004–065516; #O2509–014–004–125222.1; LLESJ00000; FLES106810794]

Notice of Application for 299 ROW Application for Coastal Connect Services, LLC; Florida

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of application.

SUMMARY: The Bureau of Land Management (BLM) has received a right-of-way (ROW) application from Coastal Connect Services, LLC for a proposed intrastate natural gas pipeline in Cape Canaveral, Florida. The BLM will complete environmental analysis under the National Environmental Policy Act (NEPA) before deciding whether to authorize the pipeline ROW.

DATES: The application was accepted by BLM Southeastern States District Office on September 30, 2026.

ADDRESSES: The ROW application and maps of the project are available for review at the BLM Southeastern States District Office located at 273 Market Street, Flowood, Mississippi 39232.

NEPA documents associated with this proposal will be released to the public upon completion. Once available, these documents may be accessed online via the following link: *https://eplanning.blm.gov/Project-Home/?id=c6d2b2a5-c9bd-f111-aaae-001dd8029bbb.*

FOR FURTHER INFORMATION CONTACT: Shayne Banks, Acting District Manager, telephone: (601) 919–4652; address: 273 Market Street, Flowood, MS 39232; email: *sbanks@blm.gov.* Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Banks. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The applicant seeks a ROW for a 16-inch diameter natural gas pipeline and related facilities totaling approximately 20.3 miles, including temporary workspaces and minor above ground components such as mainline valves and rust-prevention equipment. The pipeline would provide natural gas services to Space Launch Complex 37 and Launch Complex 39A at Cape Canaveral, Florida, to support future launch operations, and eliminate the need for fuel truck deliveries at these locations. For more detailed information regarding the application, maps, and overall project, refer to **ADDRESSES** section above.

(Authority: 43 CFR 2884.20)

Shayne Banks,

Acting District Manager, Southeastern States District.

Bureau of Land Management

[A2407–014–004–065516, #O2509–014–004–125222.1]

Realty Action: Modified Competitive Sale of 20 Parcels of Public Land in Clark County, Nevada; Modification of Recreation and Public Purposes Act Classification

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action.

SUMMARY: The Bureau of Land Management (BLM) proposes to offer 20 parcels of public land, totaling 200.64 acres in the Las Vegas Valley (Valley), by modified competitive sale at no less than each parcel's fair market value (FMV) pursuant to the Southern Nevada Public Land Management Act of 1998 (SNPLMA), as amended. The sale would be processed in conformance with applicable provisions of the Federal Land Policy and Management Act of 1976 (FLPMA) and BLM regulations. A 4.88-acre parcel proposed for inclusion in the sale was previously part of Recreation and Public Purposes (R&PP) Act lease N–75746. At the request of the lessee, the City of Las Vegas, the BLM approved the relinquishment of these acres from the lease. Because the parcel is no longer subject to the R&PP lease, the BLM proposes to modify the R&PP classification by removing the classification from the 4.88-acre portion of the parcel. This modification is necessary because lands that retain R&PP classification are not available for disposal under SNPLMA, and removing the classification makes parcel NVNV106381471 eligible for nomination in the 20-Parcel SNPLMA Land Sale.

DATES: The BLM will accept written comments regarding the proposed sale and modification to the R&PP classification until January 4, 2027. The BLM will publish this notice of realty action once a week for 3 consecutive weeks in the Las Vegas Review-Journal newspaper. The BLM intends to open the sale for bidding on February 9, 2027, at 8:00 a.m. Pacific Time (PT).

ADDRESSES:

Comments: Mail written comments on the proposed sale and modification to the R&PP classification to the BLM Las Vegas Field Office, Assistant Field Manager, Division of Lands, 4701 North Torrey Pines Drive, Las Vegas, NV 89130.

Availability of sale information: Prior to the sale, a sales matrix will be published on the following website: *https://www.efficientmarkets.com.* The sale matrix provides information specific to each proposed sale parcel such as legal description, physical location, encumbrances, acreage, and FMV. The FMV for each parcel will be available in the sales matrix no later than 30 days prior to the sale.

Bidding site: Bids must be submitted on Efficient Markets website at: *https://www.efficientmarkets.com.*

Additional information: For general information on previous BLM public land sales, go to *https://www.blm.gov/snplma* then click the land sales link. Information concerning the sale parcels, including encumbrances of record,
